## THE AIM OF THE GAME

Each level is played as a single screen bouncearama platform special, veiwed side on. Seymour has to leap and run on the platforms to clear a screen of toxics and mutants.

The toxics are objects which Seymour has to collect, like dustbins, oil drums and aerosols. Bonus points are awarded if they are collected in the right order - collect the object thats flashing.

Mutants (the flighty mutoid scum) have to be avoided or destroyed. Be careful - they can harm Seymour! Every screen has to be cleared before progressing to the next level.
