CROSSFIRE:
CONTROLS: JOYSTICK.

STORY: The town and docks of old Chicago are in the grip of the Mob. Al Capone and 'Legs' Diamond rule supreme with half the city's politicians and police force on their pay-role.

As one of Chicago's bravest policemen, you have been chosen to lead 'The Untouchables', a crack squad of honest police officers whose brief is to rid Chicago of the Mob and return law and order to the city. This is war, but the battlefield is the city's streets. Beware, a face at the window, a shadow on the fire escape, is it the Mob or just an innocent citizen caught up in the **CROSSFIRE?**

INSTRUCTIONS: Press **E** key and enter your name. Press **FIRE** to start cleaning up the city. With accurate shooting and ultra-fast reactions, kill as many of the Mob as you can within the time available. If you are too slow or not accurate enough you will be shot and lose one of your 3 lives. Clearing a screen will move you on to the next of 8 location, each of which is more difficult than the last. Beware, shooting innocent bystanders will seriously damage your score, but missing one of the Mob could cost you your life.
