This is the Blue version of Pokémon. There are other versions, too. The story and characters are the same for all versions. The differences between the versions are the type and probability of Pokémon appearances.

To complete your collection, you will need to trade with a friend who has another version.

STORY

You are an 11-year old boy living in Pallet Town with your mother. Your rival lives next door to you. You and your rival used to play nicely together when you were little, but lately, he has become mean. He sees you as his rival because you are the same age and height. When you hear that Professor Oak is a Pokémon expert, you get excited because you are a curious boy. You walk outside of Pallet Town in search of Pokémon and you hear a voice.

"Hey! Don't go into the grass!" It's Professor Oak. "There are wild Pokémon living in there," he says. "They can be very dangerous."

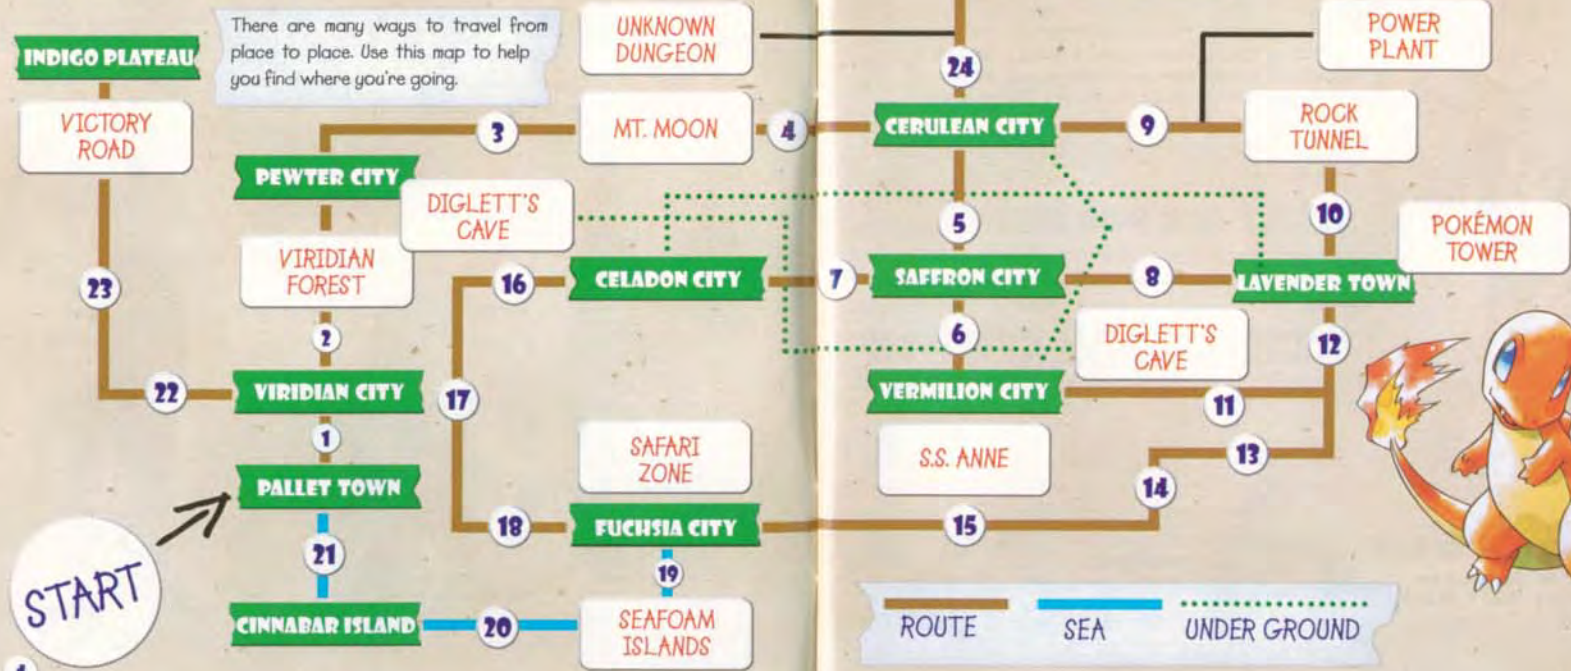

If you possess trained Pokémon, you can let them fight against wild ones."

Professor Oak takes you back to his lab where your rival is waiting. Professor Oak invited him because he is Professor Oak's grandson. Professor Oak instructs you: "There are 3 Pokémon here, so choose the one you like! Now that you have a Pokémon, the rest is up to you..."

WORLD MAP

There are many ways to travel from place to place. Use this map to help you find where you're going.

START

THE WORLD OF POKÉMON

I am Professor Oak. The document you are reading is the result of many years of studying Pokémon. I strongly suggest that you read this document thoroughly so you may become a Pokémon Master.

WHAT ARE POKÉMON?

There are more than 100 Pokémon in existence. The more they fight, the more powerful they become. The Pokémon having only simple attack techniques, such as TACKLE or TAIL WHIP, gain new, stronger techniques, like BITE or WATER GUN. Some Pokémon evolve and change in appearance.

PROFESSOR OAK

He is the leading expert on Pokémon. Listen to his wise advice.

DEFEAT THE 8 POKÉMON LEADERS

In the world of Pokémon, there are many Pokémon Trainers who raise Pokémon for fighting. Only 8 of these trainers are considered to be Pokémon Leaders. You can find these leaders hanging out at local gyms, training their Pokémon to become stronger.

These leaders are waiting for anyone who wants to challenge them. In order to complete your Pokédex, you must fight these leaders.

COMPLETE YOUR POKÉDEX

Your goal is to capture one of every Pokémon in the world to become a true Pokémon Master.

To reach this goal, all of your findings must be recorded in your electronic encyclopedia called a Pokédex. All of the Pokémon data you find will be automatically recorded in your Pokédex. To catch Pokémon, you will need Poké Balls, which you may purchase from Poké Marts in most towns and cities. You will also need to trade Pokémon with friends who have a different version in order to complete your Pokédex.

PALLET TOWN

Your quest to become a Pokémon Master begins here. Explore the town before heading North. After leaving your house, go visit your rival and Professor Oak.

Talk to everyone you see. People will help you along the way, so don't miss anything.

1 Your Home

Where you live. You and your rival grew up playing together and had a great friendship until he became competitive and mean.

2 Your Rival's Home

Your rival lives here. Since you were once great friends, maybe there's a chance you two can work things out.

3 Professor Oak

You need to find Professor Oak, but he's not in his lab. As you try to leave town, Professor Oak stops you "Hey! Wait! Don't go out!" Soon enough, you're standing in Professor Oak's Lab.

SELECT YOUR POKÉMON

Professor Oak will let you choose 1 of 3 Pokémon. Choose wisely, the Pokémon you select determines the difficulty of your game. Read OAK'S MEMO below for a tip.

OAK'S MEMO

First time players: Start with Bulbasaur, the Grass-type Pokémon; these are more successful attacking Rock-type Pokémon.

ROUTE #1

DANGER! WILD POKÉMON

You will travel North into the grassy area where you will run into many Wild Pokémon.

Walk around in the grassy areas. You will find Wild Pokémon.

RATTATA™

Attacks with a vicious bite. Small and very quick, it is a common sight in many places.

VIRIDIAN CITY

PALLET TOWN

YOUR FIRST BATTLE

When you encounter a Wild Pokémon, a sequence of events takes place. The information on this page will teach you the basic fighting technique.

First, the Wild Pokémon appears on the screen.

Next, you exchange attacks with the Wild Pokémon.

Finally, if your Pokémon wins, it will receive experience points.

PIDGEY™

A common sight in forests and woods. It flaps its wings at ground level to kick up blinding sand.

OAK'S MEMO

At this point, you will not be able to capture a Wild Pokémon. You can only fight for experience points. When you get to Viridian City, you may purchase Poké Balls at the Poké Mart.

VIRIDIAN CITY

You can't get in here yet because it's closed.

3 Pokémon Center

Here, you may recover the HP and PP of your Pokémon for free. You can also deposit or withdraw your Pokémon and Items using the personal computer. When you deposit Pokémon, you can place twenty of them in a single box. (There are a total of twelve boxes.) Also, your PC is connected to Oak's Lab, so he can evaluate your Pokédex. Check out the Link Cable Club where you can trade Pokémon or battle your friends. See page 35

ACCESS COMPUTER

Someone's Computer

Access this computer to deposit or withdraw Pokémon. You may carry up to 6 at a time. You may organize your Pokémon in separate boxes. For example, you may want to store similar types in the same box. Note: Someone's PC will be known as Bill's PC later in the game.

Prof. Oak's Computer

Access Oak's computer to receive Professor Oak's rating of your progress.

ROUTE #2

Route #2 is between Viridian City and Pewter City. Be careful, this road travels through the Viridian Forest which has powerful Pokémon lurking about. Make sure you've built your Pokémon levels up before traveling here.

Give the parcel to Professor Oak and he will give you a Pokédex in return.

You can see items on the other side of these trees. How do you get them? You'll have to come back later.

USE THE POKÉ BALL

You will need to use Poké Balls to capture Wild Pokémon. It will work best if you get its energy down as far as possible, but not all the way. Try a Pokémon who has the ability to put the Wild Pokémon to sleep. Once it's sleeping, throw a Poké Ball to capture it.

POKÉMON™ WEEDLE™

Often found in forests eating leaves. It has a sharp venomous stinger on its head.

NO YES

Get the Wild Pokémon's energy down, then throw a Poké Ball at it. You can capture many Pokémon this way.

Wild Pokémon may escape if their energy is too high.

OAK'S MEMO

As you play, the Wild Pokémon you meet will get stronger. You may need to throw more than one Poké Ball to capture them.

VIRIDIAN FOREST

The Viridian Forest is full of danger as Wild Pokémon lurk in the grassy areas. You will also find plenty of other Pokémon Trainers here. This is a great area to practice your fighting skills.

KAKUNA™

Almost incapable of moving, Kakuna's only defense from predators is to harden its shell.

Pokémon Trainer

When you battle other Pokémon Trainers, you earn money and your Pokémon gain experience points. A Pokémon Trainer may have 1 to 6 trained Pokémon, so it's a good idea for you to have 6. You will not be able to capture Pokémon from other Pokémon Trainers.

OAK'S MEMO

If you have collected 6 Pokémon, raise their levels evenly. Let each of your Pokémon have a turn in battle. Also, you may want to collect 6 different types of Pokémon.

HINTS

OAK'S MEMO

You will find many interesting things during your quest. On the next couple of pages, I have recorded some things I believe will make your quest more enjoyable.

How to Use a Pokémon Box

There are twelve boxes in which you may store Pokémon. Newly captured Pokémon will be stored in the currently selected box. When a box is full, you must change boxes.

If Your Pokémon Box is Full

If your Pokémon Box is full, you will not be able to keep Pokémon that you capture. You need to access the computer in a Pokémon Center and change to a box that is not full.

Hidden Machine

Sometimes, you will get a Hidden Machine instead of a Technical Machine. It works similar to a Technical Machine, but you can use a Hidden Machine as many times as you want. Also, the skills learned from this machine can be used while moving in the world. For instance, you can CUT a tree blocking the road by using an ability called CUT, or swim in the water by using an ability called SURF.

How to Arrange Items

First open ITEM on the Menu screen. Move the cursor (using the +Control Pad) to the item you want to move, then press SELECT. Next, move the cursor to where you want the item to be moved using the +Control Pad, and press SELECT.

You can arrange the abilities during the fight the same way.

Change Pokémon Nicknames

There is only one place where you may change the nicknames of your Pokémon. When you find this place, make sure you remember where it is.

Stop Evolution!

When your Pokémon start to evolve, you may stop the process. Press the B Button when the screen shows the Pokémon changing form, like in the screen shot to the right.

COLLECT POKÉMON

OAK'S MEMO

You may collect Pokémon in many different ways. Please study these pages to learn how you can collect Pokémon.

GET 1: WILD POKÉMON

Many of the Pokémon you'll collect can be found in wild places: in the grass, in caves, water, etc.

GET 2: EVENT

You can collect some Pokémon through special events; win one as a prize in the Game Corner, get one by helping a person in need, or capture them at the Safari Zone, etc.

GET 3: LINK

In a Pokémon Center, you can link your Game Boy system to a friend's Game Boy system and trade Pokémon between the 2 Game Paks. Some Pokémon will evolve when you trade them. Also, some Pokémon won't appear in your version of the game, so you must trade with a friend who has a different version in order to complete your collection.

RARE POKÉMON

In each game, there is a Pokémon that appears only once. If you do not capture it the first time, you will never have the chance to capture it again.

EVOLUTION POKÉMON

Many Pokémon evolve when their experience level increases. In the screen shots below, we see Weedle evolving into Kakuna. Train all your Pokémon to higher levels and discover the ones that evolve.

OAK'S MEMO

Think carefully about the types of Pokémon you are battling against. Carrying the appropriate type of Pokémon can make a big difference in your success.

TYPES OF POKÉMON

There are many different types of Pokémon. Each type of Pokémon has strengths and weaknesses against other types. It's like a large scale version of the game, Rock, Paper Scissors. Rock is stronger than scissors, scissors are stronger than paper and paper is stronger than rock.

Some Pokémon have two types.
