Hello there, Mario!
I am now on holiday, travelling in the Mushroom Kingdom.

In my travels, I came into possession of a mystical map...a treasure map, actually. It was inside a box I got from an old merchant in a town called Rogueport.

But since it would be too difficult for me to try to go find treasure all by myself... I thought you could help me hunt for it! You will, of course, won’t you?

I’ve included the map with this letter, so please bring it with you when you come. I’ll meet you at Rogueport. (That means you MUST come!)

-Peach-

So Mario headed for Rogueport, where he knew Peach was waiting... but she was nowhere to be found. Where had she gone?

When Mario started to walk around town to look for her, though, he found himself in the middle of a sticky situation. He ended up helping a sweet Goomba gal who was in trouble. Her name was Goombella, and she claimed to be in the midst of a treasure hunt...

When Mario told her that he had a treasure map, Goombella took him to see Professor Frankly, a wizened old archaeology professor who knew much of local legend.

According to the professor, in order to find the legendary treasure, they would have to first find and collect all seven Crystal Stars. Only then would they be able to open the Thousand-Year Door, behind which the treasure lay.

Luckily for them, the map that Peach had sent was the very Magical Map that showed the locations of the Crystal Stars!

By following the map, perhaps they will also find Peach... A grand adventure awaits Mario and his friends!

The Battle Screen

Striking First
If you use your jump, hammer, or Koopa's shell to strike an enemy first on the field screen, then you'll get one extra turn when the battle starts. On the other hand, if an enemy strikes you first on the field screen, they'll get one extra turn when the battle starts.

Mario attacks... Partner attacks... Enemies attack.

Press \( \) to let your partner attack first.

When you win a battle, you'll receive Star Points \( \rightarrow P.23 \) and return to the field screen. Then the defeated enemy will dispense coins and items.

Game Over
When Mario's HP reach 0, the game will end and you will have to resume play from the last saved point. If your partner's HP reaches 0, the game will not end, but that partner will no longer be able to act in battle.

Viewing the Battle Screen

- Mario and Partners' Parameters \( \rightarrow P.24 \)

- Commands
  - Select a command with \( \) and press to confirm.
  - Audience Number \( \rightarrow P.20 \)

- Pay Attention to Enemy Placement
  Depending on where an enemy is, some of Mario and his partners' attacks may not reach. For example, Mario's jump can't reach enemies on the ceiling. Also, Mario's hammer can only be used to attack enemies in the lead on the ground.

Mario's Commands

- Jump
  Stomp on an enemy to cause damage.

- Hammer
  Smack an enemy with a hammer.

- OK
  You can attack spiky enemies without taking damage.

- X
  You can't use the hammer to attack enemies at the rear, in the air, or on the ceiling.
Using Action Commands

When Mario and his partners attack enemies, following the on-screen cues may earn you a NICE!, which causes more damage than normal. This is called an Action Command.

Jump Type
As soon as you land on the enemy, press A with good timing.

Hammer Type
Tilt to the Left and release when the screen cues you to do so.

Defense Action Commands

Guard
As soon as an enemy's attack makes contact with you, press A to reduce the amount of damage taken.

Superguard
Press B with perfect timing during an enemy's attack to counter the attack and return some damage. However, this timing is much more difficult than the regular guard.

The description for each Action Command will appear when you select an enemy to attack.

Badge Techniques

Some badges, when equipped, will allow you to use new hammer or jump techniques ( → P.26). These can deal great damage to an enemy, and some can target multiple enemies at once. Simply choose Jump or Hammer and scroll down to see the choices.

Power Bounce
Keep bouncing on an enemy until you miss an Action Command.

Quake Hammer
Attack all enemies on the ground or ceiling.

Items

You can use items to recover HP and FP, or to cause damage to enemies.

Mushroom
Recover 5 HP. Can be used in the field.

Tasty Tonic
Cures status ailments like poison or sleepiness.

Honey Syrup
Recover 5 FP. Can be used in the field.

Fire Flower
Attacks all enemies with balls of fire, causing 3 damage to each.

Special Moves

These powerful special techniques consume Star Power ( → P.20) to heal Mario and his partner, or to massively damage enemies.

Tasty Treat
Shoot stars at the targets to earn HP and FP for Mario and his partner. Also cures status ailments.

Earth Tremor
Attacks all enemies on the ground. If you succeed in entering all the Action Commands, this move will work even on airborne enemies.

Status Ailments

Status ailments impair your ability to fight, but they disappear when the battle ends. Using items can take care of them immediately, however. The effect of the status ailment lasts the number of turns indicated on the status icon floating next to you.

Poisoned
You will take poison damage on every turn.

Sleepy
You will fall asleep and be unable to move.

Dizzy
You will become more likely to miss when attacking.
**Star Power and the Audience**

Once Mario has learned a special move, audience members will start to show up in the seats on the battle screen. If you please your crowd, you'll earn Star Power that can be used in battle.

**Star Power Gauge**

- Each dot represents one unit of Star Power.
- This is an empty unit of Star Power.
- This is a quarter unit of Star Power, in the process of filling up.
- This is what a full unit of Star Power looks like.

**Audience**

The audience will applaud for some of Mario's actions in battle.

**Gaining Star Power**

Using special moves depletes Star Power, but you can gain more in battle with the actions described below. The more audience members that are present, the faster your Star Power will fill up.

- **Appeal → P.22**
  - Choosing Tactics on the battle menu will allow you to Appeal to your crowd and increase your Star Power.

- **Complete Action Commands → P.18**
  - If you succeed in completing Action Commands while attacking, you will gain Star Power and increase the size of your audience. Failing Action Commands decreases the size of your audience.

Immediately before and after your attack connects, you can use with good timing to do Stylish moves with each attack. These are not Action Commands, and they don't influence the damage you do, but they can help you recover large amounts of Star Power.

**BINGO Chances**

Every time you successfully complete an Action Command when attacking an enemy, a BINGO icon will appear.

**BINGO icons appear here.**

If two such icons match, then upon your next successful Action Command, you'll be given the chance to stop a rotating icon wheel for the third mark with . Try to make all three icons match.

If all three icons match, you'll receive a BINGO bonus according to the icons you matched. You may recover HP, FP, or other things.

If you match three Poison Mushrooms on the BINGO wheels, then Mario and his partner's HP and FP will be reduced by half, many audience members will leave, and Mario's Star Power will be cut in half.

**Audience members throw stuff!**

You can attack audience members preparing to throw things by pressing . But sometimes your fans will throw helpful items, so pay attention!

When this icon appears, you can press to attack an audience member.
**Tactics**

Choose this menu when you want to do something besides attack or use an item.

**Swap Partner**

Switch partners in the midst of battle. Choosing to swap partners will end your partner's turn if they choose the command.

**Appeal**

Appeal to the crowd to increase your Star Power (→ P.20).

**Defend**

Assume a defensive position to reduce damage from enemy attacks.

**Run Away**

Get out of battle by escaping altogether. Press A repeatedly to fill the gauge. The more full the gauge, the better your chances of escaping.

The gauge fills with every press of A...

...But when you run from an enemy, you lose a few coins.

---

**Partner Commands**

Unlike Mario, your partners must each use moves to attack enemies and cannot use special moves. They can use items and Tactics just like Mario does.

Some of your partners' moves will require FP just like Mario's attacks do.

---

**Levelling Up Mario**

When you defeat an enemy in battle, you'll receive Star Points. When you collect 100 Star Points, your level will go up, allowing you to increase your HP, FP, or Badge Points (→ P.24).

When you level up, Mario and his partner's HP, FP, and Star Power get fully restored.

---

**Ranking Up Partners**

Partners do not level up by collecting Star Points, but if you collect 3 Shine Sprites and take your partner to Merlon's house (→ P.28), he will rank them up for you.

Shine Block

Hit this block to get a Shine Sprite.

---

**Attack and Defense**

Each technique has its own Attack power and will cause an amount of damage equal to that number. However, when you attack an enemy, the damage you cause will be reduced by the value of that enemy's Defense.

**Attacking a Koopa with the Hammer**

- **Attack 1 - Defense 1 = Damage 0**
  
  Your hammer has an Attack of 1, and this Koopa has a Defense of 1, so you will cause no damage with your hammer.

- **Attack 2 - Defense 1 = Damage 1**
  
  If you succeed at an Action Command, your attack with the hammer will have an Attack of 2, so you will cause 1 point of damage.
