PLAYING

Andy has to tunnel his way into the orchards to steal fruit. The orchards are well guarded. When he has eaten all the fruit in one orchard, he can move to the next one to taste different fruit. He must take care while he is tunnelling as there are many stones on the ground and if they fall on him, he will be crushed to death. He must also plan his tunnelling in such a way that the guards cannot trap him. If the worst comes to the worst, he can always shoot them by pressing J/S Fire Button. Pressing the fire button at random you may find the bullets ricochet back to kill him.

You can select the following options while the title screen is displayed.

- F2 1 or 2 J/S
- F3 Show High Score Table
- F6 Clear High Score Table
- F10 Pause Game
