## CONTENTS

Eight years have passed since Andross was finally overthrown by the daring Star Fox team. Following the celebrations, Fox McCloud and friends returned to the only life they knew – an endless patrol of the Lylat system, guarding against ongoing threats to their territory.

Boredom soon struck, causing Fox's close friend Falco Lombardi to simply disappear, leaving only rumor to suggest that his lone-wolf nature had finally led him to pursue a more free and profitable life.

Then Slippy Toad traded his pilot's wings for a place in Weapons R&D, demonstrating a natural flair for invention, while Fox's old friend and mentor Peppy Hare retired from active flight duty to concentrate on a role as navigator and general advisor.

The Great Fox itself had also seen better days. Keeping a ship of that size in prime condition cost serious money, and well-paid jobs for fighter pilots and mercenaries were increasingly difficult to come by.

So it was that Fox and co. found themselves drifting through the galaxy, waiting and hoping for General Pepper's hologram to pop up with just the kind of high-stakes, high-reward mission that they needed...

### Fox McCloud

Eight years after the defeat of Andross, Fox McCloud has matured as a leader and continues to be recognized as a great hero. He's still an active pilot, and his many skills with weapons and martial arts are often called into play.

### Tricky

It's hard to believe that the mischievous Prince Tricky will one day rule the EarthWalker Tribe. And with his father imprisoned, the future of the world looks bleak: could an unlikely partnership be the only hope for Dinosaur Planet™?

### Falco Lombardi

Falco Lombardi left the team several years ago and hasn't been seen since, though one thing's for certain: whatever the circumstances, Falco and Fox will always maintain a strong friendship.

### Krystal

The only survivor of her doomed home planet of Cerinia, Krystal roams the galaxy in search of answers. When a distress call draws her to a small planet in the Lylat system, Krystal suspects that she may finally be drawing closer to the truth...

### Peppy Hare

Although retired as a pilot, Peppy Hare has close ties to Fox and remains on the team as an effective advisor. Despite his increasing absent-mindedness, he is still well-respected by everyone.

### Slippy Toad

Recently Slippy Toad has been devoting a lot of time to Cornerian Weapons R&D, though he continues to work with his good friends in the Star Fox team. His upgrades to ROB and the Arwings prove invaluable.

### ROB The Robot

After several rebuilds by Slippy, ROB has now been infused with much more personality and has gradually become recognized by all as a full-fledged member of the Star Fox team.

### General Scales

Rejected as a ruling tribe, the twisted SharpClaw and their self-appointed leader Scales have amassed an army to overpower all. In recent times the General's power has dramatically increased – is he in this alone?

### EarthWalker Tribe

One of two ruling tribes of Dinosaur Planet. Their great strength and speed have helped them grow into a respected family of Dinosaurs (though the CloudRunner may disagree).

### ThornTail Tribe

These friendly creatures live amidst the foothills of the mighty Ice Mountain. Their knowledge of the local area and the Mysterious Warpstone make them valuable allies.

### LightFoot Tribe

A spiritual and reclusive Tribe, the LightFoot are seldom seen. The appearance of SharpClaw in the area has only served to heighten their natural suspicion, as Fox will find out for himself.

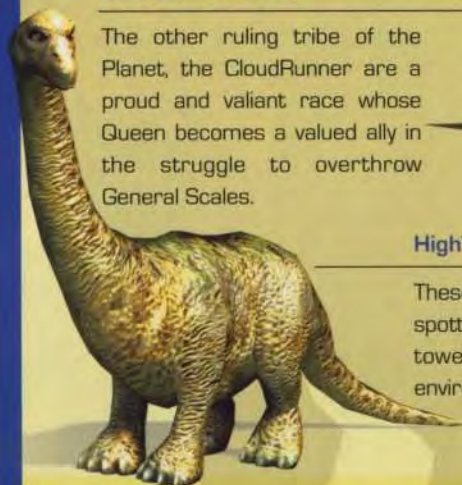

### CloudRunner Tribe

The other ruling tribe of the Planet, the CloudRunner are a proud and valiant race whose Queen becomes a valued ally in the struggle to overthrow General Scales.

### HighTop Tribe

These gentle giants are easily spotted from a distance as they tower high over the rugged environments of the planet.

### SnowHorn Tribe

Thick, woolly coats and massive endurance have seen the SnowHorn Tribe through many years of harsh living. This strength could prove priceless to Fox in his quest.

### RedEye Tribe

Flesh-eating Dinosaurs and deadly killers, the RedEye Tribe were safely under EarthWalker control until General Scales set them loose to overrun the Walled City.

## Main Goals

## The SpellStones

Four Stones forged of Dark Matter which absorb energy from within the planet and hold it together. General Scales has removed all four SpellStones and torn the planet apart. They must be returned to the Force Point Temples.

## Krazoa Spirits

Bringers of life to Dinosaur Planet, the Spirits were hidden when the EarthWalkers were attacked by General Scales's army. They must be returned to the Krazoa Palace.

Collect 6 Krazoa spirits

## Using The Staff

Krystal's magical Staff is an incredible tool with many uses, some of which include acting as a switch to open doors, a lever to lift heavy rocks (with rapid presses of the  Button) and a means of breaking open crates.

## Staff Powers

Hidden throughout Dinosaur Planet are numerous Magic Caves: the Staff will rumble and glow to let you know when one is nearby. Find a way in, and you can collect an upgrade, adding a new icon to the Staff section of the C Stick Inventory. Highlight the icon and press the  Button to use it (or just assign it to the  Button).

There are many different Staff Powers to find and collect, but using them reduces the Staff Energy meter. You can refill this meter by collecting gems from the Magic Plants scattered throughout Dinosaur Planet.

Magical Staff

## Combat

To fight a bad guy, press the  Button to bring out the Staff – this activates the Auto Lock-On mode, forcing Fox to face the enemy and modifying Control Stick movement so that you circle each other (you can break out of the Lock-On by pressing the  Button).

Pressing the  Button launches a standard attack, but defeating an enemy in this manner could take a long time...

## Combos

To earn a victory quickly and with style, you'll need to activate a combo. To do this, just press the  Button until a combo is activated. You can perform different combos by launching a few initial  Button attacks then pulling the Control Stick Left, Down or Right while continuing to press the  Button.

Some Staff Upgrades can also be used as part of your attack strategy during combat – to access these in the heat of battle, you must assign them to the  Button.

## Avoid and Defend

As you attack, a SharpClaw may defend before trying to launch an attack of its own. This is where your  Button Avoid and  Button Defend actions come into play. You can Avoid an attack by dodging to the side or use Defend to hold your ground until it's safe to attack again.

## Bad Guys

Dinosaur Planet is practically bristling with predatory creatures and plants set on making life difficult. Worse still, some of these foes are resistant to your Auto Lock-On, forcing you to seek out different tactics.

SharpClaw Tribe

### Sidekick Commands

These are commands that young Prince Tricky can perform on your behalf. As you progress through the adventure, you will be able to gain and use further Sidekick Commands. There are many to collect and plenty of fun to be had in experimenting with them.

#### Using Tricky's Skills

You can activate a Sidekick Command when a question mark symbol appears over Tricky's head. Highlight the icon within Tricky's C Stick Inventory and press the  Button (these commands can also be assigned to the  Button).

If Tricky has enough energy, he'll do as you've asked. If necessary, you can cancel his Commands and call him back to you by using his Heel Command.

#### Tricky's Warnings

Tricky can also inform you of nearby enemies and other characters before they enter your line of sight by displaying an exclamation mark above his head.

#### Feeding Tricky

Tricky does, however, require feeding with Blue GrubTubs. Each Command uses up some of his energy. If he's low on energy and can't execute a Command, Tricky will display a GrubTub symbol above his head. It's then up to you to find, catch and feed him GrubTubs!

The GrubTubs are stored within the C Stick Item Inventory. To feed Tricky, highlight the icon and, when the C Stick Icon is displayed above Tricky, press the  Button to feed him all the GrubTubs in your possession until he's full.

### Collectible Items

In addition to collecting Staff Powers and Sidekick Commands, Fox can also pick up various material items, some of which can be used at any time, while others become applicable only within certain areas.

After collecting an item, an icon is displayed within the C Stick Inventory. Highlight the icon and press the  Button to use it. Don't forget that you can assign items to the  Button.

As mentioned, some items can only be used within specific areas. If you leave the relevant area with such an item still in your possession, its icon on the C Stick Menu will fade to show that it can no longer be used.

### ThornTail Store

Within ThornTail Hollow, you'll find this store and its sole inhabitant, a strange, floating dinosaur known as the StoreKeeper. He spends his life roaming Dinosaur Planet in search of interesting items for his store. He also has a great liking for Scarabs. Be sure to pay many visits to the Store as there will be lots of items on hand that you'll find invaluable...

### The Communicator

Press  at any time to pause the game and bring up the Communicator; allowing contact with the Star Fox Team.

#### General Pepper

Displays your current overall status.

#### Peppy Hare

Displays the Dinosaur Planet Map. This shows your current location (displayed as a Fox head) together with where you should be heading next (a flashing symbol).

#### Slippy Toad

Displays clues and advice. If you get stuck on a puzzle or task, you can always turn to your friend Slippy.

#### Memory Card

Select the Memory Card to save the current game.

#### Quit

Select the Quit icon to exit the current game.

**!!!** The Communicator also allows your teammates to get in touch with you. Look out for the  symbol on-screen and press it as soon as it's displayed.

**Note:** Krystal only has the Memory Card and Quit options. Also, atmospheric conditions on Dinosaur Planet sometimes prevent you from getting full access to the Communicator options. Continue your journey and keep trying; you'll get through eventually!

### Fuel Supplies

It's a long journey to the worlds orbiting Dinosaur Planet, so before embarking on a mission into space, the ship will need to be fully refueled by rooting out the Fuel Cells that were dropped into the area by ROB.

### The Gold Ring Seal

Even when you have enough fuel, flying up to retrieve the SpellStones from the floating worlds in space is not as easy as it looks – Fox has to pilot his Arwing through varying numbers of Gold Rings in order to reach them.

Laser upgrades and Bombs can be picked up during the course of the Arwing missions, and energy can be replenished by flying through Silver Rings.

Bomb upgrade item

### Arwing Controls

#### Control Stick

The Arwing is always flying 'into' the screen, so tilt Left and Right on the Control Stick to bank left and right, Up to dive, and Down to climb.

#### A Button

Fires the Lasers.

#### B Button

Fires a Bomb, but only if a Bomb upgrade has been picked up within the level.

#### L & R Buttons

Hold down lightly to bank the Arwing, allowing you to turn more quickly. Press until they click to perform a 360 degree barrel roll, temporarily warding off attack.

#### X Button

Hold down to reduce your speed.

#### Y Button

Hold down to trigger a brief burst of speed.

#### START/PAUSE

Brings up the Communicator and pauses the game.

The C Stick and + Control Pad are not used during the Arwing levels.

### Speak Dino

This language has been spoken on Dinosaur Planet for thousands of years, since their first encounter with off-worlders. Before that, they got by with grunts and roars; a few still do, but most have adopted this relatively new language.

You can use this language to write secret messages to your friends and maybe even try speaking it too!

### Dino Alphabet: How To Write Dino Language

#### Step 1

Rearrange the vowel sounds:

English: **A E I O U**

Dino: **U O A E I**

#### Step 2

The letter 'M' remains the same:

**M = M**

#### Step 3

Replace the letter 'Y' with an 'O' - this means that the letter 'Y' will not exist in this language:

**Y = O**

#### Step 4

Rearrange the remaining letters as follows:

English: **B C D F G H J K L N**

Dino: **R S T V W X Z B C D**

English: **P Q R S T V W X Z**

Dino: **F G H J K L N P Q**

You now have the method of encoding and decoding the Dinosaur language. Note that the names of people and places are not affected, remaining in their original language.

See the example below:

**No-one can defeat General Scales**  
De-edo sud tovouk General Scales

**!!!** If you want to talk in Dino, then just listen to the characters in the game and practice!
