IN SEARCH OF THE MOST AMAZING THING

As a boy your Uncle Smoke Bailey found The Most Amazing Thing, and then lost it. The Most Amazing Thing holds great powers and may be able to reveal the meaning of life. The Most Amazing Thing is now a golden metallic ball but it changes form throughout the ages. Smoke wants you to continue the search for this object and when you find it, bring it back to Metallica.

Smoke has a B-Liner for you to use on your journey. The B-Liner is a combination of hot air balloon and dune buggy. You will have to learn to fly through storms and fog. The B-Liner has special tires so you can drive on the sticky tar ground of Darksome Mire without sinking in. Also, you will be equipped with a jetpack that will allow you to fly short distances.

When you enter the underground city of Metallica, you should go to Smoke's apartment. Smoke has very interesting things to tell you about the Mire People who live in odd huts and speak with their antennae. He will tell you about trading

chips or songs with the Mire People in exchange for clues about The Most Amazing Thing. You will also learn about the feared Mire Crabs that you should avoid, Pop-berries that you can eat, Night Rocks that give you fuel for the B-Liner, and Bunchmarks that you see from time to time.

Smoke will give you things that he collected on his travels. You can trade these things with the robots at the Metallican Auction for chips. These chips will let you buy gizmos at the Galactic Store to outfit the B-Liner. You can get software for the B-Liner computer and meters that will help you on your trip.

So go quickly, because if you are clever, persistent, and lucky you might find The Most Amazing Thing and bring it back. Your Uncle Smoke Bailey is counting on you.

Once The Most Amazing Thing is found, its location will change. This allows a player to search for The Most Amazing Thing again and again, each time looking for new clues that will lead to the new location.

Please, Kiddo. Don't go runnin' out into the Darksome Mire until you come to me for plenty of advice. Remember, no one has ever flown the B-liner before, so even if you buy every balloon gizmo in the store, flying the B-Liner will be a risky business. It will take a lot of patience and practice to be a good pilot, but don't give up. You'll get the hang of it. And I may just be the only one who can help you find The Most Amazing Thing!

DARKSOME MIRE

A NOTE TO PARENTS AND EDUCATORS

Anyone from the age of 10 years old on up will enjoy this game.

In Search of The Most Amazing Thing challenges players at all levels of sophistication with a rich variety of experiences that are educational, creative, and entertaining.

The player in the role of the B-Liner pilot goes in search of The Most Amazing Thing in the land of Darksome Mire. From the beginning, decision-making, organization, and note-taking are essential parts of the program. A B-Liner pilot travelling in Darksome Mire must constantly use his or her own judgement to decide the best plan of action under each new set of circumstances. For example, in order for a pilot to deal effectively with the many different cultures he or she will come in contact with, the pilot must keep track of vital information about each culture. Careful note-taking can bring a pilot that much closer to finding The Most Amazing Thing.

Mapmaking and an understanding of trading are other key points in this program. A good pilot will have to use the coordinate system on the map of Darksome Mire to

help plot a course of travel. There will also be a lot of trading and bargaining, so a traveler must become adept at dealing with different exchange rates so as to make the most advantageous deals.

Fun and education are constant companions in In Search of The Most Amazing Thing. This program offers many ways to stimulate a child's natural interests and curiosity. And you, as a parent or educator, can help a child toward further growth and learning simply by becoming involved. In fact, In Search of The Most Amazing Thing can be a terrific opportunity for family members or an entire class to work together as a team. This kind of cooperative effort can be a rewarding experience for everyone.

This game can be played many times. Once The Most Amazing Thing is found, its location will change. This allows a player to search for The Most Amazing Thing again and again, each time looking for new clues that will lead to the new location.
