When you see the presentation screen, click on the mouse (or press FIRE on the joystick, or press SHIFT on the keyboard) in the following order to create Quad(s).

1. Choose the number of players.

- 1 player: Place the arrow on the icon representing one Quad and confirm.

- 2 player: Place the arrow on the icon representing two Quads and confirm.

2. Inputting the players' names

- Player 1 has to click on PLAYER 1.

- Player 2 has to click on PLAYER 2.

Each player in turn has to fill out an identity card.

When the identity card appears the player has to click in the zone "NO NAME" to enable them to enter their name via the keyboard. Press ENTER to confirm.

3. Create the face of your Quad.

To create the face of your Quad you must click on the head appearing on the identity card (zone 1).

You will access another screen.

To change the shape of the face click on the arrows < and >, then on the different elements corresponding to the look you want to get.

Click on EXIT to leave this screen.

4. Choosing your weapons.

To know how your Quad is equipped click on zone 2.

A new window will appear. Choose your armament by clicking on one of the weapons under the Quad.

12.7 mm : Fires straight ahead and destroys any type of obstacle on the ground.

Bazooka: Fires Missiles with homing devices. Destroys any objects, but most useful against aerial items.

Booster: Allows the Quad to lift off.

Oil Gun: Spreads oil. Makes pursuers slide or even kills them.

Close this window by clicking in the top left hand corner.

#### 5. Buying Ammunition

You buy ammunition for the weapon that you have chosen, by clicking on one of the four icons in zone 3.

You will see your weapon appear and the quantity of ammunition left. (At the start you have 12 cartridges at your disposal).
