

Safety Information

About Photosensitive Seizures

A very small percentage of people may experience a seizure when exposed to certain visual images, including flashing lights or patterns that may appear in video games. Even people who have no history of seizures or epilepsy may have an undiagnosed condition that can cause these “photosensitive epileptic seizures” while watching video games.

These seizures may have a variety of symptoms including: lightheadedness, altered vision, eye or face twitching, jerking or shaking of arms or legs, disorientation, confusion, or momentary loss of awareness. Seizures may also cause loss of consciousness or convulsions that can lead to injury from falling down or striking nearby objects.

Immediately stop playing and consult a doctor if you experience any of these symptoms. Parents should watch for or ask their children about the above symptoms—children and teenagers are more likely than adults to experience these seizures.

The risk of photosensitive epileptic seizures may be reduced by sitting farther from the television screen, using a smaller television screen, playing in a well-lit room, and not playing when you are drowsy or fatigued.

If you or any of your relatives have a history of seizures or epilepsy, consult a doctor before playing.

Other Important Health and Safety Information. The Xbox Instruction Manual contains important safety and health information that you should read and understand before using this software.

Avoid Damage to Your Television

Do not use with certain televisions. Some televisions, especially front- or rear-projection types, can be damaged if any video games, including Xbox games, are played on them. Static images presented during the normal course of game play may “burn in” to the screen, causing a permanent shadow of the static image to appear at all times, even when video games are not being played. Similar damage may occur from static images created when placing a video game on hold or pause. Consult your television owner’s manual to determine if video games can be safely played safely on your set. If you are unable to find this information in the owner’s manual, contact your television dealer or the manufacturer to determine if video games can be played safely on your set.

Unauthorized copying, reverse engineering, transmission, public performance, rental, pay for play, or circumvention of copy protection is strictly prohibited.

STORY

December 1998

The Curien Mansion incident...no one could imagine the true horrors contained within the original "House of the Dead."

Motivated by madness, Dr. Curien nearly succeeded in bringing chaos to the world. But in the end, it was Dr. Curien himself who lost his life at the hands of his own scientific masterpiece: "Type00 Magician."

This incident was brought to a close through the diligent work of AMS agents Thomas Rogan and G.

February 2002

Strange events and violent rioting compel AMS agents to return to action in a town of terrorized citizens.

Amidst the chaos, a mysterious figure named Goldman steps forward to take responsibility. Due to obvious similarities with the original "House of the Dead" case, AMS agents James and Gary are dispatched to put an end to the madness, and they seem to succeed...

One day in 2002

Breaking news: "Bizarre occurrences are taking place within countries throughout the world. The national government is taking action to funnel all available resources to the task of discovering the cause of these occurrences and the origin of the evil creatures..."

2003

Plummeting toward collapse, the world teeters on the edge of oblivion. Horrific phenomena are now taking place everywhere bringing disorder and chaos as paranoid citizens fight for the means to survive. It isn't long before this chain of events has succeeded in bringing the world to its knees...

Sixteen years later...

October 2019

Survivors identify the EFI Research Facility as the force behind the world collapse. Recognizing the urgency of the situation, authorities send in former AMS agent Thomas Rogan. But mere moments into the mission, contact with Rogan is lost.

October 31, 2019

Desperate for answers, G and Lisa Rogan arrive at the EFI Research Facility in an effort to locate Thomas Rogan and his team.

Beguiled by their apocalyptic surroundings, one seeks a friend while the other seeks a father. The astonishing facts, previously concealed, now propel both agents toward an unexpected confrontation, and a conclusion that will change the earth forever.

TRUE HORROR LIES HERE

The incident at Curien mansion:

A three-day incident in 1998, from December 18th through the 20th, in which a Dr. Curien tried to destroy human civilization. Dr. Curien's plan was stopped by two AMS agents, Rogan and G, but because the government had a hand in the incident, the public was never told what happened ...

AMS:

A government organization commonly known as AMS. Responsible for criminal investigations and intelligence collection around the world. Internally, the organization is split into domestic and foreign divisions. AMS was disbanded when the government disappeared following the world collapse of 2003.

EFI Research Facility:

A private research facility backed by a figure close to a major financial conglomerate. The research activities of the facility are not known. From what has been released publicly, it appears that they work in fields on the cutting edge of genetic research, including the human genome catalog, the gap between life and death, gene transplantation, and acquired RNA existence systems.

Height: 5' 8" (172 cm)
Weight: 110 lbs (50 kg)
Gender: Female
Age: 20
Nationality: American

The daughter of the top agent of the now-defunct AMS, Thomas Rogan. Motivated and tenacious, Lisa is often told how much she resembles her father. She does not seem to take this as a compliment. It has been two weeks since contact was lost with her father. Saying she must follow her mother's wishes, she accompanies her father's old partner, G, to the EFI Research Facility.

CHARACTERS

G

Height: 6' (183 cm)
 Weight: 170 lbs (77 kg)
 Gender: Male
 Age: Unknown (believed to be around 50)
 Nationality: Unknown

Thomas Rogan's old partner. G used to be exceptionally cold and calculating and would use any means necessary to complete his missions. Since the incident at Curien mansion, however, his perspective has changed dramatically.

With the world collapse of 2003, his former employer AMS disbanded, but G has continued his quest for answers under the assumption that the collapse had something to do with his previous assignments.

Thomas Rogan

Height: 6' 1-1/2" (187 cm)
 Weight: 185 lbs (84 kg)
 Gender: Male
 Age: 52
 Nationality: American

The hero of the Curien mansion incident of 1998, Rogan is also Lisa's father. Rogan's career after the incident continued to be marked with his courage and excellent judgment, and he, too, pursued the causes of the world collapse.

But now he has lost many comrades in battle with unknown creatures, and contact with Rogan himself has been lost...

Daniel

THE HOUSE
OF
THE DEAD

MONSTER FILE

Mark II

This extremely adaptable zombie was manufactured in great quantities. Mark II wanders about in groups searching for flesh, savagely attacking whatever he finds.

**Frederic**

Frederic is believed to have been created from a former researcher in the building. His rapid attacks leave little time to react.

**Kageo**

A mummified zombie. Kageo is weak and slow, but in groups he is dangerous. His body is fragile. Of his appearance, only the shape of his upper body is known.

**Rogan Commandos**

The elite soldiers who stormed the building and tried to seize control. They remain trapped in a state between life and death, but they retain the superior fighting abilities they once honed through strict training.

**Julie**

The remains of a former building employee. Julie will stubbornly pursue anything that comes her way and attack by flailing her numbed arms.

**Morris**

Carries a long-handled axe. Staggering under the weight of the axe, he may look like he can't handle such a weapon - but be careful: he puts his back into his fearsome attack.

MONSTER FILE

THE HOUSE
OF
THE DEAD**Charles**

Charles is twice the size of a normal zombie. His thick layers of fat conceal his toughness. His strength puts him in a league of his own, and he'll keep coming at you even with holes blown through his stomach.

**Azteca**

Azteca drags along an enormous steel frame and has exceptional power - he wields a metal chain in one hand as though it were as light as straw. His weak point is his somewhat slow movement.

**Raymond**

Raymond uses his buzzsaw saws to cut through anything that stands in his way. He grinds the blade against metal more for a flashy display than to keep the saw sharp.

**Cain**

Cain is the result of an experiment to create zombies fused with vegetable matter. He is as tough as an oak and his whip slices through the air with an audible crack to inflict more pain than poison ivy.

STORY

That chilling episode was only a hint of the nightmare to come.

26th February, 2000
The world is thrown into chaos
The prelude...

A new plot unfolds in a medieval town.
Ever-expanding conspiracies and horrors...

James Taylor

A special agent for the governmental organization AMS. 35 years old, American. He is always cool and rational, never relying on intuition or guesswork. He accepts facts as they are and deals with them accordingly, almost like a computer. For that reason, he is often assigned to the difficult or seemingly inexplicable cases.

CHARACTERS

Gary Stewart

A special agent for the governmental organization AMS. 24 years old, American. A kind young man, he doesn't yet know the contradictory nature of this world. He has a passionate and emotional side that comes out in every situation. Lacking experience - he joined AMS only a year ago - he tries to make up for it with initiative. He can be reckless, and this sometimes causes problems for James.

Side by side, AMS Special Agents James and Gary are ready for action.

But what lies in store for them?

And what are the mysterious Goldman's real intentions?

*** The incident at Curien Mansion took place over three days; December 18th to December 20th, 1998. It was an event orchestrated by Dr. Curien in an attempt to destroy mankind. Dr. Curien's plan was thwarted by two AMS agents, Rogan and G, but because of the government's significant role in the incident, the public was never told exactly what happened there...**

CHARACTERS

Amy Crystal

A special agent for the governmental organization AMS. 29 years old, American. A veteran of countless dangerous assignments, she is nevertheless an open, frank and kind person. With Gary she tends to play the role of older sister - she doesn't seem to consider him a full-fledged agent yet.

Harry Harris

A special agent for the governmental organization AMS. In his late thirties or early forties, nationality unknown. He does not like to discuss the past, and his gloomy countenance and dark presence tend to leave a strong impression. He wears sunglasses to ensure his feelings remain inscrutable.

Goldman

In his late forties. The head of a distinguished financial group, he uses his fortune for human genome research. The results of that research are relayed to Goldman as necessary, but have never been announced to the public. He has a cool and intellectual demeanor, but deep down he worries about the future of man and nature.

MONSTER FILE

Ebitan

Ebitan is a revolting and perpetually rotting monster. Accordingly, his resistance is lower than other zombies. Ebitan resides in the water, suddenly leaping from the murky depths to attack his prey, mainly by biting them.

David

David was manufactured in great quantities. He is highly adaptable and thrives anywhere. He mainly attacks with his teeth.

Kageo

Kageo is a mummified zombie, who prowls the darkest, most dreadful areas. He may look weak, but watch out for his fierce punch!

Ken

A new and improved version of Kageo with an iron mask and other armor. Because Ken's vulnerable face is shielded with a mask, he is an exceptionally difficult foe. Like Kageo, Ken lives in dark places, especially indoors. His main attack is a claw jab.

Mickey

Mickey is a small zombie who wields knives in both hands. His method of attack is to leap down at his target from roof tops and other high places. Even if Mickey throws both knives at you, there's no time to relax: He can produce an unlimited supply of knives from his hip holster.

Randy

Randy is a small, mask-wearing zombie. Don't be fooled by his small stature because Randy is a vicious little monster who can run along walls and ceilings as easily as on floors. Randy often roams with a friend. His preferred method of attack is a leaping death scratch.

MONSTER FILE

Bob

Despite being big and fat, Bob can move fast. His main attack is the drop kick, but he also throws barrels and oil drums.

Max

You'll know Max when you see him. He's the zombie crazily swinging two chainsaws about. He's also the biggest of all the zombies.

Johnny

Johnny is a tough zombie to deal with, as he loves to rush at his prey, hiding his vulnerable face behind two axes. When he's not descending on you with terrifying speed, he will throw his axes with lethal accuracy from a safe distance. Be warned!

Gregory

Gregory is a bit of a show off, and there is nothing he likes to do more before finishing off his victims than to flourish his giant sword. You will find it hard to aim your gun at Gregory, because he uses his sword to defend as skillfully as he does to maim.

Peter

Poor Peter is infested with giant parasitic worms and is relatively weak. He puts his worms to horrifyingly effective use though, for when his chest is wounded, the parasites will leave Peter's ribcage and leap at his attacker. Peter can also pack a mean punch.

Murrer

A snakelike zombie who often infests areas in hordes. There are believed to be two colors of Murrer. Murrer attacks by flying at his victims and gouging at their faces with his myriad teeth.
