Thank you for purchasing Crazy Taxi 3: High Roller. Please note that this software is designed only for use with Xbox. Be sure to read this instruction manual thoroughly before you start playing.

**Safety Information**

**About Photosensitive Seizures**

A very small percentage of people may experience a seizure when exposed to certain visual images, including flashing lights or patterns that may appear in video games. Even people who have no history of seizures or epilepsy may have an undiagnosed condition that can cause these “photosensitive epileptic seizures” while watching video games.

These seizures may have a variety of symptoms, including lightheadedness, altered vision, eye or face twitching, jerking or shaking of arms or legs, disorientation, confusion, or momentary loss of awareness. Seizures may also cause loss of consciousness or convulsions that can lead to injury from falling down or striking nearby objects.

The risk of photosensitive epileptic seizures may be reduced by sitting farther from the television screen, using a smaller television screen, playing in a well-lit room, and not playing when you are drowsy or fatigued.

If you or any of your relatives have a history of seizures or epilepsy, consult a doctor before playing.

**Other Important Health and Safety Information**
The Xbox Instruction Manual contains important health and safety information that you should read and understand before using this software.

**Avoid Damage to Your Television**

Do not use with certain televisions. Some televisions, especially front- or rear-projection types, can be damaged if any video games, including Xbox games, are played on them. Static images presented during the normal course of game play may “burn in” to the screen, causing a permanent shadow of the static image to appear at all times, even when video games are not being played. Similar damage may occur from static images created when placing a video game on hold or pause.

Consult your television owner’s manual to determine if video games can be played safely on your set. If you are unable to find this information in the owner’s manual, contact your television dealer or the manufacturer to determine if video games can be played safely on your set.

Unauthorized copying, reverse engineering, transmission, public performance, rental, pay for play, or circumvention of copy protection is strictly prohibited.

The backup files (System and Replay) of this game can only be saved on Xbox’s internal hard disk unit. Never turn off the Xbox console while saving the file. Note also that this game does not support the memory unit (sold separately).

- Never use oddly shaped discs, such as star-shaped or heart-shaped discs.
- Do not leave a disc in the Xbox console for extended periods when not in use.

GAME FLOW

Repeat the following steps and carry as many customers to their destination within the Time Limit. When the Time Limit expires, it is "TIMEUP."

1. Pick Up Customers!

Characters with "$" or number icons over their heads indicate potential customer(s) for a taxi ride. When you stop your cab within the stop zone (the circular outline that appears around where the customer(s) stands), the customer(s) will get in the cab.

* While waiting for the customer(s) to get into the cab, the game clock will continue to run.

2. Drive to the Destination!

Once the customer(s) gets in the cab, the "Destination and Distance Counter", the "Direction Arrow", and the "Customer Time Limit" will be displayed. Use the arrow as a guide to take customers to their destination before the "Customer Time Limit" expires. The customer(s) may pay you a tip in appreciation of your "Crazy" driving (P.16).

* Press the White button to toggle the type of Direction Arrows. The green (default) Direction Arrow will point towards the road to take, while the blue Direction Arrow will always point the direction of the destination.

3. Drop Off the Customer!

The destination is rimmed by a green wall. Stop the cab within the area, and the customer will exit the cab and pay their fare (P.15).

Please also note that when you are carrying a group, you must take all of the customers to their separate destinations in order to receive the fare.

CUSTOMERS’ MARKS

CUSTOMERS WITH A "$" MARK

The color of the customers’ mark ("$") mark indicates the distance to the destination. The size of the stop zone around the customers will also change according to the color of the customers’ mark.

CUSTOMERS WITH A NUMERAL

This number indicates the number of customers in the group. Deliver each customer to their destination with the Customer Time Limit to earn big money. If you fail to deliver all customers, the fare will not be paid.

FARES

When you pick up customers, a Customer Time Limit will be displayed at the center of the screen. If you successfully deliver the customer before this time runs out, the amount of fare will be added to your total earned fare (see bottom left). If time expires, the customer will jump out of the cab without paying (see bottom right).
The three types of fares that can be earned are as follows:

**FARE AND TIPS**

While carrying customers, if you make a radical maneuver to the delight of the customer, a tip will be added to the fare. The following are ways to "please" a customer.

**Angel**

Sex: Male  Age: 18

Height: 5’7”  Weight: 149.9 lbs

Blood Type: B

Number Plate: 602FUN

Angel is only eighteen. He generally relies on his instincts, which can often get him in trouble because he doesn't think about the consequences of his actions. His motto in life is “you only live life once, so enjoy it.” Whenever he isn’t enjoying life, he spends his time thinking about what he can do to enjoy it. This makes him a very positive person, but perhaps also a little too self-focused.

Since he only thinks of enjoying life to the fullest, he does some rather crazy things. His friends may sometimes get a call from him at 3:00am in the morning, asking if they want to go party, or go swim in the ocean. Despite his crazy antics, Angel’s friends find it hard to hate him, because whenever he wants to have fun, he at least always considers his friends.

One of his friends once asked why he worked as a taxi driver. His response was, “It’s a fun way to make a buck. And if I’m not happy, then hey, I’m in a car, so I can go find some fun.”

Angel’s driving technique is superb, and he truly enjoys the thrill of driving, making his job an essential part of his life.
Here's a guy who's truly fascinated with speed. His biggest thrill is trying to see how fast he can go. It's when he's pushing himself and his car to the limit that he feels alive. Honestly, most people who bump into him think he's quite ordinary. "Hey, that guy seems a bit unfriendly," or "that guy seems to have a lot on his mind" is the impression people get when they try to strike a conversation with him. In truth, he's just storing up his energy for the next speed thrill.

Although he's a taxi driver, Bixbite once had the opportunity to go into racing. When he was 20 years old, he had 10 sponsors trying to scout him due to his insane skills. He realized then, that he could be successful, but that it would cost him his privacy. He often debated whether or not he should go into racing until one day, his circuit buddies talked about 'Crazy Drivin' in the West Coast.

That's when Bixbite decided to become a taxi driver. The thrill of pushing the limit, being able to do things you couldn't on the race track, and making money. Now that was exciting!

Mrs. Venus is a funky mother who supports seven kids and a husband. To say that Mrs. Venus is cheerful is an understatement. She loves being happy, and loves making other people happy. She's the breadwinner of the family, and the only thing that she loves as much as her family is her job. Her job as a taxi driver allows her to meet all sorts of people. She feels that it is her job to not only get people to their destination, but to make them feel good about themselves. There doesn't seem to be anyone who gets in depressed, who doesn't feel at least a little better once they've been with Mrs. Venus.

Her love of driving came from her father, who was a stunt driver. It was because of him that she acquired her mad driving skills. Her favorite quote is, "It's my destiny to become the best taxi driver, and to do that, I need make everyone happy."

We think there's no one better suited to making everyone happy than Mrs. Venus.
Zax radiates an aura of toughness that he wears with pride. His only love in life is his car. Along with his rough demeanor is an attitude that he never makes any mistakes, and that he’s always right. If you tell him that he’s wrong, he’ll probably get in your face.

He loves driving his vehicle 24 hours a day, and that’s the reason why he works as a taxi driver. He maintains his car by himself and he is actually renowned for his hydraulic techniques. Lots of guys have visited him in hopes of learning from him, but he usually gets impatient and kicks them out before they learn anything.

Only once in his life has Zax actually been kind. When an elderly man who poured out his heart to him asked to learn his technique in hydraulics, he consented. That was the first and last time he ever taught anyone his prized technique.

Axel

A footloose, fancy-free kinda guy, there’s nothing that can stop Axel when he gets mad.

When he was ten years old, he experienced his first taxi ride. The driver came in full throttle before braking right in front of him. After he hoped in the taxi, it did a jack rabbit start and kept burning rubber, even when it wasn’t on the road. After the taxi had jumped from the top of a trailer, it took a few minutes for him to realize that he’d arrived at his destination. After he was dropped off, the taxi took off immediately, but Axel was still in awe. It was at that moment that he realized that being a cabby was cool! Now he drives a 1960 model cruisemobile and entertains his passengers as a taxi driver.

When he isn’t driving, he likes to go surfing, snow boarding, playing in a band as a bassist and vocal backup as well as girl hunting. Due to his explosive nature, bands usually kick him out, and girls dump him.

Still, he is refreshingly frank, and he’s generally a cheerful kind of guy. The only problem is that he enjoys picking a fight without any reasons.
A born performer, and cheery kind of guy, that’s B.D. Joe.

As a cabby, he “entertains people in his own way.” He loves to entertain his passengers with both this driving and narrative skills. Besides being a talented taxi driver, he’s a great street performer. Just give him a garbage can lid and an oil drum, and he can create great rhythms. He’s often asked why he doesn’t perform professionally. He usually just laughs off the compliments and says “making people smile is reward enough for me, and ‘sides, cabbing is too much fun to give up!”

Recently he’s been seen trying to learn card tricks.

---

The words “cool” and “sexy” describe Gena to a “T.” A born car lover, she just loves to cruise around in a car all day. She really doesn’t care if her passengers enjoy her driving or not. She loves going fast, and shows great talent. When asked why she doesn’t try racing, she replied, “I love the unexpected. You can’t get that with racing. But you can get the unexpected when you’re in my profession.”

When Gena isn’t driving her car, she’s working on it. In fact, she spends nearly all her time and money performing extensive tune-ups. While many men have tried to pursue her, she feels she doesn’t have time for them, and leaves them in the dust.
The originator of the “Crazy” taxi style, he maintains a cool composure. In his youth, Gus was a wild and uncontrollable hooligan, selfish to a fault. He hated to lose and always had to be #1 at any cost. With a strong fascination for all things new, Gus was naturally drawn to unique trends. It was when he was riding in a normal taxi that he had a flash of inspiration and bought an old junked out 1955 jalopy. And thus began the crazy taxi trend. Recently, Gus can be found playing cards. When the work day ends, he meets with his poker buddies (whose members change nightly) to play poker, blackjack, and baccarat. One nice thing that Gus took from gambling was learning that he didn’t have to always win. In this respect, Gus had become a better person.

He has a bilateral character who is nihilistically cool and mad. That’s Slash. He’s usually cool. Someone who doesn’t know him well may say that, “He is just a rude young man.” However the guy who knows him well says that, “He is always kind and takes care of his friends so he is considered a leader.” That sounds like he is always with his friends, however the fact is that they are afraid of him because he can easily get out of control. Nobody can stop him when he is mad. Everyone around him becomes an enemy, and anyone who approaches him when he is angry must either be a brave soul or a complete idiot. Most people in town know that he will do a really good job and make the passengers feeling great with his Crazy driving if nobody gets on his nerves; therefore he is one of the most popular Crazy drivers in town. In spite of his character, many people are taking his Taxi because of his first class driving technique. You want to know why he became a Taxi driver, don’t you? Nobody has the guts to ask him about it. Many people guess that he became a taxi driver on a mere whim.
An icy look, and a hint of madness, that's Iceman.

He always keeps things curt. He doesn't talk much, and his answers are brief, even when given compliments. It just seems like he doesn't show any interest in anything. However, if he's given a complaint, he gets rather ticked. His attitude is that he can do anything, and that if there's a mistake, it must have been an unusual coincidence that caused it. Given his rather quirky personality, it's hard to imagine how he became a taxi driver. It all started when he picked up an elderly hitchhiker and gave him a lift. With his crazy driving and the hitchhiker's pointers, he made an impression. The next day, his car was yellow. And that's how he became a taxi driver. Oh, and he lives a fairly comfortable life with his pet dog BB (Boxer).

A sharp dresser and optimistic person, that's Cinnamon.

She believes in positive thinking and is a veritable optimist. The only problem with this is that her positive thinking isn't always a good thing. For example, if she gets into a bad situation, instead of thinking about how to improve for the future, she just thinks that she was fine, and that it was the fault of others that caused the problem, not herself, when it possibly could have been.

She's also very forgetful, which makes her seem a little dim-witted. But because of her honest and serious attitude, her friends are always there for her.

She gets very happy when she gets compliments. Earning praise is her "joy in life." The reason she chose this job was to meet people and entertain them. She pushes her driving skills to the limit to do so, but sometimes that winds her up into a lot of trouble.
**HOT-D**

Sex: Male  Age: 78  
Height: 5'4"  Weight: 105.8 lbs  
Blood Type: B  
Number Plate: 2G01

The ultimate optimist, he's extremely healthy for his age. That's HOT-D. His number one priority is earning money. His second priority is getting a thrill. It was an easy decision for him to choose this job. Before, he was a stunt driver. When he was in West Coast for a stunt shooting, he saw the technique of a taxi driver. It impressed him, so he took a ride to his hotel. It was during this ride that he got the idea of being able to earn lots of money if he took the crazy drivin' idea to the east. When he arrived back to his hometown, he immediately painted his cruisemobile. He thought the drivers from the West lacked lip services, so he went out of his way to entertain his passengers. Often times though, he focuses too much on lip service and not enough on his driving services. Still, he thinks lip service is important because, even if he screws up driving, using lip service, he might still turn a tip.
