HOW TO PLAY

The Mighty Morphin Power Rangers consists of 7 levels of non-stop action with each level containing three separate sections. You begin levels 1-5 by selecting a Power Ranger who must battle through the first section in his or her normal street clothes. If you make it to the end of this section, your Ranger will "morph" into their Power Ranger costume for a second section of even fiercer combat. If you are fortunate enough to survive the second round you will advance to the Boss Level for the ultimate showdown with one of Rita Repulsa's ferocious henchmen. You play as the megazord in level 6 and 7 in a one-on-one fighting battle.

THE GAME

The Game Screen shows the Power Rangers' power level on the bottom left. The helmet graphic shows how many lives you have left and the bottom right shows if the Dinobomb is activated. You can only use the Dinobomb when this symbol is flashing. You begin each level with two lives. The object of the game is to clear each level by defeating all the enemies including the boss at the end of each level. There are 2 checkpoints on each level. If you run out of power, you can continue from the beginning of the last checkpoint you reached until you use up all of your lives.
POWER UPS

Along the way, you will come across various crates and other objects in your path some of which contain energy increasing devices. To access their magic, you must first destroy the crate by attacking it, then punch the special device to absorb its power. As you increase your power, the life bar will change color from green to blue to purple. When you reach purple, you are at maximum strength.

WINNING

To win the game, you will have to defeat hundreds of Putties, climb perilous obstacles, swim through underground waterways, crawl through dark caverns, avoid countless traps and weapons of destruction, and eventually face the two meanest space aliens to ever hit this galaxy. It is not an easy task, but the Mighty Morphin Power Rangers are no ordinary fighting force.

Hint: See if you can find the secret code to morph your SNES cartridge into a one-on-one fighting game!
