

ATARI[®] XE VIDEO GAME CARTRIDGE

Game Manual

Over scorching deserts, through dark, icy caverns, around a fiery volcano, and under the leafy cover of a steamy jungle, you set out with three brave friends to retrieve the treasures stolen by the Evil Master. Your goal is his castle, far, far away.

Your friends are lightly armed, but you carry your trusty crossbow. By shooting its swift arrows, you can save yourself and your companions from the dangerous attacks of the Master's Evil Creatures—scorpions, ants, pterodactyls, voracious plants, bats, snakes, and other horrible beings.

When you reach the castle, the Evil Master's expert archers await you, ready to test their aim with deadly arrows. Inside the castle, a fierce dragon also waits, guarding the treasure with its fiery breath.

Few adventurers have dared to make this trek. No one yet has come back alive.

System Requirements

- Atari XE game system console or XE or XL computer
- Color television or color monitor
- Atari XG-1 light gun

Getting Started

1. With your XE game system turned off, insert the Crossbow cartridge into the slot on the top of your console as

explained in your Owner's Manual. Plug the light gun into controller port 1.

2. Switch on your television or monitor; then press **[Power]** to switch on your system. The title screen appears, followed by the Map screen where you start your trek.
3. Using your light gun, choose a path by shooting at the red or green path box at the bottom of the screen. If you prefer, you can wait a few moments, and a path will be chosen for you.
4. Holding the light gun three to five feet from the television or monitor, aim and shoot at the Master's Evil Creatures before they attack your friends. Your light gun acts as the crossbow.
5. During play, pause a game by pressing **[Select]**; press it again to resume play. To begin a new game, press **[Start]**.

Playing the Game

Starting Your Adventure

Your adventure begins on the Map screen. This screen shows the eight Danger Zones you must pass through to reach the treasures.

You have to figure out which paths to take to reach the castle

Which Way to the Castle?

and claim the treasures. Begin by shooting the gun at either the red or green path box. A path appears that leads you to your first Danger Zone.

Protecting Your Friends

Once you get to a Danger Zone, the Master's Evil Creatures immediately begin attacking your friends. If attacked, your friends dissolve. To stop the loathsome creatures, you must shoot them with your light gun. Move the light gun sight onto a creature to aim, and then shoot.

If you escort your friends safely through a Danger Zone, you return to the Map screen and choose a path once again. This time you choose a red, green, or blue path to arrive at a Danger Zone.

Once an adventurer dissolves, that friend is lost forever. If all adventurers are lost, your quest ends. When you make it safely through a Danger Zone, the survivors and, in some Danger Zones, a bonus friend appear.

If you rescue the treasures, you confront the Evil Master himself. Fire at his evil red eyes in order to complete your quest, return to the Map screen, and start again.

The Danger Zones

You start your trek with a total of three adventure-some **Friends**. You gain a new friend the first time you make it safely through each Danger Zone, except the Village and the Castle, up to a maximum of eight adventurers at one time.

In the **Desert**, your friends are attacked by deadly scorpions, vultures, snakes, rabbits, and ants. You gain another friend the first time you survive this zone.

While wandering through the **Caverns**, watch out for swooping bats, falling stalactites, and a ghastly ghost. Shoot down the two hanging stalactites to fill the crevices in the path so you can get across. Another friend joins you the first time you make it safely through the Caverns.

The **Volcano** spews burning rocks and fiery lava, so watch out. Shoot the resting rock to make a bridge over the lava river. Passing by the volcano safely for the first time earns you another friend.

In the steaming depths of the **Jungle**, wicked monkeys hurl coconuts and toucans with deadly aim. Voracious plants lie in wait for the adventurers. The first time you survive the Jungle Zone, you earn a new friend.

In the **Village**, the horrors of the night await. From the street, sinister agents appear in the windows, wolves pop up out of nowhere, and even the streetlights are controlled by the Evil Master. From above, chilling ghosts attack, deadly lightning bolts fall, and a cruel witch appears on rooftops, ready to drop devastating fireballs. In this unfriendly village, no bonus friends can join you.

At the **River**, the scenery is beautiful, but perils await you every step of the way. You are threatened on the bridge by mighty bouncing boulders and swooping pterodactyls. The Evil Master has many spies here. You'll find jumping fish, hungry alligators, and slime monsters in the river, leap-

ing frogs on the riverbank, and a bird hidden in the tree.

If you're not careful, you just might meet your match at the **Drawbridge**, as the Evil Master's loyal archers and pterodactyls try to stop you. Hungry alligators wait in the moat, snapping their jaws at you. To enter the castle, shoot through the two ropes holding up the drawbridge.

At the **Castle Hall**, a dragon breathes fire, daggers drop from the ceiling, and arrows fly from the walls. A trapdoor is your last barrier to claiming the treasures—shoot the statue's flashing staff to open it.

Shoot the **Evil Master's Eye** that appears once on every screen to earn bonus points.

If you make it past the Castle Hall, you confront the **Evil Master** himself. Here he makes his last fearsome attempt to do you in and reclaim the treasures. Your only hope is to shoot his eyes when they glow red.
