How to Play

To succeed, you must complete each arena. Simply pop all of the bubbles that appear before your time runs out. Start every round with the basic one-shot harpoon gun. If a bubble touches any part of your hook or cable, it pops! Big bubbles pop into two medium size bubbles and the medium size bubbles pop into two small bubbles. All bubbles are harmful to the touch! The best strategy is to keep moving.

Some of the big and medium bubbles release items as they pop. Most of the items are beneficial to players. These items are:

Double wire

Shoot two wires at a time.

Power Wire

Stays attached to ceilings until hit or for a few seconds.

GAME DIRECTIONS CONT.

Vulcan missile

Dynamite

Hour glass

Shield

Mystery item

Clock

Rapid fire gun. It will not break open bricks.

Makes all bubbles small. Be careful using this item!

Adds seconds to your overall time.

Protects character against one bubble.

Gives player item or a 1-up.

Freezes all bubbles for a short time

SCORING

Earn points by popping bubbles and by collecting certain items. Big bubbles are worth 100 points, medium bubbles are 150 points and small bubbles are 200 points. For every 100,000 points earned, you will receive a 1-up.

Special Note: You are also awarded bonus points for any time remaining on the clock at the end of each round. Grab all the hourglasses you can to earn these points!
