## KONAMI, INC. LIMITED WARRANTY

Konami, Inc. warrants to the original purchaser of this Konami software product that the medium on which this computer program is recorded is free from defects in materials and workmanship for a period of ninety (90) days from the date of purchase. This Konami software program is sold "as is," without express or implied warranty of any kind, and Konami is not liable for any losses or damages of any kind resulting from use of this program. Konami agrees for a period of ninety (90) days to either repair or replace, at its option, free of charge, any Konami software product, postage paid, with proof of date of purchase, at its Factory Service Center.

This warranty is not applicable to normal wear and tear. This warranty shall not be applicable and shall be void if the defect in the Konami software product has arisen through abuse, unreasonable use, mistreatment or neglect. THIS WARRANTY IS IN LIEU OF ALL OTHER WARRANTIES AND NO OTHER REPRESENTATIONS OR CLAIMS OF ANY NATURE SHALL BE BINDING ON OR OBLIGATE KONAMI. ANY IMPLIED WARRANTIES APPLICABLE TO THIS SOFTWARE PRODUCT, INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE LIMITED TO THE NINETY (90) DAY PERIOD DESCRIBED ABOVE. IN NO EVENT WILL KONAMI BE LIABLE FOR ANY SPECIAL INCIDENTAL OR CONSEQUENTIAL DAMAGES RESULTING FROM POSSESSION, USE OR MALFUNCTION OF THIS KONAMI SOFTWARE PRODUCT.

Some states do not allow limitations as to how long an implied warranty lasts and/or exclusions or limitations of incidental or consequential damages so the above limitations and/or exclusions of liability may not apply to you. This warranty gives you specific rights, and you may also have other rights which vary from state to state.

### ADVISORY - READ BEFORE USING YOUR NES

A very small portion of the population may experience epileptic seizures when viewing certain kinds of flashing lights or patterns that are commonly present in our daily environment. These persons may experience seizures while watching some kinds of television pictures or playing certain video games. Players who have not had any previous seizures may nonetheless have an undetected epileptic condition. We suggest that you consult your physician if you have an epileptic condition or if you experience any of the following symptoms while playing video games: altered vision, muscle twitching, other involuntary movements, loss of awareness of your surroundings, mental confusion and/or convulsions.

### WARNING: DO NOT USE WITH FRONT OR REAR PROJECTION TV

Do not use a front or rear projection television with your Nintendo Entertainment System™ ("NES") and NES games. Your projection television screen may be permanently damaged if video games with stationary scenes or patterns are played on your projection television. Similar damage may occur if you place a video game on hold or pause. If you use your projection television with NES games, Nintendo will not be liable for any damage. This situation is not caused by a defect in the NES or NES games; other fixed or repetitive images may cause similar damage to a projection television. Please contact your TV manufacturer for further information.

## THE QUEST THUS FAR...

Long ago, in the kingdom of Daventry, there were three magical treasures that kept the kingdom strong and prosperous: A magic mirror that foretold the future, an enchanted shield with the power to overthrow any invaders, and a treasure chest that was never empty. These treasures were taken from Daventry by deception and stealth, and without them Daventry grew poor and weak and King Edward, once a stout-hearted and vigorous ruler, had become powerless and sickly. Edward had no heir, and everyone feared the chaos that would result upon his death.

King Edward asked his bravest knight, Sir Graham, to embark upon a quest to recover the three treasures. Graham's quest was successful, and as his reward, King Edward named Sir Graham his heir and granted him the throne of Daventry.

King Graham was a wise and kindly monarch, and with his great wisdom and the return of the three treasures, Daventry prospered once again. But Graham knew that he must soon marry and establish his own royal line with an heir to the throne. He searched far and wide, but no maiden in the kingdom possessed the qualities he sought in a queen.

One day King Graham saw in his magic mirror a vision of a lovely young woman held prisoner in a crystal tower. The mirror told him that her name was Valanice, a girl both beautiful and good, who had been stolen from her home and taken to a far land. Graham vowed to find her and set her free. After a long journey with many trials, he did, and asked her to be his queen.

In time, Queen Valanice and King Graham became the parents of twins, a son and a daughter. Life in Daventry was peaceful and good — for a time.

In a land far away lived an evil and powerful wizard named Manannan. It was his wont to kidnap infant boys and raise them to be his slaves, eliminating each in turn before he was full-grown and could pose a threat to the wizard's dominance. His most recent vassal, a boy he called Gwydion, was, however, unusually bright and perceptive. He mastered several of Manannan's spells and cast one against him which turned Manannan into a cat. With that, Gwydion was free!

After a time, Gwydion's travels brought him to Daventry, not the lovely and peaceful Daventry of days gone by, but a land devastated by a terrible affliction. The kingdom had fallen victim to the ravages of a dreadful three-headed dragon, which had burned the land all around and drove many people away from the town.

Gwydion was able to use his newly found powers to destroy the dragon and rescue the intended victim from its lair. He was taken before the King and Queen and rewarded in such a way as he never could have imagined in his life as Manannan's slave.

In later years, King Graham's health began to fail, and the royal physicians were powerless to help him. Only a magical fruit from the faraway land of Tamir could bring about a cure and restore the health of Daventry's monarch. Graham's daughter, Princess Rosella, set off in pursuit of this healing magic for her father. On her journey, she performed many brave deeds, and had many great adventures.

With the King's health fully restored, and his family together once more, it was a happy and fulfilled Graham who set out for a walk in the forest one spring day almost a year since Rosella had returned from Tamir. The kingdom was peaceful and prosperous again, and the people were content. Birds were singing in the trees. It seemed an auspicious sign.

As Graham was contemplating his good fortune, a sharp wind blew into the woods from the east, whirling up sticks and leaves into his path, and startling the birds into silence. The air grew suddenly colder. It seemed an unexpected storm was approaching. Graham began to walk back to the castle, his joyful mood broken by a dark foreboding.

When he reached the top of the gentle rise overlooking his home, he was horrified to see only empty space where the royal castle of Daventry had stood only minutes before. Cold fear gripped his heart. Where was his family? What had happened to them?

"Whoo-hoo... whoo-hoo." An owl hooted behind him, but Graham scarcely heard it over the pounding of his heart. "I can tell you what happened," came a voice behind him, and Graham spun around to confront a large owl in a blue vest and spectacles. "I know what happened to your castle. I saw it all," said the owl.

*Journey into the magical world of **King's Quest** on a mission to find the missing castle and the royal family of Daventry.*

"The Quest Thus Far..." was adapted from the Sierra game documentation, written by Bridget McKenna.

## HOW TO PLAY KING'S QUEST V

*King's Quest V* is an adventure role-playing game in which you control all the movement and actions of the main character, King Graham. You will spend a lot of time in the game traveling to interesting — and sometimes dangerous — places. You'll look for useful items to help you reach your goal. You will also talk to people to get information and clues. On the screen in front of you will be Graham and his sidekick, the wise owl Cedric. Your actions will be controlled through the use of an *icon bar*. This is a strip across the top of the screen which has pictures (or *icons*) that represent actions to be performed.

All of the activities performed through the icon bar are controlled with your NES™ controller. Let's look at the controller functions first, then the icon bar.

**Control Pad** — Press to move Graham in 8 directions. Also moves the pointers (called *cursors*) from the icon bar around.

**Select** — Press to make the icon bar appear.

**Start** — Press to turn the Pause Game feature on/off.

**B button** — Quick-action button for using the Look, Talk and Action icons. This will be explained in the next section. Also used to cancel actions from the icon bar.

**A button** — Use to advance text. Also used to carry out a selected action from the icon bar.

## MY KINGDOM FOR AN ICON BAR!

**Walk** — In *walk* mode you use the control pad to move Graham around on the screen. The control pad will move him in eight directions. If an obstacle is in the way, you will have to walk Graham around it.

**Quick Travel** — This is slightly different than walk mode, and sometimes a faster way to get around. In *quick travel* mode you will see an arrow cursor which you move with the control pad. Position the cursor to the location you want Graham to travel to, then press the A button. Graham will now walk to the spot. He will avoid objects that are in the way, but he will still go by the shortest route possible.

**Look** — To *look* at something on screen, select this icon, then move the cursor over the object you wish to examine. Press the A button, and if the object has a description, you will be told what that description is. If there is nothing special about the object, an "X" will briefly replace the arrow cursor.

**Talk** — Choose the *talk* mode when you want to begin a conversation with someone on screen. Select the talk icon, move the cursor over the person you wish to speak to, then press the A button. To start a conversation with someone off screen, press the B button to pause the game, then start talking to the person. Graham will wait, he's very patient during the pause mode.

**Action** - The *action* mode is used when you want to pick up items, open doors, or generally perform an action on something. Select this icon, then move the cursor over the item you want to act on, then press the A button. If you can't act upon an item, you will see the "X" appear.

**Item** — This icon displays the last item selected in the *inventory* mode (described next). To use the current item, select this icon, then move the cursor to the position you wish to put the current item on, then press the A button. For example, if Graham has a key in his inventory and wants to use it to unlock a door, make the key the current item, then select it. Move the arrow to the door and press the A button. If the key fits, the door should open.

**Inventory** - The *inventory* is like a backpack which Graham uses to store all the things he picks up on his journey. Choose the *inventory* when you want to see the items. To select an item, press the A button when the item is highlighted.

**Memory** - Choose the *memory* mode when you want to save, restore or restart the game. If you select **Save**, you will receive a password. The password can be used to return you to that location with all of your items. To use the file feature, select **File**, then enter a new name to save your current location. Press the A button to enter a highlighted number/letter. To **Check** a password and make sure you wrote it down correctly, select check, then use the control pad to select the password from the number/letter list. Use **Escape** to cancel the *memory* mode.

To **Restore** a game, follow the same instructions, but this time you will be sent back to the saved *file* or *password* location.

**IMPORTANT:** *King's Quest V* will save a **file location only while the cartridge is still in the control deck and the power is ON.** If you turn the game off or remove the cartridge, you can only return to a previous *password* location.

**Sound/music** — You can use this icon to turn the sound and music on or off.

## THE WORLD OF SERENIA

As our adventure begins, Cedric leads Graham to the land of Serenia to meet his kind master Crispin. Beginning from Crispin's house, Graham and Cedric will journey far in their efforts to save the royal family. Aided by the know-it-all owl Cedric, and with the powers granted to him by Crispin, Graham will make his way across the countryside of Serenia. His journey will take him to the barren desert to the west, and across the treacherous mountains to the northeast. On the other side of the mountains he must cross the sea and find the island stronghold of the evil Mordack.

It is a dangerous quest, and Graham and Cedric will need all your help to lead them and bring them home safely. It is a good idea to use the *file save* feature as you play, especially if you think you could be in a troublesome situation. The game holds up to 20 file saves at a time. (Remember, though, that all file saves are lost when you remove the game pak or turn the control deck off.)

Another hint is to make maps of your journey. Writing down places you've been and the things you see can be helpful in the game.

## QUESTING FOR QUEST QUESTIONS...

### A GUIDE FOR THE BEGINNING ADVENTURE GAME PLAYER

Adventure games are different from arcade games. The object isn't just to shoot everything in sight and rack up a gazillion points.

Some adventure games don't even use points. They require you to solve puzzles or problems and try to achieve a final goal. For example, the goal might be to free your family from the clutches of Mordack. To do this, you may have to solve a lot of smaller problems along the way. There are common questions that new adventure gamers have, so we'll try to answer them for you.

Q: What good does it do to LOOK at something?

A: LOOK tells you if an item has a special feature. For example, if you look at a desk, you might receive a message that says "You find a statue of a golden yak." If an item has a name and description, then it is a clue that something can probably be done to or with that item.

Q: What should I do with items that I find?

A: If you can pick them up, do. You never know when you'll need an item that you saw once and left behind. For example, after battling all of the Hideous Otter-headed Jungle Beasties, then freeing the Princess and saving the farmer's son, you may earn a voyage across the Silver River to the Wizard's Keep. Upon entering the Keep and ascending the Stairs Of Amazing Girth, you might encounter the Knight of Daze, who tells you that the Wizard will only see you if you present a gift of gold. Now don't you wish you picked up that yak in the desk?

Q: Is the TALK function useful, or just a distraction?

A: Well, if you had talked to the citizens of Serenia, we can't guarantee that you would learn that there are no Otter-headed Jungle Beasties in this game, let alone a Knight of Daze. However, they might have information about Mordack and his secret hideout...

Q: What do I do when I get stuck?

A: We recommend throwing your arms up in despair and going outside to play in the fresh air, but if you really want to stick with it, then just try lots of new combinations. For example, if you come to a wall of flame that prevents further progress, try the LOOK icon on items around you. Maybe something like a giant candle is in the room. You might think "Hey, candles produce flames, and there is a giant wall of flame in my way." Next you could try to use something from your INVENTORY on the candle, or try to perform an ACTION on the candle. Maybe the candle is really a lever that turns the wall of flame off and on.

Q: I keep failing in my quest. I'm tired of starting all over from the beginning. What can I do?

A: Use the MEMORY feature often. Save, save, save. Save before a fight. Save before you try something risky. Write down passwords and check them. If you're going to turn the game off, you can only

come back to a *password location*. If you're in the middle of a game, use the *file save* to save up to twenty locations. If you encounter trouble or get stuck, RESTORE your game from a previous save.

Q: I've tried everything I can think of, but I'm still unable to go any further in the game. Is there anything I can do?

A: One idea is to enlist the help of a friend or family member. Sometimes when we try to solve a problem it helps to get another person's insight. Everyone thinks a little differently, so a sticky situation for you might be more obvious to someone else, and vice versa. Adventure games are as much fun for groups as they are for one player.

## Treat Your Konami Game Pak Carefully

This Konami Game Pak is a precision-crafted device with complex electronic circuitry. Avoid subjecting it to undue shock or extremes of temperature. Never attempt to open or dismantle the Game Pak.

Do not touch the terminal leads or allow them to come into contact with water or the game circuitry will be damaged.

Always make sure your NES Control Deck is SWITCHED OFF when inserting the Game Pak or removing it from the NES.

## COMPLIANCE WITH FCC REGULATIONS

This equipment generates and uses radio frequency energy and if not installed and used properly, that is, in strict accordance with the manufacturer's instructions, may cause interference to radio and television reception. It has been type tested and found to comply with the limits for a Class B computing device in accordance with the specifications in Subpart J of Part 15 of FCC Rules, which are designed to provide reasonable protection against such interference in a residential installation. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient the receiving antenna.
- Relocate the NES with respect to the receiver.
- Move the NES away from the receiver.
- Plug the NES into a different outlet so that computer and receiver are on different circuits.

If necessary, the user should consult the dealer or an experienced radio/television technician for additional suggestions. The user may find the following booklet prepared by the Federal Communications Commission helpful: *How to Identify and Resolve Radio-TV Interference Problems*. This booklet is available from the U.S. Government Printing Office, Washington, DC 20402. Stock No. 004-000-00345-4.
