THE STORY

It was like any other day in space...

Just as the Alien Hominid is joyriding over Earth's atmosphere, the alarms are going haywire at FBI surveillance headquarters (Because, we all know that the FBI monitors outer space). The FBI immediately responds by shooting down the alien, sending the UFO soaring towards planet Earth.

Once crashed, the Hominid's UFO is taken and transported into the sneaky grip of the FBI agents. They soon return in full force to take the Alien Hominid captive as well!

You see, here is where things get rough.

You're the Alien Hominid - In a battle for the very ownership of the UFO and your own extra-terrestrial freedom!!

THE FBI

Yeah, there they are!! They are the ones with your UFO!

The FBI guys are pretty smart. They aren't just attacking on foot. They have built giant urban war machines designed to catch Alien Hominids off guard!!!

LOAD/SAVE GAME

The Nintendo GameCube Memory Card is used to store game options, game progress, and user-created PDA levels. If no memory card is present when the game starts, play continues as normal, but game progress, options, and user-created PDA levels will not be stored.

If a memory card is present, as the user progresses through the game, his progress is stored to the memory card after each level is completed. If the user creates custom PDA levels or changes game options, those are also stored.

When "AUTOSAVE" is turned off, the game will not save until turning this function back ON.

SHIELD: The Hominid has a protective shield (protection depends on difficulty setting – see **OPTIONS**). Players can swap shield points by using the freak attack on each other.

LIVES: Within each level, the **PLAYER** is awarded an extra life for the first 10,000 points. The range is incremented by 1,000 each time you receive a one-up within a level, so you will need 10,000 points, followed by an additional 11,000 points, followed by an additional 12,000 points, and so on. The longer the level is played, the harder it becomes to rack up extra lives.

FLOWERS: Dig next to any flower and the Hominid will automatically grab it and add an extra life.

TALLY: Points are awarded for damage unleashed.

ENEMY POINTS-	Damage against enemies
BOSS POINTS-	Damage against large opponents
STYLE POINTS-	Creative Damage – Biting, Grabbing, throwing into other enemies, etc.

SECRET ITEMS

Picking up this box will increase your grenade count by 10!

Some mini-games or hats are unlocked during regular advancement through levels. Others are unlocked by doing something specific in the game.

You will know that you have unlocked something when you hear the foghorn sound. It will not announce what is unlocked, you must go back into your menu and look to see what you have earned!

HATS

Hats are unlocked as you play the game or after specific events occur. For example, if **PLAYER** blows up the Behemoth building in Level 1-4, it unlocks the rooster hat. The **PLAYER** can also unlock the goggles in Level 1-4 if you manage to defeat the helicopter without losing your tank. Hats unlock as you play...over 30 styles to discover.

Once you have unlocked certain hats, you can choose them in your options menu.

COMBAT TIPS

Shooting down while in the air can get you **extra hang time** when you need it!

Stay calm! A crazed alien is a dead alien!

Focus on the bullets! All it takes is one to turn you into a dead alien. Pay attention to where they are and react!

Charge up in between the mayhem for some screen-clearing action!

Remember to Roll! Rolling forward will roll you right under high bullets! You can roll at enemies after they fire for the quick kill!

Head-bite an enemy in front of other enemies to **scare them!**

Stack power ups of the same kind to add to your current ammo count!

Bosses usually have **PATTERNS!**
