B Button	Accelerate (if possible)
A Button	Jump with vehicle (if possible), or enter / exit vehicle (if possible)

LET'S SPIN!

Yosemite Sam has hatched a devious, cunning plan to turn the island of Tasmania into a cheesy theme park. There is only one obstacle between Sam and ultra-richness — the *Tasmanian Devil*! So Taz is soon captured and brought to the Yosemite Zoo...

Not surprisingly, Sam's zoo is no match for our furry hero and he must now find his way back home to Tasmania. It's up to you to take control of Taz and guide him home. But watch out, Sam has alerted all his forces of highly trained Taz Catchers to stop you and there's a price on your head for anyone who captures you.

Posters

In each area you visit, there will be seven Wanted posters. If you don't want anyone to know you're on the run, you'll have to destroy all of these to clear each area. Once all three areas in a world have been cleared, you can proceed to the next world, and eventually Tasmania.

Sandwiches

By eating 100 sandwiches in an area, you'll open a bonus game.

Bounty

The bounty on your head increases as you destroy the objects in the areas. As this bounty reaches certain levels, you will get access to new options from the Extras option (in the Main Menu). The bounty decreases every time you are caught.

MAIN MENU

Maneuver through the menu screens and highlight options by using either the **Control Stick** or the **+ Control Pad**. To confirm each choice, press the **A** Button. Press the **B** Button to cancel a selection and return to the previous screen.

Start Game

Once you choose to start a new game, you'll see three caves. Each cave can store your progress in one game. So you can have three saved games at any one time.

Start a New Game

To start a new game, move *Taz* to an empty cave. Choose a character to use as a save icon, then enter your initials.

Continue or Clear a Saved Game

To continue a previously saved game, move *Taz* to a cave with a saved game (you'll see a character icon and initials) and select "Continue this game." To delete a saved game, select "Clear this game."

Game Options

Difficulty ("Daffy-culty")

Select a difficulty level: Standard, Advanced or Expert.

Destruction

Smash your way to victory by eating and tearing through as many crates as you can.

Vehicle Race

Test your skills with three laps of racing on shopping carts, floor polishers or jet-bikes.

Time Trial

Spin across three treacherous landscapes before time runs out.

Tournament

Play a mixture of two-player games. To choose the games, select PULL and the contraption will start spinning. To keep any choices before pulling again, select HOLD. Once you are happy with the choices, select COLLECT and let the games begin!

Secrets

Play the three secret games that are unlocked when you complete the boss levels in the single-player game.

Records

Go here to see the best scores that you've racked up so far.

Language

Choose the language for your game.

Extras

As the game progresses, make sure to check in here often to see the bonuses that you've unlocked during the game. You can also check out the game credits here.

PAUSING THE GAME

Press **START/PAUSE** to pause the game. When you pause within a level, your current score and level of completion are displayed. From this paused game screen, you can use the **Control Stick** or the **+ Control Pad** to toggle between Map and Options, then use the **A Button** to select the one you want.

Map

This is a Map of the area that you are currently in, indicating your own position and the location of the Wanted posters in that area. Select a poster and press the **X Button** to bring up a hint that may help you with the solution. The Standard difficulty level gives you up to two hints (press the **X Button** twice; one hint will be more detailed than the other), Advanced gives you only one hint, and Expert gives you none. Press the **A Button** to see a brief animation of the selected poster's location.

Options

- Music Volume
- Sound Effects Volume
- Rumble ON / OFF
- Subtitles ON / OFF
- Exit Game / Return to Hub (to get back to the Main Menu or the Hub)

SAVING

A Nintendo GameCube™ Memory Card with 3 blocks of free space is required to save your game data. The Memory Card should be inserted into the Nintendo GameCube™ Memory Card Slot A.

Your progress will be automatically saved every time you enter an area from the Hub, or exit an area and return to the Hub. So to save your progress, simply exit the level where you entered it and return to the Hub. This will save the posters you have destroyed, the sandwiches you have collected, and whether you have found the Golden Sam Statue or not, but all destructibles are reset for you to try again!

Note: If your Memory Card already contains *Taz: Wanted* save game data, it will be overwritten with the new data!

Please refer to the Nintendo GameCube™ instruction booklet (pages 18-20) for directions on how to format and erase Memory Card files.

SPECIAL POWERS

There are five different powers that *Taz* can achieve throughout the game:

Invisibility Potion

While under the influence of an invisibility potion, *Taz* can sneak past opponents and Whack-in-the-Boxes. Be careful though — it doesn't last long!

Super Burp Soda Can

If *Taz* eats one of the Super Burp Soda Cans, check for the green bubbles coming out of his mouth. You can press the **X** Button to do a mega-powerful super burp that can destroy certain things that are normally indestructible, and defeat opponents at a distance.

Hiccup Soda Can

If *Taz* eats one of the Hiccup Soda Cans, he will start to hiccup uncontrollably for a short period of time. These super-high jumps can be very useful to reach areas that are normally too high up.

Mega Hot Chili Peppers

If *Taz* eats one of the Mega Hot Chili Peppers, you can press the **X** Button to breathe a gust of fire, which can destroy both your opponents and your surroundings.

Bubble Gum

By eating a piece of bubble gum and blowing a bubble, *Taz* will be able to fly for a short time. Press the **X** Button to pop the bubble.

SPITTING

Most objects in the different areas are edible. Simply walk up to the object and press the **Y** Button to eat it. Now here's the funny part: if you press the **Y** Button again, you will spit out the object as a powerful projectile! This is a very useful move when you cannot reach an object that needs to be destroyed, or even to defeat some opponents!

Note: You can use the "in-*Taz*" view (press the **R** Button to activate) for even greater accuracy!

COSTUMES

All areas in the game have a number of *ACME* Dial-a-Costume phone booths that, if entered, will give *Taz* a disguise that helps him avoid the opponents. Each costume also awards *Taz* a special attack, which is available by pressing the **X** Button.

Use the special attack on the *Taz* Catchers to scare them from the level permanently. **Note:** Once you use a special attack to defeat a *Taz* Catcher, you will lose the costume. If an opponent captures you, you will also lose the costume. However, you can enter the nearest booth again to get a new one.

SPIN TO WIN

By using the spin (**B** Button) you will be able to destroy objects, disable opponents and even travel up walls.

The Tasmanian Devil can also achieve a super-spin. To do this, stay on the same (flat) spot and hold down the **B** Button for a couple of seconds first. Then press the **Control Stick** or the **+ Control Pad** to speed off in the desired direction. This can be very useful for getting to unknown places and up steep walls!

OBSTACLES

The most powerful obstacle in Sam's arsenal is the blue "Whack-in-a-Box," which prevents *Taz* from reaching certain areas. Luckily, spinning on the Spin-Pads can temporarily disable them.

GRAMOPHONES

The gramophones can only be destroyed by very powerful explosions, so *Taz* must do his best to avoid them, blow them up, or just live with their hypnotizing influence.

OPPONENTS

Most opponents can be defeated by simply spinning into them, while others must be defeated with special powers or attacks. Experiment to find the best ways! Scare away *Taz* Catchers from an area by defeating them using the Special Costume attack. But beware, if they get hold of you, you will be whisked off to another part of the level and thrown in a cage.

BONUS GAMES

All levels (except Tazland A-maze-ment Park) have a bonus game that is unlocked if you eat 100 sandwiches in the level. You will find the entrances to the bonus games right outside the level's entrance / exit, in the Hub area, as a blue phone box.

If you successfully complete the bonus game, Sam will raise the bounty on your head even more!

You can replay each bonus game as many times as you wish (once unlocked, they are also accessible from the Extras option in the Main Menu), but you can only get the bonus once.

PLANET X

When you have escaped Yosemite Zoo, you will find that in each world Hub is a door that looks only slightly out of place. By entering this door, you will be transported to Planet X, and from there you will be able to get to any other world Hub that you have completed. This is especially useful when you want to return to a previous level to collect all the goodies that you missed.

BOUNCY BOUNCY

To help you get to seemingly inaccessible places, some items have special bouncing properties. Jump on anything that looks bouncy (such as sofas, tires, mattresses and life preservers), and hold on to your hat!
