## **OFFICIAL ORDERS**

**Classification: Top Secret**

**Agent: 322-47**

**Code Name: Spy Hunter**

**THE MATERIAL CONTAINED WITHIN THIS DOSSIER IS FOR YOUR EYES ONLY.**

**An influx of enemy agents into this country necessitates mobilization of Mission: Spy Hunter. The Department charges you with the responsibility of eliminating these agents, using all means at your disposal.**

**Your base of operations is the Spy Hunter vehicle. You will be equipped with a machine gun and unlimited rounds of ammunition. The Department will have Weapons Vans situated at various points along the road, allowing you to augment and replenish your arsenal.**

**The danger level is high! While you are on the road tracking down the foreign spies, they will be on a mission of their own: to seek out and destroy the Spy Hunter vehicle. They will try to deter you by various methods; from the road, from the water and from the air. These enemies are insidious and cunning! You will be required to call upon all your resources, reactions and instincts in order to assure success.**

**Read this document carefully! The Department has thoroughly researched the enemy agents, their tactics, and the most advisable methods to dispose of them. Good luck, Spy Hunter. You're going to need it!**

## **KNOW THE ENEMY**

### **SWITCH BLADE**

A sharp operator, suspected of selling classified government documents to would-be dictators of third world countries. The Switch Blade's forces are at the wheel of dark blue cars equipped with lethal, retractable tire slashers. If they contact the Spy Hunter vehicle, a spinout and crash are inevitable. Switch Blade cars can be destroyed by machine-gun fire or a well-placed oil slick. Elude the cars by putting up a smoke screen. If you use extreme caution, these cars can also be bumped off the road.

### **THE ENFORCER**

The mention of his name can make strong men quake. He's deadly and destructive; a ruthless leader with murderous tendencies. The Enforcer cruises the roads in the back of a dark blue limousine, with a hit man riding shotgun. His m.o. -- lying in wait at the side of the road until the Spy Hunter vehicle passes, then pulling out to try to gun it down. Use machine gun, oil or bumping to get rid of the Enforcer. When extermination of the Enforcer is doubtful, lose him in a cloud of smoke.

### **ROAD LORD**

The Road Lord is a known triple agent, whose allegiance at any time belongs to the highest bidder. His henchmen are a gang of toughs

who travel in dark blue bullet-proof sedans. Your machine guns are of no use against these cars; they must be bumped off the road or they must drive into an oil slick to be eliminated. A smoke screen can be used to evade them. The Road Lord gang often travels in packs, trying to block the Spy Hunter vehicle's progress on the road.

#### **BARREL DUMPER**

Three years at sea without shore leave effectively brainwashed this enemy agent. Using the guise of commander of a fleet of charter boats, the Barrel Dumper leads an armada of nautical booby-traps. These vessels suddenly appear near the Spy Hunter speedboat and attempt to ambush it by mining the speedboat's course with explosive-laden barrels. Contact with a barrel is fatal to you! Eliminate a Barrel Dumper boat by using your machine gun. If you are approached from behind, a dose of flaming oil will dampen its zeal. A smoke screen will help you lose your pursuer. It is also possible (but difficult) to ram a Barrel Dumper boat into the riverbank to destroy it.

#### **DOCTOR TORPEDO**

A frustrated "scientist" seeking funds to continue his bizarre experiments, Doctor Torpedo moonlights as a maritime hit man. His method--- a swift and powerful approach from behind the Spy Hunter speedboat. You are in grave danger from this demented man and the boat he captains! Escape is hard; he can easily overtake you and lay waste to your speedboat with one potent well-aimed blast. You must stop him by using flaming oil, or slow him down by releasing a smoke screen. If Doctor Torpedo pulls ahead of you, you can try to cut him down with your machine gun.

#### **MAD BOMBER**

The Mad Bomber is a classic case of delusion and obsession. Financial gain and glory mean little to this crazed, compulsive sniper-- he derives his only pleasure from the hunt and the kill. Concealed in his helicopter, he tracks the Spy Hunter vehicle. Once he targets your position, he hovers above you, attempting to destroy your vehicle with the blast of a powerful bomb. There is only one way to get rid of this menace! Launch a missile to annihilate him. It's your only protection from this maniac of the skies!

#### **DEFENSE MANUAL**

##### **On the Road**

At the beginning of your mission, a Car Van from the Department will be dispatched to transport you and the Spy Hunter vehicle to a predesignated area on the roadside. You will then be discharged from the ramp at the back of the Car Van. Pull onto the road and begin carrying out your assignment, Spy Hunter!

As you speed along on your quest for the enemy agents, you must try to avoid innocent motorists and motorcyclists that you encounter. If you hit one, you will delay your mission!

Twists and turns in the road require careful steering to avoid

mishaps. Frequent forks in the road offer you a choice. Left or right? The option is yours--choose wisely! Icy roads call for cautious and skillful driving. You can easily go into a skid and lose control of the Spy Hunter vehicle.

Your machine gun and unlimited ammunition will serve you well, but you will soon sense the need for additional weapons to repel the enemy agents. At intervals, you will encounter one of the Department's red Weapons Vans, parked on the left side of the road. You must slow down to let the Weapons Van pull ahead of you where it will extend its ramp, allowing you to enter. The Van will then carry you off to the right side of the road. When you emerge, you will be armed with a new weapon, in addition to your machine gun.

### **In the Water**

You will notice a very narrow road that forks off to the left. Take this road and it will lead you to the boathouse. In the boathouse you can pick up the Spy Hunter speedboat, which will enable you to track down and eliminate enemy agents cruising the waterway. Any weapons you have on hand when you enter the boathouse can also be used on the water. However, you cannot obtain any additional weapons while you are in the Spy Hunter speedboat.

Be careful! If you notice that the wake behind the Spy Hunter speedboat has disappeared, it means you are in shallow water. You could hit the hidden shoals and that means trouble! Navigate back toward deeper water and try to steer a clear course.

Continue your mission on the water as long as it is feasible, although you may find it advisable and necessary to leave when you have exhausted your weapon supply. Take the right hand inlet to enter another boathouse. When you exit, another Weapons Van will be waiting to transport you further down the road. There, you will be released, re-armed and ready to resume your objective in the Spy Hunter vehicle.
