## POWER POINTERS

### 1) Impenetrable guards —the first step towards becoming champion!

To come out as champion in the fast and furious battles of "Fatal Fury 2", you must master the two guard positions, the Standing Guard and the Crouching Guard. Use the one that matches your enemy's attack to protect your energy levels. Don't forget, though, that you need to attack as well as guard—you'll never win if you only use defensive moves!

### 2) Reducing damage when trapped by an enemy attack!

If you are subject to repeated enemy attack, you may be knocked unconscious and lose the round. When being repeatedly attacked, press the button quickly over and over to try to reduce your damage—if you don't you'll be in a lot of trouble! Do the same if your opponent grabs you and attacks you repeatedly.

Each of the 8 characters in "Fatal Fury 2" have secret special attacks. Use all your character's special attacks and set your sights on becoming the King of the Fighters!!
