INSTRUCTIONS

1. Connect your flight controller to your computer using the manufacturer's instructions.
2. With your Mass Attack on your flight game you will use only your left joystick.
3. Making sure that your power is off, insert the cartridge into your "MSX" computer.
4. Switch power on.
5. Select the game of your choice between the eight available games (order is from easiest to level of difficulty) by using the select switch.
6. Pressing the red button will get the equipment started.
7. Your points are scores as follows:

Large Enemy Airship	1000 pts.
Smaller Enemy Airship	500 pts.
Jet Plane	150 pts.
Helicopter	25 pts.

You have three (3) minutes to get as many points as possible. Once your three ships are destroyed the game is over. If you can manage to get 1000 points, you will get another ship, and one for every additional 1000 points.

AIR RAID™

Air Raid is a single player action game that is designed to play on the Atari® Video Computer System™ or the Sears Telegames™.

You are the only available patrol airship to watch over the City. Radarcast laser has caused a major decrease in military spending. Because of this, the Military High Command only wants those of exceptional ability to operate the few remaining airships. You must perform an impossible task... that of destroying any enemy ships before they have a chance to destroy you or before they make 12 direct hits on your buildings. Any 12 hits on a building will reduce it to rubble. When all the buildings are destroyed, the game is over.

Just for the fun of it, you can rack up quite a score before the inevitable happens. You can even be somewhat of a hero by adding to your fleet, one airship for every 1000 points.

Good luck Commander, the City is in your hands!
