

Amiga loading instructions:

A500 unexpanded memory: reset machine with the disc in the drive. The program will autoload.

Expanded Amiga: Load workbench, from CLI type: RUN NOFASTMEM and press RETURN. Then type: "CLASSIC INVADERS:INVADERS"

The program will enter demo mode after 30 seconds. Press RETURN to exit.

Instructions:

Loading: At the MS-DOS prompt, insert your Classic Invaders disc into drive A and type:

A:

and press RETURN.

If you are using a colour monitor type:

INVADERS

and press RETURN

If you are using a mono monitor type:

INVMONO

and press RETURN.

The program will then load. The title screen will appear for approximately 10 seconds. Press any key to immediately move on to the next screen which displays the operating instructions.

To move your laser base from left to right, use the Z and X keys respectively. Press RETURN to Fire. Press ESCAPE to abort the current game. Press P to pause, RETURN (Fire) to continue.

Press Fire to start. Alternatively, after a delay of 30 seconds, the program will automatically revert to demonstration mode. Press Fire to leave demonstration mode and start game.

To leave Classic Invaders, press ESCAPE when the operating instructions screen is being displayed.

Gameplay: Classic Invaders is based on the everlasting space invaders arcade game. The objective is to destroy the incoming invaders with your laser base. You must avoid the bombs by moving left to right and hiding under the shelters. When you have destroyed a complete screenfull of invaders, another, more difficult screen will appear. Your performance is measured by a scoring system shown at the top of the screen. You will receive extra points for hitting the mothership which appears from time to time across the top of the screen.

You have three lives initially and will be awarded an extra life for every 10,000 points scored.

The game is over when either the invaders land, or when all of your lives have expired.

IMPORTANT NOTE: A demonstration of Digita International's serious software is also provided. To run this demonstration, at the MS-DOS prompt, with the Classic Invaders disc in drive A simply type:

A:

and press RETURN. Now type:

DEMO

and press RETURN.
