THE NINTENDO⁶⁴ CONTROLLER

The Nintendo⁶⁴ Control Stick uses an analogue system to read the angles and directions of its movement. This allows subtle control that is not possible using the conventional + Control Pad.

When turning the Control Deck power ON, do not move the Control Stick from its neutral position on the controller.

If the Control Stick is held at an angled position (as shown in the picture on the left) when the power is turned ON, this position will be set as neutral. This will cause games using the Control Stick to operate incorrectly.

To reset the neutral position once the game has started, let go of the Control Stick so it can return to its centre position (as shown in the picture on the left), then press START while holding the L- and R-Buttons.

The Control Stick is a precision instrument; do not spill liquids or place any foreign objects into it.

While playing this game, we recommend you use the hand positions shown below.

By holding the controller like this, you can operate the Control Stick freely with your left thumb. Using your right thumb, you can easily access the A-, B- or C-Buttons.

Place your left index finger where it feels comfortable, but not in a position where you might accidentally press the Z-Button on the back of the controller.

To play this game, connect a controller to socket one located on the front panel of the Control Deck.

If you change the connection during the game, you may need to either press RESET or turn the power OFF to make the new connection active.

You must use two, three or four controllers in order to play the 2-, 3- or 4-Player game modes.

THE LEGEND OF MARIO LAND

*Mario and Luigi, Wario and Peach,
DK and Yoshi all gathered in speech.*

*Sharing their wishes for all they had seen,
Saying "Let's make a world built on all of our dreams!"
Combining their talents, they sweated and strained,
Completing that world, Mario Land by name...*

*Alas, but Wario stepped forth and said,
"This world should be named for a Super Star, instead.
Wario Land is a far better name!"*

*And so they all argued the depth of their fame,
"Peach Land is better!" and "My name is best!"
Toad could not believe the words of the rest!*

*But as they debated who was more grand
Bowser invaded that Mario Land!!!
"There's no time to argue and no time to fight!
The task is before us," Toad said with a fright.
"This land shall be named for the Super Star who
Defeats evil Bowser and saves us all, too!"*

*So Mario and friends, took on this new quest,
To defeat the King Koopa and prove who's the best!
They went deep into space, met ghosts and pirates,
But always on Bowser their keen sights were set.
No adventure more trying, no reward more grand...
So speaks the legend of Mario Land!*

CHARACTER INTRODUCTIONS

Let's take a moment to meet the cast of characters...

MARIO

Our merry hero's favorite Item is the Mushroom, of course. He runs like the dickens and can skillfully master any Mini-Game.

WARIO

LUIGI

The lovely Princess Toadstool likes to use the Plunder Chest, revealing her surprising habit of tricking her opponents.

PEACH

The wide-eyed Yoshi is always full of energy. His favorite Item is the Warp Block, and he apparently likes all-or-nothing competitions.

YOSHI

DONKEY KONG

When it comes to strength, this mighty ape is number one! He clears all Mini-Games with dominating performances. His favorite Item is the Bowser Bomb, and he loves Happenings!

SETTING BOARD GAME RULES

Read along while playing your first board game.

Choose an Adventure Board

To begin a board game, choose one of the ADVENTURE BOARDS displayed on the INFORMATION BOARD and press the A Button. See chapter "The Adventure Boards".

Set the Number of Players

Four characters participate in every board game. If there are not four human players, the remaining characters will be controlled by the computer. Choose from one to four human players.

Select Characters

After selecting the number of players, choose which characters each player will control. Also, choose which, if any, computer-controlled characters will appear.

Set Computer Character Skill Levels

When playing against computer-controlled characters, you can select the computer characters' skill levels. Choose EASY, NORMAL or HARD. Computer character skill levels can be set all the same or set individually.

Set the Number of Turns

Choose one of the following three turn options:

- ★ LITE PLAY 20 Turns ★
- ★ STANDARD PLAY 35 Turns ★
- ★ FULL PLAY 50 Turns ★

Choosing a Bonus Setting

When you choose the Bonus setting, you may be able to find Hidden Blocks in Blue Spaces on the board map. Also, the following three Bonuses will be awarded at the end of the board game, and the winner of each will receive a Star.

- ★ Mini-Game Star: Collect the most Coins in Mini-Games. ★
- ★ Coin Star: Collect the most Coins overall. ★
- ★ Happening Star: Land on the most ? Spaces. ★

If you choose NO BONUS, there will be no Hidden Blocks on the board map and no Bonuses awarded at the end of the game. The winner of the board game will be decided solely by the number of Stars and Coins at the end of the game.

Determine Turn Order

At the start of the game, each player must hit a Dice Block to determine turn order. The player with the highest number goes first.

NOW, I'LL EXPLAIN THE BOARD GAME RULES USING THE RULES LAND ADVENTURE BOARD MAP. (YOU CANNOT PLAY A BOARD GAME ON THE RULES LAND ADVENTURE BOARD.)

THE DICE BLOCK

To start his or her turn, each character hits a Dice Block and moves the number of spaces shown.

1
Junctions

When you arrive at a junction, move the Control Stick in the direction you want to go.

2
Toad

Toad will trade 1 Star for 20 Coins. Each time a Star is purchased, Toad will move to a different place on the map.

3
Item Shop

You can purchase an Item when you pass in front of a shop. However, if you do not have enough Coins, or if you already have an Item, you cannot purchase any more.

4
Baby Bowser

One of Bowser's many henchmen, he'll steal 5 Coins from you each time you pass him. There is an Item that will transform him into Bowser, so beware!

5
Boo

Boo will steal Coins or a Star from any player you choose, but it costs 5 Coins to steal Coins and 50 Coins to steal a Star. If Boo comes to steal Coins from you, press the A Button repeatedly to chase him away. You may only be able to limit the number of Coins Boo steals.

NOTE: The above are not counted as spaces. Different events occur when you pass each of the above, but you finish moving after the event ends.

TYPES OF SPACES

Different events occur during board games depending on where you land. There are eight different kinds of spaces.

Blue Spaces

Receive 3 Coins when you land on a Blue Space. When playing with the Bonus setting, Hidden Blocks may appear on Blue Spaces.

! Spaces

The single-player Chance Time Mini-Game begins when you land on this space.

Red Spaces

Lose 3 Coins when you land on a Red Space.

? Spaces

Different Happenings occur on these spaces depending on the ADVENTURE BOARD being played.

Item Space

A single-player Item Mini-Game begins when you land on this space. Items can bring on huge comebacks, so don't miss this opportunity!

Koopa Bank

Each time you pass this space, you must deposit 5 Coins. If you land here, you may withdraw all the Coins that have been deposited!

Bowser Space

Bowser appears and causes trouble for whomever lands on this space.

Battle Space

A four-player Battle Mini-Game begins when someone lands on this space.

ITEMS

The Items below can be used during board game play. They are all very useful Items, but you may have only one at a time.

Mushroom Price  x 10

Hit 2 Dice Blocks instead of 1 at the start of your turn.

Golden Mushroom Price  x 20

Plunder Chest Price  x 15

Use the Plunder Chest to steal an Item from an opponent. However, you cannot choose from which opponent to steal.

Boo Bell Available only in Item Mini-Games

Duelling Glove Price  x 15

Choose an opponent to duel in a Duel Mini-Game.

Bowser Suit Available only in Item Mini-Games

Put on the Bowser Suit and steal 20 Coins from each opponent who mistakes you for Bowser. If you meet an opponent who has no Coins, you won't get anything.

Warp Block Price  x 15

Change places with another player on the ADVENTURE BOARD. However, you cannot choose the player with whom you'll trade places.

Bowser Bomb Available only in Item Mini-Games

Baby Bowser transforms into Bowser. Bowser then hits 3 Dice Blocks, moves the total number of spaces shown, and steals ALL Coins from any player he meets. This Item is automatically used at the end of the turn in which the Item is received.

PLAYING MINI-GAMES

A Mini-Game begins at the end of each turn once all players have finished moving. The type of Mini-Game played depends on the colors of the spaces on which the players have stopped. Before a Mini-Game begins, Green Spaces randomly change to either Red or Blue Spaces.

MINI-GAME EXPLANATION SCREEN

Use the Explanation Screen to view the Mini-Game's rules and controls. You can also practice the Mini-Game. Press the C ► Button to view controls and hints. To practice the Mini-Game, press the R Button.

4-Player Mini-Games

(All players are on same-colored spaces.)

These are free-for-all matches in which the last player standing wins.

1 VS. 3 Mini-Games

(One player is on a different-colored space.)

In these 1-against-3 matches, the one player must defeat the other three.

2 VS. 2 Mini-Games

(Two players are on same-colored spaces.)

Divide into teams of two for Mini-Games that require team cooperation.

RESULTS SCREEN

Coins are rewarded based on the results of the Mini-Game. The winning player or team players will receive 10 Coins each. Coins collected during Mini-Game play are also awarded.

THE LAST 5 TURNS

When you reach the last five turns of a game, Toad appears and announces the current standings. When the next turn begins, the following rules go into effect:

- 1 Blue and Red Spaces are worth double! Gain or lose 6 Coins.
- 2 When two players land on the same space, they will set the number of Coins to risk and battle it out in a Duel Mini-Game!

DETERMINING THE SUPER STAR!

FINAL RESULTS ANNOUNCEMENT

After the set number of turns has ended, the game is over. If the Bonus setting was chosen, the winners of the three awards are announced, and each winner receives a Star. (See chapter "Setting Board Game Rules") In the end, the player with the most Stars is the Super Star. If more than one player has the same number of both Stars and Coins, players must hit a Dice Block to determine the winner. The highest number wins!

COIN COLLECTION

Once a game has ended, all Coins collected during the game will be deposited in the Coin Box. Also, for each Star earned, 50 Coins will be deposited into the Coin Box.

THE PAUSE MENU

You can adjust the following settings on the Pause Menu:

THE ADVENTURE BOARDS

PIRATE LAND

Become pirates and scour the tropical island for hidden plunder! Beware the pirate ship's cannons which fire when you land on a ? Space!

WESTERN LAND

Become deputies in a pioneer town of the Old West and help keep the peace. Get Steamer, the steam engine that circles the map, to knock your opponents off their spaces and send them back to START.

SPACE LAND

Each time a player passes through the center of this ADVENTURE BOARD, the Bowser Coin Beam counts down. If you are hit by the Bowser Coin Beam, you lose all your Coins. Beware!

MYSTERY LAND

The map is divided by the four ancient relics, and each time you land on a ? Space, you are warped to a different area. Cast the Slow Curse on rivals to limit their Dice Block to the numbers 1 through 3.

HORROR LAND

When two turns pass, day turns to night or night turns to day. The time of day will also change when you land on a ? Space. The Whomps blocking the paths cannot move at night so choose your path carefully.
