Prologue

The first flakes of winter fluttered down on a biting breeze. Betsy Braddock™ stepped out onto her balcony and stared up at the charcoal New York City skyline in wonderment. Where had all the stars gone? There was no moonlight glow casting long shadows along the rooftops this night. There were, however, enough falling stars to answer the wishes of every child in midtown Manhattan. She had been awakened by a terrible nightmare that the city had gone mad. Screams of terror lingered and seemed to echo in her head. No! Those weren’t echoes in her head at all...those screams were real! Fires burned, down on 34th Street. Somewhere nearby, a car screeched and slammed into the side of a building. A female voice cried out in the darkness, mingling with cries of glee and screams of anguish...

...And in the next moment, like the last rays of moonlight, Betsy, the woman now known as Psylocke, was gone, lost among the embers and city lights below. This was not how anyone thought it would be. Least of all, the X-Men. Just then, Betsy’s apartment shook as a large shadow the length of five cars passed two stories beneath, through the darkness of night. What was already a dark sky was darkened further by dozens of mechanized beasts flying above, the mutant hunting Sentinel swarm, circling about like vultures waiting to feast in the streets below.

...Several blocks away, a car exploded, rocking the street and sending bodies flailing to the ground like dominoes. The joints of a 50-foot steel behemoth creaked as it rose above the city lights and awnings in the middle of the six-lane street. A small girl hunched over a doll crouched behind a car, screaming for her mother. “Mutant DNA identified...prime objective, terminate,” a pair of
inhuman eyes the size of street lamps glared from above and
glowed with white hot fury. Just then, a large gloved hand
grabbed the child like a doll and lifted her onto the massive
shoulders of a mighty, metallic-skinned mutant. Out of the
shadows of the X-Jet, a ruby-quartz visor burned fiery hot, and
almost instantly six razor-sharp adamantium claws extended,
reflecting the monster's yellowish gaze.

"Not tonight, bub..."

**AI Power**—Determines the mutant power used by teammates on a targeted enemy when the Ally button is pressed (Xtreme Power not selectable).
Skills
Skills are unique to each X-Men character, and measure your ability to use your mutant craft in various ways. Some of your skills are active, which means you must perform a special action to use your power. Other skills are passive, meaning that your powers go into effect automatically, and are evidenced during normal gameplay. Every character has multiple upgrades to their powers, which take on new properties as you assign points to them. To see what powers you can unlock, view the skill tree in the Skills menu. Many powers have multiple tiers. You can advance to the next tier by filling in all the skill point slots in the current tier.

Upgrading mutant powers—Assigning points in an existing skill increases the potency of that skill. Cost: 1 skill point.

Acquiring new mutant powers—Unlocking a new power or upgrading to the next tier of a power is indicated by a gold square on the Skill Tree. Cost: 2 skill points.

Buffs, or skills that bolster your attributes either offensively or defensively, appear on the affected character in the game.

Buffs that increase your striking power generally appear on your character’s hands.

Buffs that increase your defensive ability generally appear on your character’s feet.

Xtreme Powers
Every hero has the potential to unlock the ultimate version of his or her basic power. This power doesn’t use mutant energy, but instead uses Xtreme tokens. Once you’ve unlocked this skill and collected 4 tokens, you have enabled your Xtreme power. The Xtreme power is always activated by holding the R Button and pressing the Y Button.

Items & Equipment
Equipment is worn by each X-Men character to enhance his or her abilities and is always in effect as long as it’s equipped. There are 3 types of equipment you can use.

"You boys and your little toys. One of these days, I'm going to walk into a room and catch you and Cyclops trading action figures."
—Jean Grey
**Armor** deflects damage and gives resistances.

**Belts** increase one or more of your 4 basic attributes, and enhance each character just as upgrading the attribute would. Enhanced attributes are shown in blue on the Attributes screen.

**Backpacks** add damage to your melee and mutant attacks.

**Health packs** replenish the health of your currently selected hero. The maximum number of health packs you can carry at level 1 is 10.

**Energy packs** replenish the energy of your currently selected hero. The maximum number of energy packs you can carry at level 1 is 10.

---

**Forge's Workshop**

Forge can make anything. That's right, anything... for a price. When there's a piece of equipment you need, he gets the job done. All he desires in return are mechanical parts, known as tech bits, he uses to make more trinkets. Forge will trade unique or rare items to you as well as more mundane armor and enhancers. However, the more valuable the item, the more it'll cost you.

Collect tech bits throughout the game to purchase items from Forge and Healer.

---

**Healer's Den**

The Morlocks are a nomadic people who have built a society in the innards of the New York sewers. Most don't take kindly to strangers who wander into their domain. The Healer, however (the wisest and oldest of the Morlocks), provides aid where he can to those who pass through. He has potions that will salve your wounds and revitalize your mutant power. All he asks for in return are trinkets, called tech bits, from the surface that can be used to build infrastructure and improve the quality of life for the Morlocks.

---

**The Mansion**

Routinely throughout your quest, you'll be able to return to the mansion for some much-needed R & R. Here, you can talk to your fellow X-Men, gain information on past missions, view your cinematics in the TV room or visit the Danger Room to train for your next mission.
