ABOUT PHOTOSENSITIVE SEIZURES

A very small percentage of people may experience a seizure when exposed to certain visual images, including flashing lights or patterns that may appear in video games. Even people who have no history of seizures or epilepsy may have an undiagnosed condition that can cause these "photosensitive epileptic seizures" while watching video games.

These seizures may have a variety of symptoms including: lightheadedness, altered vision, eye or face twitching, jerking or shaking of arms or legs, disorientation, confusion, or momentary loss of awareness. Seizures may also cause loss of consciousness or convulsions that can lead to injury from falling down or striking nearby objects.

Immediately stop playing and consult a doctor if you experience any of these symptoms. Parents should watch for or ask their children about the above symptoms—children and teenagers are more likely than adults to experience these seizures.

The risk of photosensitive epileptic seizures may be reduced by sitting further from the television screen, using a smaller television screen, playing in a well-lit room, and not playing when you are drowsy or fatigued.

If you or any of your relatives have a history of seizures or epilepsy, consult a doctor before playing.

OTHER IMPORTANT HEALTH AND SAFETY INFORMATION

The Xbox video game system documentation contains important safety and health information that you should read and understand before using this software.

AVOID DAMAGE TO YOUR TELEVISION

Do not use with certain televisions. Some televisions, especially front- or rear-projection types, can be damaged if any video games, including Xbox games, are played on them. Static images presented during the normal course of game play may "burn in" to the screen, causing a permanent shadow of the static image to appear at all times, even when video games are not being played. Similar damage may occur from static images created when placing a video game on hold or pause. Consult your television owner's manual to determine if video games can be safely played on your set. If you are unable to find this information in the owner's manual, contact your television dealer or the manufacturer to determine if video games can be played on your set.

Unauthorized copying, reverse engineering, transmission, public performance, rental, pay for play, or circumvention of copy protection is strictly prohibited.

- ❖ Users are penalized for delaying games.

EA SPORTS™ TICKER AND MEDALLION

Stay up to date on the latest sports scores with the EA SPORTS Ticker. The ticker shows you the results of real races and scores of other sporting events. Keep an eye on the ticker for news and information from EA SPORTS.

The EA SPORTS Medallion to the left of the ticker indicates your connection status. During regular network operation, the Medallion is green and the Network Activity Indicator on the right side of the Medallion flashes to indicate network transactions. A red Medallion indicates that you have been disconnected.

If you are disconnected from the network for any reason, a warning message appears and you are returned to the main menu.

TO SEARCH/ADD A FRIEND:

Then press **A** on any flagged friend and send a Group Message to all selected friends.

BLOCKING/FEEDBACK

You can block any player from corresponding with you in any way. You're also able to leave feedback—positive or negative—for any player. Please note that abusing the feedback system can result in action against your account.

DYNASTY MODE™

Build hockey's all-time greatest franchise. For ten seasons, you manage the roster; you coach the team; you play the games. After choosing a team to run, creating a GM name, and selecting your characteristics, Season One begins.

MAKING A NAME FOR YOURSELF

The goal in Dynasty Mode is to earn the highest score as General Manager. GMs have ten years to earn profits, win championships, and build a Dynasty.

UPGRADE BUDGET

GMs receive an upgrade budget for their actions and their team's performance. The budget is handed out during the season based on GM performance in: profit, attendance, team winning percentage, playoff performance, trading, free agent signings, and more.

MORALE

All players on your team have a morale rating starting at 100. Morale goes down if players don't get the ice time they want, they feel you're not spending enough on Team Functions, or your team loses several games in a row. View player morale on the Progress Reports screen. When morale decreases, player attributes go down.

TV CONTRACTS

A TV contract is already in place for the first season. Starting in the second season, you are offered a contract based on your previous year's playoff performance, your marketing level, and the number of prestige and high-prestige players on your team.

DYNASTY CENTRAL MENU

Every move takes place from the Dynasty Central menu. From playing the next game on your schedule to setting your Rules and Options, the details are explained on p. 10.

DYNASTY MODE CONT.

NEW EMAIL

Keep up on the latest news from inside your own organization—and around the league—with the *NHL 2005* email system. Get messages regarding trades, a note from your owner or team trainer, and more. But don't miss out on any breaking news—emails delete if you let them sit in your inbox too long.

DAY-TO-DAY

Day-to-Day operations include playing (or simulating) games on the schedule, viewing the season calendar, reading email, and saving your progress on the hard disk.

GM OPTIONS

As GM, you have the power to trade players, sign free agents, and view scouting reports in order to evaluate the upcoming rookie draft. You can also upgrade your staff in the front office, and adjust payroll, ticket prices, fan giveaways, concessions, and more.

COACHING OPTIONS

Take more control over the team by adjusting the practice schedule, editing lines, and tweaking game strategy. You can also review progress reports for every player on the team.

STATS CENTRAL

From overall team statistics to individual numbers, here's where you'll find all the stats you need.

RULES AND OPTIONS

Set rules and options to fit your playing style. Gameplay settings, display settings, sound settings, and the button configuration on the controller can all be adjusted here.

POST-SEASON

Once the regular season ends, the post-season begins. The good teams advance to the playoffs and make their run for the Stanley Cup®. The rest prepare for the off-season. In the end, only one can be crowned Stanley Cup® champion.

OFF-SEASON

This is the time where all GMs evaluate their respective teams and prepare for the upcoming season.

The first event in the off-season is the **NHL Entry Draft**. Here's your chance to fill your squad with some young talent. After the NHL Draft, GMs have the chance to offer contracts to free agents and release players from their team. After the free agent period ends, the new season begins.

OTHER GAME MODES

EXHIBITION

Practice one-timers, wrist shots, face-off strategies, EA SPORTS Open Ice Control, and more against live competition. Once you get the hang of the game, put your skills to the test in the other game modes.

SEASON

See if you have what it takes to play through an entire season. Set up a 29-, 58-, or 82-game season and make a run for the Stanley Cup®. You can play the season with current NHL rosters, or assemble your team through a Fantasy Draft.

NOTE: The Season mode menus are set up very similarly to those in Dynasty Mode. See p. 10 more for more information.

NEW WORLD CUP OF HOCKEY™

Take part in the excitement of this year's World Cup of Hockey™ event featuring teams from Canada, the Czech Republic, Finland, Germany, Russia, Slovakia, Sweden, and the United States playing in authentic European and North American venues. Playing under NHL rules, you set the number of Round Robins as an alternative to the length of series.

NEW EA SPORTS™ FREE4ALL™

The intensity explodes off the ice with an all-out hockey EA SPORTS Free4All. There's one net, one goalie, and every man is for himself. Up to four can play and the one who scores the most goals wins.

After selecting the number of players, choose from a list of All-Stars. Next, select the game (Score Drive or On the Clock), set the Rules and Options, and then pick the number of defensemen (up to two) to play against.

ELITE LEAGUES

Jump across the pond and take on Europe's elite. You can play an entire season against teams from the Elitserien (Sweden), SM-Liiga (Finland), and DEL (Germany) leagues. With Elite Leagues, you have 39 additional teams to play as or against—all with unique jerseys, traditions, and chants, specific to their league. In SM-Liiga, the top goal scorer of each team wears a Golden Helmet.

International rules govern gameplay, instead of NHL rules (e.g., 2-Line passes are permitted). League-specific rules are also enforced. For example, in the DEL, no game ever ends in a tie.

SAVING AND LOADING

NOTE: With the exception of Saving and Loading, the options listed in the Rules and Options section have been omitted from this game manual. Please follow the on-screen navigation menus for further instructions.

Don't let the hard work go to waste. Be sure to save your game settings to the hard disk.

TO SAVE OR LOAD YOUR GAME SETTINGS:

1. From the Rules & Options menu, choose SAVE/LOAD. Highlight SAVE or LOAD and then press **A**. The Save or Load screen appears.
2. Press the **Left Stick** to highlight the file you want to save or load, and then press **A**.
