HOLY GRAIL SEARCH TO CONTINUE!

By Bob Ellis

Dr. Henry Jones was back in hiding last night after speaking to this reporter about his continued search for the Holy Grail treasures. New information is believed to have been found by Dr. Jones on his trip to Europe.

There was deepening mystery when Dr. Jones vanished from his home recently after many years of research into the real location of the sacred treasure.

Many believed that he had travelled to the Nile Delta but this paper is proud to reveal that he has found further evidence in Central Europe. While he was not willing to give detailed information, we believe that the Dr. has found the whereabouts of the famous shield, said to contain the vital directions needed to find the Holy Grail.

What, I asked Dr. Jones, was the Christ during the Last Supper' he replied, "The cup that caught his blood at the Crucifixion and was entrusted to Joseph of Arimathaea. It disappeared and was lost for a thousand years before being found again by three knights of the First Crusade three brothers to be exact."

"One hundred and fifty years AFTER finding the grail, two of the brothers began the journey home but only one of them made it back. Before dying of extreme old at back. knight told his story to a Franciscan friar. He did not reveal the location of the Holy Grail, but instead

promised the friar that two 'markers' had been left to mark the way.

"The first of these markers has recently been discovered, incomplete, in the mountain regions north of Ankara and is currently in the hands of Mr Walter Donovan, a major contributor to the Old World Museum."

The second marker is thought to be buried with the second brother, and it is this marker that Dr. Jones is seeking at this time.

Little mention is made of the third brother by most historians but it is believed by many of them that he remained behind to become the keeper of the grail. If this is so, then what has happened to him after all these years. Is he still alive?

Dr. Jones, his white beard showing a faint smile on his lips, declined to comment. With that smile our interview ended and he departed.

Your reporter watched him leave, finished making notes of the conversation, summoned a gondola, and returned to his hotel to write this report.

GRAIL

By Marcus Brody

The word grail is derived from 'gradule', which means step by step, degree by degree.

There are six degrees or levels of awareness in the grail quest and each one is represented by an animal. The raven was the symbol of the first degree and represented the messenger of the grail.

The peacock signified the second degree and symbolised the search for immortality.

The sign for the third degree was the swan to show that the person who searched for the grail sang a swan song to selfish and indulgent

The fourth degree was the pelican, a bird willing to nurture its young by wounding its own breast.

The lion, its leadership and conquest defined the fifth degree.

The sixth and highest level was represented by the eagle and was achieved at the end of the quest to show knowledge and power gained.

GAMEPLAY

Indiana Jones and the Last Crusade is an exciting multilevel game in which you control Indy in his search for various artifacts. There is an important artifact on each level. The objective of the game is to fight your way through each level and collect the artifact. Once the artifact is collected, then you need to fight your way to the end of the level.

Each level presents a different challenge and tasks. On level 1 you need to collect the Cross of Coronado but remember to collect the torches or it will get dark and difficult to see your way around the caves. Once you have the Cross you need to escape over the top of the

Level 2 takes you deep within the catacombs. When the catacombs were built, secretarchways were constructed to hinder false searchers. Presented with 6 arches, the true searcher finds the correct arch and continues on his search. The false searcher unable to choose the right arch is doomed to wander the catacombs in vain, unable to find the Crusader's Shield that lies there. When beginning this level you will see the arches, and above each arch is a coded hieroglyphic. These change daily and the date is shown above the arches. To find the correct arch, look up the date on the grid shown on the back page of the Byzantine Crusader and enter through the arch that matches the code you find. Once you have found the shield, you need to scale the castle wall, but beware of the lightning.

Level 3 and the game moves onto the airship. Search for the Grail Diary that Indy's father has lost here. Be careful to pick up the passes as you move. They are made of flimsy paper and fall apart after a short time. If Indy does not have a pass the alarm will be raised, making your task more difficult.

And finally to Level 4. Dr. Jones Snr. has been shot and his only hope is that Indy can get to the Holy Grail in time. With dad's heart gradually turning to stone, you must guide Indy quickly, but safely past the traps set by the Crusade knights. Time is your enemy and only the brawe will make it in time.
