IN THE KITCHEN WITH FLO

Welcome to **Diner Dash®: Sizzle and Serve** for the Nintendo DS. In this game, you help Flo seat and serve wave after wave of hungry customers in a number of very busy restaurants. You can play **Diner Dash®: Sizzle and Serve** in three ways.

- First, there's Career Mode. Start out in a small diner and work your way up through five other specially themed restaurants.
- Then there's Endless Shift. It's fast, furious and a frenetic feeding frenzy, but throughout it all you've still got to deal with tricky customers and keep them smiling!
- And finally, there's the Multiplayer. See if you can do better than a friend in tough, two-player competitive mode. New challenges, different customer needs and new upgrades push you to the limits. Find out what you (and Flo) are made of!

Diner Dash®: Sizzle and Serve - work 'till you drop!

CONTROLS

- Play **Diner Dash®: Sizzle and Serve** on the Touch Screen, using the Nintendo DS stylus.
- During a level, use the L Button or R Button to scroll around the restaurant displayed on the Touch Screen.
- When playing a level, press START to pause the game and access the Pause Menu.
- Navigate through menus by touching the Touch Screen.
- See **SERVING CUSTOMERS - THE BASICS** on page 8 for a step-by-step guide on the basic controls.

LET'S GO TO WORK!

SET UP

Before proceeding to the Select Mode Menu, you are asked to:

- Select your Language by touching the corresponding flag.
- Select a Save Game Slot. You can either choose an empty slot and start fresh, or select a previously saved game to pick up from where you left off.

Note: The game autosaves whenever you select an upgrade in Career Mode, finish an Endless Shift attempt, complete a Multiplayer game, or exit the Options Menu.

SELECT MODE MENU

- **Career** - Work your way through five individually themed restaurants. Complete all levels in each restaurant to progress to the next restaurant. Achieve Expert Scores on five or more levels of a restaurant to unlock four levels from a sixth bonus restaurant.
- **Endless Shift** - An infinite challenge that keeps getting harder! (See page 10.)
- **Multiplayer** - Play in Versus Mode against a friend. (See page 12.)
- **High Scores** - See the game's latest High Scores.
- **Options** - Adjust game options. (See page 15.)

SAVING YOUR GAME

You can save the game in four places:

- After selecting an upgrade in Career Mode.
- After finishing an Endless Mode shift.
- After completing a Multiplayer game.
- After exiting the Options screen.

GAME SCREEN

DISPLAYED ON ALL CAREER MODE LEVELS

- 5 Score** - Shows your current score.
- 6 Goal** - Shows Flo's Standard goal for the level. Once you achieve the Standard goal, this shows the Expert goal.

SCROLL RIGHT

DISPLAYED ON ALL CAREER MODE LEVELS (CONTINUED)

- 7 Customer Line** - Shows customers who are waiting.
- 8 Scroll Arrow** - Touch here to scroll the screen left/right.
- 9 Line Icon** - Lets you check on who's in line, even when you're focusing on the restaurant's main area.
- 10 Ticket Station** - Where you drop off customer orders.
- 11 Counter** - Where the chef places the meals ready to be served.
- 12 Bus Station** - Dirty dishes go here.
- 13 Seat Bonus Multipliers** - Every time you seat a customer on a seat of the same color as the customer's hair and clothing, you get a bonus. Continue matching the colors of customers and seats and watch your Seat Bonus Multiplier grow!

DISPLAYED ON LATER LEVELS

- 14 Bench** - You can seat one group of waiting customers on the Bench so they stay happier longer.
- 15 Podium** - When Flo stands at the Podium with the waiting customers, she gives the first four sets of customers in line a happiness boost.
- 16 Dessert Station** - Customers can only ask for dessert after their meal. Select the Dessert Station to collect a dessert and take it over to the table.
- 17 Drinks Station** - Flo can use the Drinks Station (when available) to serve drinks to customers to improve their happiness. (After each use, the Drinks Station becomes unavailable for a short period of time.)
- 18 Snack Station** - Flo can use this to serve customers who request a snack. Snacks can be requested before or during a meal.
- 19 Highchair** - If a baby is in a party of customers, a Highchair will be available to keep the baby from crying and annoying other customers.
- 20 Mop** - Flo can use the mop to clean up spills and messes. A clean restaurant is a happy place.
- 21 Reserved Tables** - On some levels, a marker on the Clock indicates when a customer has made a table reservation. The customer's party can only be seated at the table displaying the reservation icon. Reserved tables flash to show that it's time to prepare the table for the reservation.
- 22 Phone Station** - Visit here to call for additional help when things get too hectic for Flo. Select from a choice of staff to carry out specific tasks. Available Restaurant Helpers are Drinks Server, Waiter, Bus Boy and Maitre d'. Available Entertainers include Pianist, Harpist and Dancer.

SERVING CUSTOMERS - THE BASICS

Don't worry if you're new to the game. You'll get all the help you need when you begin the first level of the first restaurant. As you play through this simple level, you'll be guided through the basics. In this tutorial, the customers stay happy. On later levels, you'll encounter new customers and new items in the restaurant. Don't stress - everything will be explained before each level.

To help you out, here is a step-by-step guide to serving customers in **Diner Dash®: Sizzle and Serve**:

1. On entering a level, touch the red scroll arrow in the bottom left corner (or press the L Button or R Button) to view the line of customers.
2. Identify a party of customers you want to seat.
3. Touch the customers, and while maintaining contact with the screen, "drag" them to a suitable table.
4. Before breaking contact with the screen, trace a circle on the table to shuffle the seating order (then release your contact).
5. When the customers wave to you, touch their table to take their order. (Their table number is then displayed.)
6. Touch the Ticket Station on the counter to give the order to the kitchen.
7. When the chef has prepared the meal, touch the dish on the counter, and then touch the correct table to serve the meal. (Match the number on the dish to the table number.)
8. When the customers have finished their meal and are waving to you, touch their table and they will pay their bill.

9. Touch the plates, then touch the Bus Station (to the right of the counter) to clear the table.
10. Well done! That table is now ready for a new group of customers. Scroll back to the customer line to check on who is waiting to be served next.

FLO'S TOP TIPS

Happy customers give larger tips, which lead to higher scores. Here are Flo's tips to help keep their stomachs - and hearts - full:

- Stand Flo at the Podium to chat with customers in the line.
- Seat waiting customers on a Bench.
- Make sure reserved tables are cleared and ready.
- Make sure families are given a Highchair.
- Bring Snacks to the table as soon as they're requested.
- Serve Drinks to customers low on happiness.
- Bring Desserts to the table when requested.
- Use the Mop to clear up spills.
- Call in extra staff using the Phone Station.

To further boost your scores:

- Chain similar actions as much as possible.
- Build up your Seat Bonus Multipliers (max = 4).

ENDLESS SHIFT

SCROLL RIGHT

Your challenge in Endless Shift Mode is to keep going while serving a never-ending line of customers appearing in the restaurant.

- Each restaurant you've unlocked in Career Mode can be played in Endless Shift Mode on an **Easy, Medium** or **Hard** difficulty level.
- When you begin, you get a target score. When you reach that target, a new target score is set, and so on.
- You start with a certain number of Lives, shown as stars. The game ends when you lose your last star.

UPGRADES AND FEATURES

When you get to a target score, an upgrade icon flashes on the Touch Screen. Touch the icon to pause the game. You can now choose one restaurant upgrade feature each from three of the following options:

- **Standard Drinks Station** - A Drinks Station as in Career Mode, with two additional upgrades.
- **Oven** - Makes food appear on the Counter much faster.
- **Energy Bar** - Allows Flo to move more quickly around the restaurant.
- **Podium** - A Podium as in Career Mode, with additional upgrades.
- **Bench** - A Bench as in Career Mode, with additional upgrades.
- **Radio** - Mood music from the Radio gives a happiness boost to all customers.
- **Compact Stereo** - Similar to the Radio but gives a greater happiness boost to the customers.
- **New Table** - Add an extra table to the restaurant. More tables mean more customers seated, more tips - and more work for Flo!

MULTIPLAYER (DS WIRELESS COMMUNICATIONS)

SCROLL RIGHT

CONNECTING

Multiplayer **Diner Dash®: Sizzle and Serve** lets you challenge a friend in two-player competitive Versus Modes. One player (the host) creates a game and then the second player joins in.

1. Select **Multiplayer** from the Main Menu.
2. Select **Create** and the game will seek another player.
3. Choose a character.
4. Select a Versus mode. (See page 13.)
5. The host then sets up the game (number of rounds, etc.).

VERSUS MODES

- **Highest Score** - Play over a number of rounds. The highest score wins the round; the winner of a pre-set number of rounds wins the match.
- **First to Serve** - Play over a number of rounds until a pre-set number of customers have been served. The winner is the one who reaches that number first.
- **Survival** - Play over a number of rounds with no Clock. A game round is lost if a player loses three customers. The aim is to survive longer than your opponent.

Note: Each player has identical customers in line in any game, but each time a new game is started the customers are different.

GAME SET-UP

- **Characters** - Multiplayer Mode lets you choose to play as one of five characters: Flo, the Waiter, the Maitre d', the Bus Boy or the Chef.
- **Restaurants** - You will play in the first restaurant, but all five restaurants will be available when they have been unlocked in Career Mode. The restaurant you play in determines the game difficulty level (i.e. customer types and diner features).

POWER-UPS

Power-ups give you the edge over your opponent for a short period of time. These are dropped by the Restaurant Critic (see page 16). There are two types of power-ups:

- **Beneficial Power Ups** - These help you out:
 - Energy Bar - Increases your character's movement speed.
 - Quiet Time - Silences all noisy customers.
 - Set Menu - Customers order food immediately.
 - Helper Staff - Helps your character with his or her duties
- **Reversal Power-Ups** - There are three specific reversal power-ups for each Versus Mode. Use these to make life difficult for your opponent - but only for a brief period:
 - Highest Score Mode: Carry One Item; No Chains; Chairs Reset.
 - First to Serve Mode: Slow Mo; Stop Chef; Dirty Tables.
 - Survival Mode: No Drinks; No Highchair; Mood Drop.

AWARDS

Check out customer awards (feedback) waiting to be unlocked in Multiplayer Mode.

OPTIONS

Access the Options Menu from the Select Mode Menu to adjust the following options:

- **Music** - Adjust the music volume.
- **Sound FX** - Adjust the sound effects volume.
- **Awards** - Check out your Restaurant Reviews (star ratings awarded by the Restaurant Critic when you complete the final level of each restaurant); Flo's Wardrobe (complete a restaurant to unlock an outfit Flo can wear in another restaurant) and the Gallery (reveals unlocked images awarded).
- **Credits** - See the people responsible for creating **Diner Dash®: Sizzle and Serve** and getting it to you.

CUSTOMERS

The restaurant is visited by all types of different customers; some more frequently than others. Try to cater to their individual needs as much as possible.

- **Young Lady** - She orders and eats at a moderate speed, is moderately patient, but dislikes too much noise. She's an average tipper.
- **Student** - Moderate tipper, is very impatient in line and lingers at the table.
- **Family** - They order and eat at a moderate speed, are moderately patient, but noisy when unhappy. They don't mind other people's noise.

- **Mobile Phone (Cellphone) Addict** - Orders and eats very fast, is not patient, is always noisy, but doesn't mind other noise. He's a good tipper.
- **Bookworm** - Orders and eats very slowly, is very patient, but strongly dislikes noise. He's an average tipper.
- **Business Woman** - Fast to order and eat, is impatient and generally dislikes noise. She's a good tipper.
- **Senior** - Slow to order and eat, is patient in line and at the table, and generally dislikes noise. He's a bad tipper.
- **Jogger** - Orders and eats at a moderate speed, is moderately patient and doesn't mind noise. He's an average tipper.
- **Restaurant Critic** - Although the Restaurant Critic doesn't appear very often, it's very important to pay her a lot of attention. She will visit each restaurant on three occasions (in Career Mode) and determine your Star Rating in a review. To get a Three Star Rating, you must keep this critic very happy. In Multiplayer Mode, a happy critic will leave a power-up for you.
