THE GALACTIC PLAGUE

You are out on your own.

The only space warrior left who can protect the Earth from the terrors of "The Galactic Plague".

Can you penetrate their defences and destroy them before they destroy you? Alone, in your astro fighter, you leave the Earth's atmosphere to face the enemy fleet as they prepare to destroy your planet.

Your only defences are your laser rockets that you have aboard which blast the enemy into the next solar system! But beware, you face a formidable foe who will descend on you from all sides firing their death ray with devastating consequences!

You are lucky that your astro fighter has the power to regenerate, but only 3 times so use it wisely.

It is now up to you to conquer this terror and to save your planet, the Universe and yourself from the horrors of "The Galactic Plague".

The end of each wave gives 100 points for each space-
craft of the game.
There are 10 different waves.
