MAZEGOLD

MAZEGOLD

Hampton Court Maze never had it so good. The chance of a lifetime. Wander through this maze and make yourself a millionaire. All you have to do is pick up the bags of gold we left lying around for you. As simple as that? Not quite! There are one or two small and somewhat horrible problems to overcome. Namely, the maze monsters who, for some reason, resent your presence in their maze and positively loathe anyone trying to make off with their loot, ill-gotten or not. Best of luck. You will need it.

NEWSFLASH

... If you feel that you have it in you to become a programmer we would like to hear from you. So if you have written, or are writing a program please send us a copy to review. Original games ideas are just as important as your programming skill, so don't be put off if you feel that your idea is good, but that your programming lets you down.
