AMAZING REALISM
- the burms, bumps
and ramps really work.
Seven courses, each
one harder. Two player
option and ACTION
REPLAY with SLO-MO
- all make this the best
BMX game yet!

'great fun, especially as
a 2 player game, I'd say
it'll go platinum' -PCW

The
ultimate
two player
game.

ORIGINAL
BY
RICHARD
DARLING

BMX simulator is a brilliant version
of the epic Commodore 64 game.
Eye in the sky viewing - amazing
realistic simulation. The starting
ramp, burms, bumps, water splashes
etc. all have a realistic effect on the
rider.

Two player option is included.
Seven different, progressively
harder, courses will test even the
best games player.

Richard has achieved yet another
breakthrough with the first ACTION
REPLAY option, whenever there is a
close finish you can see it again on
the REPLAY - and if that's not
enough, press the S key and watch it
in SLOW MOTION!

CONTROLS:

JOYSTICK OR KEYBOARD

ACTION REPLAY

Press **A** at the end of each course for the ACTION REPLAY. Then hold down **S** for the special Slow-Motion feature (SLO-MO).

HINTS

Demonstration Mode runs automatically.

Press **N** to change the number of courses in the Championships. You must complete each course within the time limit in order to qualify for the next one.

Press **S** to start the race.

You are then told: **Riders Ready – Pedals Ready – Go!**

Press Accelerate the instant you are told to go – timing is vital, don't lose precious tenths of a second.

Race as though you are in a real BMX Championship. The burms help you turn, the rough ground slows you down. All the hills and different grade surfaces affect the rider as in real life.

Number of laps raced and time elapsed are shown at the bottom of the screen for both riders.

The 'time limit' is shown in the centre of the screen on the bottom line.
