BATTING MODE: Toggle **EASY/HARD**. Choose **HARD** to activate the Zone Cursor which forces you to guess which zone the ball will be pitched to, giving the pitcher an edge over the hitter.

ROSTER: Go to the Current Lineup screen to check stats and substitute players.

To make a substitution:

1. Cycle through the roster in the Current Lineup screen, then select a player. The Bench menu appears.
2. Highlight a bench player in the Substitute column, then press **X** to insert that player into the lineup (**SELECT** to cancel).

↳ Press **L2** to access the lineup and statistics for your opponent. Press **R1** to toggle between season and game stats.

To warm up a relief pitcher:

1. Highlight the current pitcher and press **X**. The list of pitchers appears.
 2. Highlight a pitcher to warm up and press **○**. His status changes.
 3. When you are ready to have him pitch, substitute in the reliever like you would any other player.

GAME MODES

In addition to Single Game play, *Triple Play 2001* offers other challenging and customizable game modes.

You select the contestants that participate in a Tournament, One-on-One competition, or, new this year, an Extreme challenge in which sluggers receive points for accuracy as well as distance. In all three modes, each batter continues to bat until he has 3 outs—an out in this case being any ball that is swung at and doesn't land on the other side of the outfield wall.

After the game ends, the Big League Challenge Results screen appears. If your performance ranks among the top ten, enter your initials to preserve your results.

TOURNAMENT

Multiple rounds of head-to-head action. Select an **OFFICIAL** (12 players) or **16-MAN** competition.

Tournament Set-up Screen

Set the players in the first round of the single-elimination Tournament. In this and each consecutive round, you choose the players you will control. The computer simulates the rest.

ONE-ON-ONE

Two players slug it out in a classic home run contest. The rules are simple: the batter who clubs the most home runs, wins.

Player Select Screen

To select a batter:

1. Cycle through the teams and players until you select two batters, and then proceed to the Info menu.
2. Highlight PLAY BALL and press **X** to begin your game.

EXTREME

Extreme mode is a one-on-one battle where players gain extra points for hitting targets placed beyond the outfield wall. Target values range from 100 to 10,000 points.

HOME RUN LEGENDS

Challenge some of the biggest bats in baseball history to a Big League Challenge Tournament! Go deep against Babe Ruth, Willie Mays, and many more. Think you can out-muscle them all?
