## HINTS

- Be careful in the water - everyone knows that eggs are air breathers!
- Don't wind up fried...be careful of fire!
- The wildlife is dangerous, Dizzy looks good enough to eat...
- The old chest makes a good step in the right place...

There are two ways to complete the game...  
SOLUTION 1 - Tricky - Find a way off the island and back to the yolkfolk  
SOLUTION 2 - Very Tricky - There are THIRTY pieces of gold hidden on the island; find these before making good your escape... some of them are VERY well hidden!

GOOD LUCK

Dizzy was looking forward to the round-the-world cruise. When he told the other Yolkfolk about the good deal he found, they wondered just what lay ahead of him. . . . Dizzy enjoyed the cruise at first. The captain, Long John Silver, was a lovely old bloke with a kindly manner, good at insulting and degrading the fare paying punters. He was well balanced - he had parrot on one shoulder and a chip on the other.

Dizzy thought he would organize a game of cricket on the aft deck. In a fit of blinding stupidity he used LJ's spare leg collection as makeshift stumps, and when they were lost overboard he was made to walk the plank! That was how he came to find himself gently poaching on the silent, sun-kissed beach of a seemingly deserted island. . . . He had to somehow find a way back to the Yolkfolk and lodge his compensation claim with the travel agent. . . .
