Safety Information

About Photosensitive Seizures

A very small percentage of people may experience a seizure when exposed to certain visual images, including flashing lights or patterns that may appear in video games. Even people who have no history of seizures or epilepsy may have an undiagnosed condition that can cause these "photosensitive epileptic seizures" while watching video games.

These seizures may have a variety of symptoms, including lightheadedness, altered vision, eye or face twitching, jerking or shaking of arms or legs, disorientation, confusion, or momentary loss of awareness. Seizures may also cause loss of consciousness or convulsions that can lead to injury from falling down or striking nearby objects.

Immediately stop playing and consult a doctor if you experience any of these symptoms. Parents should watch for or ask their children about the above symptoms—children and teenagers are more likely than adults to experience these seizures.

The risk of photosensitive epileptic seizures may be reduced by sitting farther from the television screen, using a smaller television screen, playing in a well-lit room, and not playing when you are drowsy or fatigued.

If you or any of your relatives have a history of seizures or epilepsy, consult a doctor before playing.

Other Important Health and Safety Information The Xbox Instruction Manual contains important health and safety information that you should read and understand before using this software.

Avoid Damage to Your Television

Do not use with certain televisions. Some televisions, especially front- or rear-projection types, can be damaged if any video games, including Xbox games, are played on them. Static images presented during the normal course of gameplay may "burn in" to the screen, causing a permanent shadow of the static image to appear at all times, even when video games are not being played. Similar damage may occur from static images created when placing a video game on hold or pause. Consult your television owner's manual to determine if video games can be played safely on your set. If you are unable to find this information in the owner's manual, contact your television dealer or the manufacturer to determine if video games can be played safely on your set.

Unauthorized copying, reverse engineering, transmission, public performance, rental, pay for play, or circumvention of copy protection is strictly prohibited.

The Story

In the beautiful, all-too-perfect fairy tale land of Far Far Away, the King and Queen have received word that their long-lost daughter Princess Fiona™ has finally found her happily ever after. Delighted that their daughter has been freed from her ogreish curse, King Harold and Queen Lillian decide to throw a grand royal ball for Princess Fiona and her new prince charming.

Messengers are sent far and wide to find the royal couple and invite them home for the ball. Little do they realize, of course, that Princess Fiona's new husband is none other than the ugly ogre Shrek®, and that Princess Fiona has found "love's true form" as an ogress. She and Shrek are living blissfully in their own Ugly Ever After.

Once they receive word, Shrek thinks going home is a "really bad idea" and isn't too happy about facing the parents—and castle guards—who locked his wife in a dragon's tower. But Princess Fiona (along with Donkey) convince Shrek it will be a good time, and together they depart for the far-out land of Far Far Away. And so, our twisted fairy tale adventure begins....

Character Info

As you progress through the game, you'll need to use certain characters' special abilities to continue through the levels. Press the **Y** button to use special abilities. Some characters' special abilities have limited use and can only be recharged by picking up a certain item. Most objects that require a special ability for activation have the special button icon floating over them. This icon only appears when the correct character is selected and standing close to the object.

Shrek

Shrek is a big, green, ugly, smelly ogre. He enjoyed life alone in his swamp until he found the love of his life: Princess Fiona.

Fighting style: Various punches and wrestling moves.

Special: Ogre lifting. He can lift, carry, place and throw heavy items (and creatures). (Unlimited special ability.)

Game tip: If an enemy is dizzy, use Shrek's ogre lifting ability to pick the enemy up, then throw the creature at nearby enemies.

Puss in Boots

He has steely eyes, swashbuckling finesse and really expensive Corinthian footwear.

Fighting style: Sword fighting.

Special: Tightrope walking. A move that can be used to cross ropes and chains and gain access to areas others can't get to. (Unlimited special ability.)

Game tip: Start combat with his jump attack.

Princess Fiona

Princess Fiona is not your typical damsel in distress. She's smart, tough and has been known to drop kick a band of outlaws.

Fighting style: Various karate moves.

Special: Slow time. Princess Fiona's ability slows down party members, but it slows down everyone and everything else a lot more. This is a limited special ability. To gain more uses, pick up the hourglass.

Game tip: Use Princess Fiona's slow time to escape harm when close to death.

Donkey

Donkey's got a mouth that just won't quit as well as the heart of a noble steed.

Fighting style: Donkey power.

Special: Donkey's special is the burro blast kick that can knock down creatures and break specific objects. Most objects that can be affected by Donkey's special will have a horseshoe symbol on them.

Game tip: Use Donkey's burro blast on stunned enemies to get rid of them quickly.

Gingerbread Man

Ninja hero and friend.

Fighting style: Ninja Candy Cane.

Special: Cookie toss—used to attract enemies. This is a limited special ability. To gain more uses, pick up a cookie.

Game tip: Throw a cookie to lure enemies into traps.

Lil' Red

Champion softball pitcher with a "can do" attitude.

Fighting style: Kicks, punches and apple toss.

Special: Rotten apple bomb—when detonated causes an area of affect attack that damages nearby enemies for 20 points. Lil' Red can either let her rotten apple's timer run out on its own, or by pressing the **Y** button again, she can detonate it immediately. This is a limited special ability. To gain more uses, pick up a rotten apple.

Game tip: Lil' Red can toss apples from long range or attack with kicks and punches when in close combat.

Big Bad Wolf

Don't let the outfit fool you. He's big, he's bad and he'll blow you away. Better watch out, Grandma.

Fighting style: Claw swipes and bites.

Special: Huff 'N Puff. This move can be used on enemies, objects and fire. It blasts enemies away from Wolf and damages them. (Unlimited special ability.)

Game tip: Use his Huff 'N Puff special to push enemies off ledges.

Fairy

One tough lady who proves that size doesn't matter.

Fighting style: Fairy magic.

Special: Fairy dust. It can be sprinkled on friends and enemies alike. When used on friends, fairy dust gives them the ability to fly for a limited amount of time. (Remember: The heavier a person is, the shorter the flight will last.) If used on an enemy, fairy dust floats them up in the air but leaves them prone to attacks until it wears off. (Unlimited special ability.)

Game tip: Float enemies and then have a teammate hit them in the air.

The Storybook

The Storybook is the hub or shell of the game. In it you can access new levels called chapters, view the scrapbook, change game options, enter the bonus section and view images from *Shrek 2™* the movie.

Chapter Select—Enter this sub-menu to access the different chapters (levels) in the game and obtain valuable game information. All chapters begin with a magic mirror introduction.

Scrapbook—Visit the scrapbook to view all the snapshots collected so far.

Save Game—Enter this sub-menu to save your current progress.

Bonus—When enough snapshots are earned, this sub-menu will open up. By earning more and more snapshots, more bonus games will be available. When all the snapshots are collected, you can access the Movie Stills sub-menu and see images from *Shrek 2™* the movie.

Quit Game—This allows you to quit the game.

Snapshots

Every time you complete a specific goal, a picture, or "snapshot," is taken to help remember that moment in your game. There's a total of 70 snapshots in the game. If you collect enough snapshots, you can open up to 5 bonus levels. Collecting all the snapshots helps you get 100% completion for bonus material concerning the new *Shrek 2™* movie!

Snapshots can be viewed by visiting the scrapbook in the storybook, or during gameplay by accessing the Pause menu.

When you have fulfilled the requirements of a snapshot, the screen flashes white while the picture's taken and your snapshot icon will change to show your current snapshot count.

Game tip: Most levels have 7 snapshots to collect. The requirements for earning a snapshot vary, such as defeating specific monsters, collecting objects like magic beans or reaching a specific point like the gingerbread house in chapter 2.

Party Upgrades

Crazy Larry's Leprechaun Shop is open for business.

In his humble shop you can find party upgrades for sale. These upgrades affect your party's attack power, health or health regeneration abilities. All these lovely items will cost you some pretty gold coins.

It's rumored that Crazy Larry's Leprechaun Shop is only available in certain levels or hidden in secret places.

Game tip: You should buy at least 2 upgrades for your party before you venture into later levels. To earn extra coins, either play the bonus games or replay levels as often as you like.

Collectibles, Power-Ups and Objects

Along your adventure you'll encounter the following items:

Gold Coins—Use gold coins to buy party upgrades or to pay tolls.

Magic Beans—Collecting 12 of these will give you a snapshot.

Half Health—This replenishes your party's health by 50%.

Full Health—This replenishes your party's health by 100%.

Defense Power-Up—This temporarily makes your team invulnerable to all enemy attacks.

Attack Power-Up—This temporarily increases your party's attack damage.

Frog Power-Up—This temporarily turns nearby enemies into 1-hit point frogs.

Shrek Platform—A box Shrek can pick up and carry.

Shrek Gear—A gear Shrek can carry and place into machinery.

TNT Barrel—An explosive barrel that damages enemies and objects.

Teeter Totter—Use 2 characters to reach great heights.

Playing the Game

The Buddy System

During gameplay, there will always be 4 characters on-screen except during Hero Time™. You control 1 of the 4 characters in single player games. The computer controls the other 3. You can switch at any time to control a different character and use their abilities (except during Hero Time™). As you play, if another character joins the party, a character will leave the group to keep the total to 4.

Hero Time™

Hero Time™ is a special mission where only 1 of the 4 characters plays a section of the level. Since some characters are better suited for specific tasks, Hero Time™ allows each character to show off their talents and assist the party through the level.

Multiplayer Mode

Shrek 2™ can have up to 4 players. Each character is marked by a colored selection circle that surrounds the character. Player 1's color is yellow, player 2's color is red, player 3's color is blue and player 4's color is green. When more than 1, but fewer than 4 players are playing, you can switch between your character and the character(s) that's being controlled by the computer. The game automatically detects

installed controllers, so additional players can join a game in progress by inserting a controller and pressing the **START** button or leave a game by removing a controller. If another player joins your game, the selected character becomes controlled by the new player. If a player leaves the game, the computer takes over the vacated character. Players can leave a game by pausing, selecting **Options**, then selecting **Choose Players**.

HUD Display

1. **Character portraits**—Character portraits are at the bottom of the screen. Below their pictures are red health meters. As a character takes damage, the line moves to the left. Some characters have an ammo slot on the top right to show how much ammo is left for that character's special.
2. **Collectible display**—All the collectibles in the level are displayed in the upper right corner when collected or when you're pressing the **BACK** button.
3. **Camera icon**—In the lower right corner the camera icon shows you the camera status.
4. **Boss meter**—During boss battles, their health meter appears in the upper left corner of the screen.

In-game Pause Menu

To access vital information and options during gameplay, press the **START** button to bring up the Pause menu with the following options:

- **Character Info**—Access this sub-menu to gain valuable information on your character.
- **Upgrades**—Access this sub-menu to find information on upgrades and learn which ones are affecting your party.
- **Scrapbook**—Look at the snapshots for the level. To see the snapshots for other levels, go to the Storybook and enter the Scrapbook sub-menu.
- **Save Game**—Save your progress.
- **Options**—Change settings on vital gameplay components.
- **Exit Level**—Exit the current level and return to the Storybook.
- **Return to Game**—Return back to gameplay.
- **Snapshot Information**—On the right page you'll find information about the level's snapshots.

Saving and Loading

This game is equipped with an auto save feature that keeps track of the number of coins, magic beans and snapshots collected. Auto save is triggered at every checkpoint and is also triggered at snapshots.

Auto save also keeps track of levels completed and mini-games completed in levels 3 and 6. Once enough mini-games are completed in those levels, auto save will open up the next level automatically.

Loading

You can load a previous saved game only at the Main menu (title screen).
