## **Important Health Warning About Playing Video Games**

### **Photosensitive Seizures**

A very small percentage of people may experience a seizure when exposed to certain visual images, including flashing lights or patterns that may appear in video games. Even people who have no history of seizures or epilepsy may have an undiagnosed condition that can cause these "photosensitive epileptic seizures" while watching video games.

These seizures may have a variety of symptoms, including lightheadedness, altered vision, eye or face twitching, jerking or shaking of arms or legs, disorientation, confusion, or momentary loss of awareness. Seizures may also cause loss of consciousness or convulsions that can lead to injury from falling down or striking nearby objects.

Immediately stop playing and consult a doctor if you experience any of these symptoms. Parents should watch for or ask their children about the above symptoms—children and teenagers are more likely than adults to experience these seizures. The risk of photosensitive epileptic seizures may be reduced by taking the following precautions:

- Sit farther from the television screen.
- Use a smaller television screen.
- Play in a well-lit room.
- Do not play when you are drowsy or fatigued.

If you or any of your relatives have a history of seizures or epilepsy, consult a doctor before playing

## THE BLACK HAND OF PRESIDENT MENDOZA

General Salvador Mendoza

In a dispatch to the press, the new government claimed to have, "freed the nation from a pack of vultures feeding off the corpse of the national constitution."

Since becoming president, General Salvador Mendoza has hired in "foreign security specialists" to subdue any possible uprisings in the unstable regions surrounding the nation's capital. All week there has been unrest, with demonstrations throughout the island. When asked whether the security specialists are actually mercenaries, the President scoffed at the reporter and answered "I will not idly stand by and watch as parasitic, motherless dogs pillage my country. I will use whatever means necessary. Petty name-calling and blind moral issues are luxuries I cannot afford as the father of a nation!"

Last weeks violent uprising in the capital of San Esperito heralded the start of a coup, with the Parliament building stormed by military forces. Turmoil and chaos spread into the streets with gunfire ringing in the air as the sun set over a weekend of violence and confusion on the island. The dethroned president Herman Augusto is still in hiding and currently unavailable for comment. The leader of the uprising and new order is General Salvador Mendoza.

## JOSE CARAMICAS JAILED

Under the watchful eye of President Mendoza, Jose Caramicas, the Leader of The Peoples Revolutionary Army, was controversially sentenced yesterday. Caramicas' sister, Esperanza, the only family member present in court broke down and wept uncontrollably. She later called for a fair hearing for her brother who she believes is the victim of a political conspiracy. She believes that his life may be in danger in the Government's El Grande Fort penal institution.

She has appealed to the United States Of America to intervene in this matter and it is rumored that US Intelligence agencies are monitoring the situation closely.

President Mendoza defended the verdict, saying "The sentencing of this terrorist will bring an end to rebel violence! Let this be a lesson to anyone else wishing to disrupt the harmony of this good nation."

Jose Caramicas, a popular hero in many provinces, will be escorted to El Grande Fort later this morning under armed guard.

# LEAKED U.S AGENCY REPORT UNCOVERS THE VERY LATEST IN AMERICAN TECHNOLOGY

A US Government dossier was discovered earlier this week disclosing the following top secret agency information. The leak was almost entirely passed over by the US press, and the security services have gone into overdrive to try and establish it's source. US chiefs are thought to be outraged, and confirmed at the weekend that a CIA employee had been arrested on suspicion of contravening the Official Secrets Act and released on bail pending further inquiries. Further arrests are expected, as the largest "spy hunt" in the US for some years is currently under way.

## EL PRESIDENTE SOUP!

*Citizens of San Esperito! It is I, El Presidente. I know that many of you wonder how it is that I can work so hard and still seem so well-rested and at peace. How can I look so devilishly handsome at my age? Do I never stress? Am I never ground down by the millstones of everyday toil? Do I never give in to the anger and frustration that comes with great responsibility? Well yes, of course I do. But when I do I always relax with a big bowl of El Presidente Cream-of-mushroom soup. It takes the edge right off and recharges my batteries and enables me to focus even harder on the task at hand! El Presidente! The soup for winners!*

## HIJACK CRIME UP 80%

A number of different vehicles have been stolen over the last few months indicating a sharp rise in hijacking related crimes.

A police spokesman said *"It's very difficult for the people of San Esperito to protect themselves from these crimes, as the perpetrators often carry weapons."*

Eye witness accounts claim that the thieves simply step up to the vehicles they wish to steal, press **Y** and then get in and drive off.

The simplicity of this was cited as the main reason for the sharp increase in the number of cases as well as the need of young people for thrill seeking adventure.

Extra police have been put on patrol to try and combat these crimes.

# DURANGO: TAKE CONTROL OF YOUR LIVES!

General Jose Durango

General Jose Durango has criticised the young people of San Esperito for not taking control of their lives. Their presence on the streets and beaches is largely down to a lack of alternatives. "I would attempt to identify some of the fundamental problems faced by young people today and suggest possible solutions to these problems". He went on to say, "Perhaps the most fundamental problem faced by young people today is unemployment. I believe that young people need role models, discipline and morals instilled into them. The kind you get through military training."

He outlined the following guidelines to help young people take control of their own destiny:

# DANGEROUS CRAZE SWEEPING THE ISLAND

The disturbing new craze of "vehicle surfing" came to light in the capital last week when two youths were seriously injured after accidents. Security officials were quick to get involved and General Mendoza has given his security staff powers to shoot on sight anyone involved in the participation of this reckless craze.

It is thought that groups of young people have been performing a number of mad stunts all involving vehicles including:

# TROUBLE ERUPTS IN PROVINCIA MIRASOLES

Violence erupted in the small village of Media Luna last night as clashes between the guerilla movement, The Peoples Revolutionary Army of San Esperito (PRASE) and General Salvador Mendoza's uniformed militia left five dead. It is believed that the rebels are still angry over President Mendoza's rapid rise to power.

*"Mendoza is a rabid dog that should be put to death,"* said guerilla spokesman and revolutionary front man Jose Caramicas earlier this week. *"Our ranks are growing every day. We will not rest until our people are free again."* Caramicas continued, *"The torture, murder and continuous rape of our people will ultimately be stopped and the demon president thrown back into the fiery pit from whence he came."*

Caramicas went on to say *"In 'government unstable' territories you too can start an insurgency in government controlled settlements. This is done by starting an attack on the defending forces (police/army). Find one of our guerrillas, marked by the 1 icon on the minimap. Press 2 when you see the action symbol. By killing the*

*governmental forces you will successfully liberate the area and earn yourself rewards and prestige points."*

Since storming to power President Salvador Mendoza has maintained a state of emergency, empowering authorities to prevent public gatherings or meetings deemed critical of the new government. Authorities stopped three consecutive attempts to organize rallies across the Island today. The five casualties at last night's rally are all thought to be rebel followers of Jose Caramicas. Seven civilians were also left wounded at the scene. Sources said that following Wednesday's angry demonstrations elsewhere in the province, President Mendoza's government soldiers had been sent into the area to deal forcibly with any further demonstrations. President Mendoza released the following statement following the violence: *"We condemn the shameful act of attacking our officers in Media Luna and know it to be the work of rebel looters. This behaviour will not be tolerated."*

# EL PRESIDENTE ACCUSES US OF 'BLATANT INTERFERENCE'

Once again President Mendoza has accused the US of supporting rebel causes and interfering in Government issues. The US has dismissed Mendoza's claims of US government agency involvement as paranoid propaganda.

President Mendoza stood firm against mounting pressure from the United States for him to permit United Nations checks of his anti-drugs program. Mendoza then accused the Americans of 'blatant interference' after the US President hinted at support of pro-democracy rebel protests, which he said showed the people want freedom.

You can choose to save whenever you are at a save point. Save points are located at all safe houses.

You simply press when at a save point and the save screen will be displayed. You choose the save slot to save in, then the save will be performed.

# REBELS WANTED

rebels can be identified by the **i** icons. The Rebels are known to be technically savvy and employ complex communications systems for counter surveillance. President Mendoza sent in the military to capture the rebel boss and mastermind of The Peoples Revolutionary Army of San Esperito, Jose Caramicas and is now turning his attention to other rebel leaders.

The President released a statement saying, "Anyone not co-operating, or withholding information on these known felons and taking their rewards would be made an example of and shot!"

**Shop a rebel hotline: 212 555 0156**

Police are appealing for people to call them straight away if they see or are approached by any Rebel bosses offering enormous rewards (prestige points) for side missions. These men are thought to be extremely dangerous,

# US DEA TURN UP THE HEAT ON RIOJA DRUG CARTEL

US government officials have declared war on Rioja drug lords, as Esperitian cocaine floods US borders. Rioja cartel members are thought to be offering huge amounts of prestige points to civilians for help with missions.

John Mckinley of the DEA spoke at a press conference at the Marlow hotel NY, claiming that nigh on five per cent of the cocaine total to illegally find its way into the United States is of San Esperitan origin. "If you meet any cartel members identifiable by the **i** please get in contact with the DEA, all calls are confidential."

*"Something must be done about the two high-level cocaine trafficking organisations from this small island."*

**Call the DEA snitch line today: 212 555 0174**

## SAN ESPERITO THE HOLIDAY DESTINATION OF CHOICE!

San Esperito has become a popular choice among the American jet set, with more and more Americans choosing to visit our beautiful Isle every year. We interviewed an American couple Tom Sheldon and Maria Kane on why they chose to spend their long vacation on the Island.

"We were attracted to the Island for many reasons but most of all we enjoy a good action holiday and there seems to be plenty of action to be had here. We also have a real interest in the culture and finding out more about the Island's history."

The couple are so smitten with the island that they are urging any fellow American tourists visiting the Island to visit them for any information on the Island or activities whilst staying on the Island.

Sheldon: "Come on by and visit us! There is plenty of action to be found here on San Esperito, and we are just the people to help you find it!"

### Side and bonus missions

Performing side missions for the guerrilla cartel will result in the reward of prestige points. These will elevate your rank within the guerrilla army and allow access to new weapons and military vehicles.

Successfully completing side missions for the Rioja drug cartel will raise your rank with that faction and will unlock luxury vehicles.

**NOTICE**

Eidos reserves the right to make changes and improvements to this product at any time and without notice.

All characters and business names included within this title are all fictitious and any similarity with any existing people or organisations is purely coincidental.

**EIDOS LIMITED WARRANTY**

Eidos warrants to the original purchaser of this computer software product that the recording media on which the computer software programs are recorded will under normal use and conditions be free from material defects in materials and workmanship for a period of 90 days from the date of purchase.

**Returns within a 90 day period:** Warranty claims should be made to your retailer from where you bought the game. Return the game to your retailer along with a copy of the original sales receipt and an explanation of the difficulty you are experiencing with the game. At its option, the retailer will either repair or replace the game. Any replacement game will be warranted for the remainder of the original warranty period or 30 days from receipt, whichever ever is longer. If for any reason the game cannot be repaired or replaced, you will be entitled to receive your direct (but no other) damages incurred in reasonable reliance but only up to the amount of the price you paid for the game. The forgoing (repair, replacement or limited damages) is your exclusive remedy.

**THIS LIMITED WARRANTY IS IN ADDITION TO, AND DOES NOT AFFECT YOUR STATUTORY RIGHTS.**

THIS LIMITED WARRANTY DOES NOT APPLY TO THE SOFTWARE PROGRAMS THEMSELVES WHICH ARE PROVIDED "AS IS" AND WITHOUT WARRANTY OR REPRESENTATION OF ANY KIND. TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, EIDOS FURTHER DISCLAIMS ALL WARRANTIES (INCLUDING, WITHOUT LIMITATION, THOSE IMPLIED BY LAW, STATUTE, CUSTOM OR OTHERWISE) RELATING TO MERCHANTABILITY, SATISFACTORY QUALITY AND/OR FITNESS FOR A PARTICULAR PURPOSE IN RESPECT OF THIS COMPUTER SOFTWARE PRODUCT.

**SAFETY INFORMATION**

This instruction manual contains important safety and health information that you should read and understand before using this software.

**EPILEPSY WARNING**

Please read before using this video game or allowing your children to use it.

Some people are susceptible to epileptic seizures or loss of consciousness when exposed to certain flashing lights or light patterns in everyday life. Such people may have a seizure while watching images or playing certain video games. This may happen even if the person has no medical history of epilepsy or has never had any epileptic seizures. If you or anyone in your family has ever had symptoms related to epilepsy (seizures or loss of consciousness) when exposed to flashing lights or patterns, consult your doctor prior to playing. We advise that parents should monitor the use of video games by their children. If you or your child experience any of the following symptoms: dizziness, blurred vision, eye or muscle twitches, loss of consciousness, disorientation, any involuntary movement or convulsion, while playing a video game, IMMEDIATELY discontinue use and consult your doctor (particularly since experience of any of these symptoms could lead to injury from falling down or striking nearby objects). Parents should ask their children about the above symptoms - children and teenagers may be more likely than adults to experience these seizures.

**PRECAUTIONS TO TAKE DURING USE**

- Do not stand too close to the screen. Sit a good distance away from the monitor, as far away as the length of the cable allows.
  - Preferably play the video game on a small screen.
  - Avoid playing if you are tired or have not had much sleep.
  - Make sure that the room in which you playing is well lit.
- Rest for at least 10 to 15 minutes per hour while playing a video game.

**[WARNING: AVOID DAMAGE TO YOUR TELEVISION]**

Do not use with certain television screens and monitors. Some televisions, especially front- or rear-projection types and plasma screens, can be damaged if any video games are played on them. Static images or pictures presented during the normal course of playing a game (or from putting the game on hold or pausing) may cause permanent picture-tube damage, and may "burn in" to the screen, causing a permanent shadow of the static image to appear at all times, even when the games are not being played. Always consult your television screen or monitor manual or otherwise the manufacturer to check if video games can be played safely.
