COMPLETE CONTROLS

It's easy to jump into *MVP Baseball 2004* and play like a pro. Here's all you need to know to start your Major League Baseball™ career.

OFFENSE

With the new EA SPORTS™ Pure Swing System, you have more control to **stap** a single the other way, drill an extra-base hit down the line, or blast a hanging curve into the bleachers.

BATTING

Swing	A Button
Square to Bunt	Z Button + A Button (release to pull back)

- ❖ The strike zone is divided into nine colored squares. Red squares mark the batter's hot zones. Blue squares are the batter's cold zones. Clear squares are neutral for the batter.

EA SPORTS™ PURE SWING SYSTEM

Take unprecedented control at the plate by pressing the Control Stick during your swing.

- ❖ The results of your swing depend on your timing, anticipating the location of the pitch, and the direction you press the Control Stick.
- ❖ For the best results, push the Control Stick towards the location of the pitch.
- **To hit the ball in the air**, press the Control Stick $\swarrow/\uparrow/\searrow$ while swinging. This increases the chances of hitting a fly ball, but also increases your chances of missing the ball if the pitch isn't up in the zone. Low pitches are very difficult to hit into the air.
- **To hit the ball on the ground**, press the Control Stick $\swarrow/\downarrow/\searrow$ while swinging. Keep in mind that high pitches are very difficult to hit on the ground.
- **To hit the ball to the left**, press the Control Stick $\swarrow/\leftarrow/\searrow$ while swinging. For the best results, use this technique when the pitch is coming in on the left side of the plate.
- **To hit the ball to the right**, press the Control Stick $\swarrow/\rightarrow/\searrow$ while swinging. For the best results, use this technique when the pitch is coming in on the right side of the plate.

BASERUNNING

➞ To steal, press the X Button, B Button, or Y Button to select your runner, then press the ➕Control Pad to select the base to steal. Press the R Button to stop all runners.

DEFENSE

PITCHING

Choose pitch location	Control Stick
Throw a pitch	A Button, X Button, B Button, Y Button, or R Button
Pickoff attempt	L Button + X Button, B Button, or Y Button
Pitchout	L Button + A Button

PITCH METER

TO THROW A PITCH:

1. Press and hold the Controller Button that corresponds to the pitch you want to throw. The bar inside the pitch meter begins moving.
 2. Release the pitch button when the bar reaches the end of the pitch meter. The closer your release point is to the end of the meter, the more effective the pitch is.
 3. Press the pitch button again when the bar is within the green accuracy zone near the beginning of the pitch cycle to determine the pitch's accuracy.
- ❖ The effect of a bad pitch depends on the type of pitch. For example, ineffective fastballs are slower than normal, and less effective breaking pitches are flatter.
 - ❖ If a pitcher misses the green accuracy zone by a considerable amount, an indicator (red for hot zone, blue for cold zone, yellow for ball) appears to tip off the batter to the location of the pitch.

PITCH SELECTION

Your pitcher's pitch selection appears on-screen. Not all pitchers have the same arsenal of pitches. A pitcher's four-seam fastball is always assigned to the A Button. The remaining pitches are assigned to the X Button, the B Button, the Y Button, and the R Button (though not all pitchers have five pitches).

FIELDING

Your first of many Gold Gloves awaits.

Move fielder	Control Stick
Change fielders	L Button
EA SPORTS™ Big Play Control (➤ p. 10)	C Stick
Throw to home, 1st, 2nd, and 3rd	A Button, X Button, Y Button, and B Button (hold to power up, release to throw)
Throw to the cut-off man	R Button

- ❖ If you power up the throw into the red zone, you throw harder, but less accurately, which could result in an error.
- ❖ If you select to throw to either a base or the cut-off man before the ball arrives, the fielder begins his throw immediately upon receiving the ball.

EA SPORTS™ BIG PLAY CONTROL

Using the all-new EA SPORTS™ Big Play Control, you can climb the fence to rob home runs, make spectacular diving catches, slide around tags, and more.

FIELDING

- To dive or stretch for a ball just out of your reach, press the **C Stick** \leftarrow/\rightarrow toward the ball.
- To climb the wall to snag a would-be home run or jump for a ball over your head, press the **C Stick** \uparrow .
- To make a sliding catch, press the **C Stick** \downarrow as the ball approaches.

BASERUNNING

Timing is the key to a perfect slide. Use EA SPORTS Big Play Control to create havoc on the base paths.

Head-first slide	C Stick \uparrow
Head-first slide to the left/right side of the bag	C Stick \leftarrow/\rightarrow
Pop-up slide	C Stick \downarrow
Hook slide to the right/left side of the bag	C Stick \leftarrow/\rightarrow
Dislodge ball from catcher	C Stick \uparrow

NOTE: The CPU automatically adjusts your defensive alignment based on the situation. However, you can override this by choosing the infield and outfield alignments yourself.

PLAY NOW

Pick your teams and get on the field. In Play Now mode, it's that simple.

TO START A PLAY NOW GAME:

1. Select **PLAY NOW** from the Main menu. The Select Team screen appears.

SELECT TEAM SCREEN

2. From the Select Team screen, move the Controller icon beneath the team (Home or Away) you want to play as.
- ❖ The Select Team screen shows rankings for pitching (baseball icon), batting (bat icon), fielding (glove icon), and speed (shoe icon).
3. Select the teams, choose jerseys, and then select your difficulty setting. That's it. It's game time.

ON THE DIAMOND

Baseball is a game of strategy, so take a good look at the field before making your next move.

OTHER GAME MODES

MVP Baseball 2004 gives you enough game modes to keep you busy all the way from the offseason to the World Series.

EXHIBITION

Set up a one-time game with the rules you want. Every detail is up to you—you're in charge.

NOTE: You set up a game in Exhibition mode like you would a Play Now game. However, Exhibition mode gives you a bit more control over rosters and options.

DYNASTY MODE™

General manager, player, or manager—with Dynasty Mode, you get to be them all. From setting the day-to-day lineup to signing free agents, you control every aspect of your team—from the Major League Baseball™ team all the way through the AAA and AA squads.

DYNASTY MANAGEMENT

The Dynasty Management screen is your hub to build your team into a contender. After you select a team and set your options, Season 1 begins.

DYNASTY MANAGEMENT SCREEN

Read messages from players, staff, and media

► Team Management on p. 14

Check out your upcoming games

Keep up on standings, statistics, and league news

Review your team goals

Advance to next day on the schedule

Change the display between: today's opponents, your next three games, team budget, and division standings

► Saving and Loading on p. 18

TEAM MANAGEMENT

Conduct trades and tinker with the lineup to bring together and maintain a quality squad.

TRANSACTIONS

Trade players and sign free agents.

ROSTERS

Adjust your team roster, see who's on the disabled list, create a player, and more.

PAYROLL

Review your current players' contracts. Exclamation marks appear next to players who are in the final year of their contract.

- ❖ Your Budget, payroll, and points in the bank are at the bottom of the screen. Decrease payroll and add points to the bank by releasing players. You are penalized if you release a player who is still under contract.

TO OFFER A PLAYER A NEW CONTRACT:

1. Select a player from the Payroll screen. The Player Contract screen appears.
 2. View the terms that the player is asking, then adjust the Points and Term as you see fit.
 3. Select Make Offer or Release Player. If you make an offer, the player either rejects or accepts your offer.
- ❖ If your offer is rejected, you may make another one, as long as the player has not refused to negotiate with you.

NOTE: Every time you achieve a goal you increase your manager rating, which gives you the opportunity to receive a contract extension with your current team if they are happy with your performance. You can also receive contract offers with other teams down the road.

OFF-SEASON

The off-season is your chance to improve your roster by resigning your players, courting free agents, and drafting new talent.

- ❖ Spring training marks the end of the off-season. Use this opportunity to try out your new players and set your opening day lineup.

HOME RUN SHOWDOWN

Bust out the serious lumber and aim for the bleachers. The first player to reach the target distance wins.

- To start a Home Run Showdown, set up the game like you would for an Exhibition game (➤ p. 13), choose the target distance for the showdown, and then start swinging.
- ❖ Fair balls add distance to your total in feet—foul balls subtract from your total. Home runs give you a 100-foot bonus, while strikes subtract 100 feet. Money Balls double the score of any fair ball.

PITCHER SHOWDOWN

It's all about racking up the Ks in the all-new Pitcher Showdown. The first pitcher to reach the point level wins.

- To start a Pitcher Showdown, set up the game like you would for an Exhibition game (➤ p. 13), choose a point total for the match-up, and get ready to bring the heat.
- ❖ You attempt to record 3, 6, or 9 strikeouts—you receive +1 for each strikeout, -1 for each HR allowed, and -1 for each walk.

MANAGER MODE

Sometimes you want to just sit back and manage the action. Manager Mode puts the strategy of the game completely in your hands, while leaving the on-the-field execution to the players.

- To start a Manager Mode, choose your gameplay options, then proceed like you would for an Exhibition game (➤ p. 13).

NOTE: Manager Mode is a one-player only mode.

MANAGER MODE SCREEN

SCENARIO EDITOR

Two outs, bottom of the ninth, bases loaded—instantly throw yourself into any game situation.

- To play a certain situation, pick all the details of the match-up, and then proceed like you would in Exhibition mode (➤ p. 13).
