### **Important Health Warning About Playing Video Games**

#### **Photosensitive Seizures**

A very small percentage of people may experience a seizure when exposed to certain visual images, including flashing lights or patterns that may appear in video games. Even people who have no history of seizures or epilepsy may have an undiagnosed condition that can cause these “photosensitive epileptic seizures” while watching video games.

These seizures may have a variety of symptoms, including lightheadedness, altered vision, eye or face twitching, jerking or shaking of arms or legs, disorientation, confusion, or momentary loss of awareness. Seizures may also cause loss of consciousness or convulsions that can lead to injury from falling down or striking nearby objects.

Immediately stop playing and consult a doctor if you experience any of these symptoms. Parents should watch for or ask their children about the above symptoms—children and teenagers are more likely than adults to experience these seizures. The risk of photosensitive epileptic seizures may be reduced by taking the following precautions: Sit farther from the screen; use a smaller screen; play in a well-lit room; and do not play when you are drowsy or fatigued.

If you or any of your relatives have a history of seizures or epilepsy, consult a doctor before playing.

## SETTING UP THE GAME

### START PAGE

When you first play Cabela's® Big Game Hunter™, you are asked to choose from creating a new game or a previously saved game to load.

### NEW GAME

First, select the difficulty level at which you would like to play. You can then choose to save your game on your Xbox 360 Hard Drive or Xbox 360 Memory Unit. You will then be brought into the Main Menu. You can also Continue to go into the Main Menu without saving.

### LOAD GAME

Select to load a previously saved game.

### MAIN MENU

From the Main Menu screen, you can: begin your hunting adventure in Career Hunt mode, jump right into a hunt in Instant Hunt mode, go into Options to adjust the game's settings, view the game's Extras, or see info on your current career in Statistics.

### CAREER MODE

Get ready, because you are heading to Montana! Start your worldwide adventure in its Beartooth Mountains. Keep your eyes and ears open for the locals. These guides, rangers and hunters will give you clues and objectives that will help you on your journey.

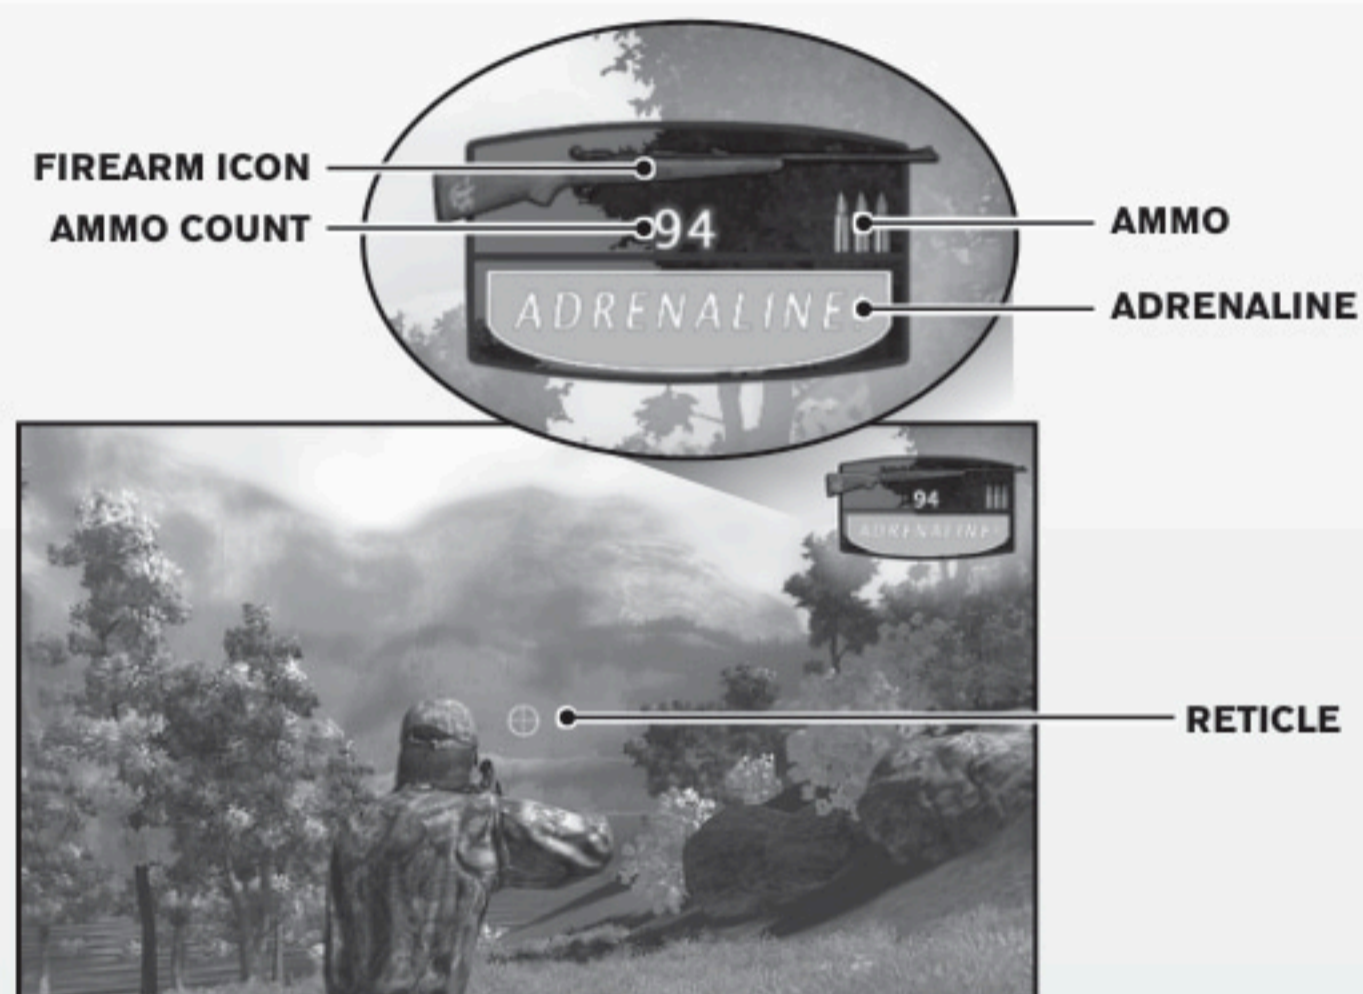

### INSTANT HUNT

Want a quick way to get right into the hunting action? As regions/seasons are unlocked in Career Mode, you can then access them in Instant Hunt. The game autoequips you and picks a number of animals for you to take down. Montana, Fall is unlocked by default.

## GAMEPLAY

### THE HUNTING SCREEN

For a successful hunt, keep your eye on these vital displays.

**Reticle:** Use the crosshairs to aim.

**Health:** The screen will flash red when you are in danger! Rest a while to regain Health.

**Ammo:** Projectile icons show how many you have loaded in your firearm.

**Ammo Count:** This number displays how much ammo you have before you completely run out.

**Firearm Icon:** Shows what firearm you have in your hands.

**Adrenaline Meter:** This tells you how much Adrenaline you have built up. When it's full you can use Adrenaline Mode!

### HUNTER SENSE

You have the special ability to alter your view and actually see where the animals are hiding. When you engage this ability, use its special reticle to scan the landscape for animals. When you have spotted one, you can lock on to it and track its movement. When locked, use "look at..." to snap your view in the animal's direction.

### ADRENALINE MODE

This awesome shooting ability lets you actually slow the animals down to get a better shot on your target. Keep an eye on the Adrenaline Meter; you can use your Adrenaline only when it's maxed out! Fill it up by hunting legal game animals.

### TRACKING & STEALTH

Tracking is automatic. If you walk near an animal's track, a message will appear telling you the species and other info about the animal that left it. Keep an eye open for these messages; they will give you a clue if you are in the right area for the big or small game animal you are hunting.

Stealth takes careful movement. Use Crouch while stalking your animal. It will help to you to be stealthier. Don't try to run up to game animals if you don't want to scare them off. Pace yourself and move in slowly. Also use the Scent Cover item to help hide yourself from animal's noses. Remember, they can often smell you before they see you.

### PDA

Your PDA has lots of info to help you in your hunt. A GPS map, your mission objectives, trophy pics, region info and player stats are all included. Check it often!

### INVENTORY

From here you can equip any firearm, scope or other item that you have unlocked.

## OPTIONS

In either the Main Menu or Pause Menu, you can change the game's options, including: Control sets, audio settings and various gameplay options.

These gameplay options can be turned on/off: Autosave, HUD, Hit Camera and Aiming Help.

## FIREARMS

As you hunt across the globe, you'll get the chance to use some awesome rifles, shotguns and handguns. Each has its own special characteristics and you will have to get a feel for what works best for the different animals you'll be hunting. For small game you might want to choose a rifle with very high Accuracy but lower Damage. For birds, a shotgun. And for big game, you'll definitely want something that has a higher Damage.

## ANIMALS

### BIG GAME

These are the most sought-after and highly-prized big game animals in the world. You'll have the chance to encounter the likes of Yukon Moose, Rocky Mountain Elk, Red Stag and even more exotic and dangerous species.

# Cabela's BIG GAME HUNTER

## SMALL GAME

These little critters are running all over the place and make for tough targets. Red Foxes, Hares and the like can be hunted in each region. They run fast and disappear from view quite quickly, so keep a steady trigger finger ready.

## BIRDS

In the brush and in the skies, you might come across various waterfowl and upland game species to hunt. Using your game calls can often get them to fly over or flush up.

## THE TROPHY SCORING SYSTEM

Scoring your game animal trophies is an important part of hunting. The game provides automatic measuring and accurately tells you the score for your trophy. Every time you hunt an animal, a message will appear that displays various info about it. Trophy Integrity is affected by using a firearm that causes the least amount of damage to the trophy. If you use a firearm with too high a Damage level on the wrong animal, your Trophy Integrity score will be lower.
