BIRTH OF A HERO...

Orphaned at a young age, Peter Parker lives in Queens, New York with his beloved Aunt May and Uncle Ben. Peter leads the life of a good-hearted, yet solitary, teenager making his way through high school.

On a school trip to a research institute, Peter Parker's class is given a demonstration of genetic research conducted on spiders. Peter is bitten by one of the genetically altered spiders. The next morning, Peter discovers that suddenly his vision is perfect and his previously scrawny body has become muscular—he now has incredible strength, and his hands mysteriously adhere like glue to everything.

Peter gradually teaches himself to gain better control of his powers. Initially, he uses his ESP-like "Spider-Sense" and superhuman strength, speed and agility to make money in order to impress the lovely Mary Jane. However it is only through the tragic death of his uncle that Peter learns that "with great power comes great responsibility." It is these words that transform Peter Parker from a teenager with extraordinary powers into the amazing Spider-Man, a super-hero out to protect the city from a never-ending supply of perils.

Meanwhile, in a lab at OsCorp, Spider-Man's ultimate nemesis is about to be born...

Are you up to the challenge?

WEB ATTACKS

As the amazing Spider-Man you will have a variety of web-based attacks at your disposal. Using these attacks will cost you some web fluid but you can always search for blue spiders to replenish your supply. See pages 5-10 for instructions on how to execute each attack.

Capture Webbing: The classic Spider-Man action which allows you to tie up your foes. Hold down the web button to tie up enemies so they can not attack Spidey. Enemies will eventually work free of the webbing, so be sure to keep an eye out so you don't get surprised.

Web Gloves: Use this feature to spray webbing on your hands to increase the power of your punches. You can find a Gold Spider Icon which will allow you to perform this maneuver a second time to get even more power out of your punches.

Web Dome: The web dome will create a shield around Spider-Man and protect him from damage. When Spidey breaks out of this dome, enemies will be knocked back and take a little damage. You can find a Gold Spider Icon which will allow you to perform the maneuver a second time for a more powerful web dome.

Impact Webbing: This is the bread and butter web attack for our arachnid hero which fires a ball of webbing at foes. The web ball is powerful, but uses a large amount of web fluid. Because of it's slow speed it may not be the weapon of choice for fast aerial opponents. When using the Enhanced Controller Configuration, find a Gold Spider Icon which will allow you to hold down the web button for a more powerfully charged web ball.

Web Yank: Need to deal with an enemy who wants to stay at long range? Use your web yank to bring them up close and personal where Spidey can deal with them properly. For the more advanced users, try performing the twirl yank when using the Enhanced Controller Configuration. This will allow you to swing an enemy around on the end of your web, rodeo style, knocking other enemies down.

Web Laser: This fast web attack is just what Spidey needs to take on aerial enemies. Press the Web button while swinging or jumping to quickly shoot out a damaging stream of webbing. This move uses up a good amount of web fluid, so keep an eye on your web meter.

COMBO SYSTEM

As a fledgling Spider-Man exploring his new-found powers, you will learn new combo attacks as you progress through the game. Combos begin with a standard punch or kick and can involve up to three moves that are chained together to receive different results. Using a variety of combo moves will add to the style points that are awarded at the end of a level, so mix it up for maximum bonus points. Be on the look out for the Gold Spider Icons which grant Spidey new combo moves and advanced web attacks. Some will be easy to find, but others may be hidden throughout the levels. Access the Pause Menu and select "Combat Controls" to view which combos you have unlocked and their associated button strings.

AERIAL COMBAT 101

This section is designed to get you up to speed in the basics of aerial combat.

Continuous Web-Swinging:

To begin web-swinging, simply press the R Button. Once swinging, you're free to steer through the environment and focus on your surroundings. Remember to use your height meter and compass to locate enemies in the area.

Camera Lock: Once you have located an enemy, engage Camera Lock. Camera Lock Mode is particularly effective in aerial combat. In Camera Lock Mode, the camera will remain fixed on your target, which is helpful when maneuvering toward him.

Maneuvering: While web-swinging offers some maneuverability, the most effective way to quickly turn toward an enemy is to cut your web-line by pressing the

A Button (press it twice if you wish to double jump off your web-line), align yourself in the desired direction, and then re-engage your web-swing by pressing the R Button. (Note: In the Easy and Normal difficulty settings, you have the ability to realign yourself to your target by pressing the L Button while in Camera Lock mode.)

Combat: Notice that as you approach your target in Camera Lock mode, the reticle surrounding him will change in color from red to green. When the reticle is green, you are lined up to shoot a quick web shot by pressing the Y Button or a swinging kick (if you're in close range) by holding down on the X Button. Also at close range, you are able to punch your enemy by pressing the B Button. As punching will cause you to break your web-line, remember to re-engage your web-swing before you lose too much height. Finally, Spidey has the ability to grapple some of his opponents. When directly above one of these opponents, press Jump once (or twice if you need more height), then hold down on the Jump button to land the grapple maneuver. Once you have locked up with the enemy, you can land a few well-placed punches. Keep an eye on your height meter however, as you may be plummeting downward!

With a little practice, airborne evil-doers will no longer be safe high above the city streets.

GENERAL GAME PLAY TIPS

- In some of the levels, Spider-Man will be required to rescue civilian characters. Face the character and press the Punch/Action button to pick them up. When carrying a civilian and web-swinging, Spidey can only do one swing at a time. Keep pressing the web swing button to stay in the air. Press the Punch/Action button again to put down a civilian.
- Some doors and obstacles will require the operation of a switch to get past. To activate a switch, face the panel and press the Punch/Action button.
- Some doors in the game will require a key to open them. Various enemies in the game will be holding these keys and it is Spidey's job to recover them. Once Spider-Man has a key, find the correct door and it will open automatically.
- If surrounded by a large number of thugs, use the web dome to clear them out.
- Use the double jump to leap over obstacles and access high walkways.

SOFTWARE LICENSE AGREEMENT

USE OF THIS PROGRAM IS SUBJECT TO THE SOFTWARE LICENSE TERMS SET FORTH BELOW. "PROGRAM" INCLUDES THE SOFTWARE INCLUDED WITH THIS AGREEMENT, THE ASSOCIATED MEDIA, ANY PRINTED MATERIALS, AND ANY ON-LINE OR ELECTRONIC DOCUMENTATION, AND ANY AND ALL COPIES AND DERIVATIVE WORKS OF SUCH SOFTWARE AND MATERIALS. BY OPENING THIS PACKAGE, AND/OR USING THE PROGRAM, YOU ACCEPT THE TERMS OF THIS LICENSE WITH ACTIVISION, INC. ("ACTIVISION").

LIMITED USE LICENSE. Activision grants you the non-exclusive, non-transferable, limited right and license to use one copy of this Program solely and exclusively for your personal use. All rights not specifically granted under this Agreement are reserved by Activision. This Program is licensed, not sold. Your license confers no title or ownership in this Program and should not be construed as a sale of any rights in this Program.

OWNERSHIP. All title, ownership rights and intellectual property rights in and to this Program and any and all copies thereof (including but not limited to any files, computer code, themes, objects, characters, character names, stories, dialog, catch phrases, locations, concepts, artwork, animation, sounds, musical compositions, audio-visual effects, methods of operation, moral rights, and any related documentation, incorporated into this Program) are owned by Activision or its licensors. This Program is protected by the copyright laws of the United States, international copyright treaties and conventions and other laws. This Program contains certain licensed materials and Activision's licensors may protect their rights in the event of any violation of this Agreement.

YOU SHALL NOT:

- Exploit this Program or any of its parts commercially, including but not limited to use at a cyber cafe, computer gaming center or any other location-based site. Activision may offer a separate Site License Agreement to permit you to make this Program available for commercial use; see the contact information below.
- Sell, rent, lease, license, distribute or otherwise transfer this Program, or any copies of this Program, without the express prior written consent of Activision.
- Reverse engineer, derive source code, modify, decompile, disassemble, or create derivative works of this Program, in whole or in part.
- Remove, disable or circumvent any proprietary notices or labels contained on or within the Program.
- Export or re-export this Program or any copy or adaptation in violation of any applicable laws or regulations.

LIMITED WARRANTY. Activision warrants to the original consumer purchaser of this Program that the recording medium on which the Program is recorded will be free from defects in material and workmanship for 90 days from the date of purchase. If the recording medium is found defective within 90 days of original purchase, Activision agrees to replace, free of charge, any product discovered to be defective within such period upon its receipt of the Product, postage paid, with proof of the date of purchase, as long as the Program is still being manufactured by Activision. In the event that the Program is no longer available, Activision retains the right to substitute a similar program of equal or greater value. This warranty is limited to the recording medium containing the Program as originally provided by Activision and is not applicable to normal wear and tear. This warranty shall not be applicable and shall be void if the defect has arisen through abuse, mistreatment, or neglect. Any implied warranties prescribed by statute are expressly limited to the 90-day period described above.

EXCEPT AS SET FORTH ABOVE, THIS WARRANTY IS IN LIEU OF ALL OTHER WARRANTIES, WHETHER ORAL OR WRITTEN, EXPRESS OR IMPLIED, INCLUDING ANY WARRANTY OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE OR NON-INFRINGEMENT, AND NO OTHER REPRESENTATIONS OR CLAIMS OF ANY KIND SHALL BE BINDING ON OR OBLIGATE ACTIVISION.

When returning the Program for warranty replacement please send the original product disks only in protective packaging and include: (1) a photocopy of your dated sales receipt; (2) your name and return address typed or clearly printed; (3) a brief note describing the defect; the problem(s) you are encountering and the system on which you are running the Program; (4) if you are returning the Program after the 90-day warranty period, but within one year after the date of purchase, please include check or money order for \$20 U.S. currency per CD replacement. LIMITATION ON DAMAGES. IN NO EVENT WILL ACTIVISION BE LIABLE FOR SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES RESULTING FROM POSSESSION, USE OR MALFUNCTION OF THE PROGRAM, INCLUDING DAMAGES TO PROPERTY, LOSS OF GOODWILL, COMPUTER FAILURE OR MALFUNCTION AND, TO THE EXTENT PERMITTED BY LAW, DAMAGES FOR PERSONAL INJURIES, EVEN IF ACTIVISION HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. ACTIVISION'S LIABILITY SHALL NOT EXCEED THE ACTUAL PRICE PAID FOR THE LICENSE TO USE THIS PROGRAM. SOME STATES/COUNTRIES DO NOT ALLOW LIMITATIONS ON HOW LONG AN IMPLIED WARRANTY LASTS AND/OR THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE LIMITATIONS AND/OR EXCLUSION OR LIMITATION OF LIABILITY MAY NOT APPLY TO YOU. THIS WARRANTY GIVES YOU SPECIFIC LEGAL RIGHTS, AND YOU MAY HAVE OTHER RIGHTS WHICH VARY FROM JURISDICTION TO JURISDICTION.

TERMINATION. Without prejudice to any other rights of Activision, this Agreement will terminate automatically if you fail to comply with its terms and conditions. In such event, you must destroy all copies of this Program and all of its component parts.

U.S. GOVERNMENT RESTRICTED RIGHTS. The Program and documentation have been developed entirely at private expense and are provided as "Commercial Computer Software" or "restricted computer software." Use, duplication or disclosure by the U.S. Government or a U.S. Government subcontractor is subject to the restrictions set forth in subparagraph (c)(1)(ii) of the Rights in Technical Data and Computer Software clauses in DFARS 227-7013 or as set forth in subparagraph (c)(1) and (2) of the Commercial Computer Software Restricted Rights clauses at FAR 52.227-19, as applicable. The Contractor/Manufacturer is Activision, Inc., 3100 Ocean Park Boulevard, Santa Monica, California 90405.

WAIVER. Because Activision would be irreparably damaged if the terms of this Agreement were not specifically enforced, you agree that Activision shall be entitled, without bond, other security or proof of damages, to appropriate equitable remedies with respect to breaches of this Agreement, in addition to such other remedies as Activision may otherwise have under applicable laws.

INDEMNITY. You agree to indemnify, defend and hold Activision, its partners, affiliates, contractors, officers, directors, employees and agents harmless from all damages, losses and expenses arising directly or indirectly from your acts and omissions to act in using the Product pursuant to the terms of this Agreement.

MISCELLANEOUS. This Agreement represents the complete agreement concerning this license between the parties and supersedes all prior agreements and representations between them. It may be amended only by a writing executed by both parties. If any provision of this Agreement is held to be unenforceable for any reason, such provision shall be reformed only to the extent necessary to make it enforceable and the remaining provisions of this Agreement shall not be affected. This Agreement shall be construed under California law as such law is applied to agreements between California residents entered into and to be performed within California, except as governed by federal law and you consent to the exclusive jurisdiction of the state and federal courts in Los Angeles, California.

If you have any questions concerning this license, you may contact Activision at 3100 Ocean Park Boulevard, Santa Monica, California 90405. (310) 295-2000, Attn: Business and Legal Affairs, legal@activision.com
