### ON YOUR MARK!

Your engine starts - the countdown begins - and you're off! Shift into low gear and accelerate. You gain speed faster in low - but only to a certain point. When you reach the maximum in low, shift into high to go even faster.

### LIFE IN THE FAST LANE.

Slick maneuvering will get you ou of the city in record time. But watch out for cars that come from behind!

### PASSING FANCY.

Each car you pass gets you closer to extra time on the course but each car that passes YOU take away from your cars passed total.

### DANGER! DANGER!

Screeching tyres against the roadside barriers warn you that you're about to crash. Use caution and skill, or you'll slide on slippery snow and greasy oil slicks.

### WATCH OUT! AMBULANCE!

Sirens screaming, an ambulance rushes ahead to a collision site. Move aside, but be ready to zoom as soon as the ambulance speeds ahead. You can't outrun the ambulance, so let it pass.

### TURBO CRASHES!

If you collide with another racer, your opponents race past. Release the Disc, then gear up again safely.

In regular play, you can crash as many times as you like. Your racer will always start after a collision - unless you run out of time! So watch your time remaining.

### THE CHALLENGING FINAL SECONDS.

If you pass 30 cars, you continue until your time runs out. Then you go for another round and your time resets to 99. If you pass ANOTHER 30 cars, you continue playing until time runs out, then your time resets to 99 again. This pattern continues until you have crashed twice into cars. In Skill Level 1 Extended Play you can have an unlimited number of crashes.

### BONUS POINTS.

To earn bonus points, you MUST pass 30 cars. You get 40 points for each car you passed, up to 99 cars. If you earn more driving time, and pass 30 or more cars, you earn 40 bonus points for each car again. The game ends when your time runs out, or if you crash twice into other cars during extended play. In Skill Level 1 Extended Play you can have an unlimited number of crashes.
