**STORY**

Snake Rattle N Roll takes you into the fun filled world of two of the hippest snakes around — Rattle and Roll! You must work your way through 11 levels of wacky landscapes and wild enemies. In each level you need to consume enough Nibbley Pibbleys to activate the scale that will open the door to the next area. Good Luck!

**CONTROLLER OPERATION**

For the 1 player game use controller 1. For the 2 player game use controllers 1 and 2.

HOW TO PLAY

The object of each stage is to eat as many Nibbley Pibbleys (the colorful spherical beings in this world) as you can and make it to the exit. Move your snake using the ◄ Control Pad and eat the Nibbley Pibbleys by hitting them with your tongue (the B Button). To progress to the next level, your snake must be a certain length. When you eat a Nibbley Pibbley, your length increases as follows:

<table>
<thead>
<tr>
<th>Color of Nibbley Pibbley consumed</th>
<th>Value</th>
</tr>
</thead>
<tbody>
<tr>
<td>Other Color</td>
<td>1 unit</td>
</tr>
<tr>
<td>Your Color</td>
<td>2 units</td>
</tr>
<tr>
<td>Yellow</td>
<td>3 units</td>
</tr>
</tbody>
</table>

NOTE: FOUR units are required to gain ONE snake segment.

You will find Nibbley Pibbley dispensers here and there. They shoot out Nibbley Pibbleys for your consumption. Look out! Sometimes they shoot out dangerous bombs!

If your snake is hit by an enemy (any moving objects besides the Nibbley Pibbleys), you'll snake will lose one segment. If your snake runs out of segments, you lose one snake.

Most of the enemies that you encounter can be defeated by multiple tongue hits or by jumping on them (use the A Button for this). If you eliminate an enemy by jumping on them, you will get more points than by using your tongue.

Your snake’s tongue can be made longer by picking up tongue extensions (up to three). This does not affect the strength of the tongue or its power—it only increases the distance that you can shoot your tongue.

EXITING EACH LEVEL

Keep eating the Nibbley Pibileys until your snake’s tail begins to flash. This lets you know that your snake is heavy enough to go to the next level. Somewhere in each level there is an exit that must be opened up before you can go through it. Somewhere else in the level is a scale. If your snake is long enough, jump on the scale. The bell will ring and the door opens—you may exit at any time.

5000 points are awarded to the first snake through the door. When you exit the level, you lose all of your segments and your tongue extensions. A bonus is awarded—1000 points for each segment and extension.

Bonuses will also be awarded for the amount of Nibbley Pibileys eaten throughout the level.
LOSING SNAKES
You start the game with 3 snakes. The number of snakes remaining is displayed at the bottom of the screen. You can increase this number by finding extra lives—flashing snake heads with their mouths closed!

You lose a snake when:
- You are hit by an enemy and have no snake segments left.
- Your snake falls too far (more than 4 vertical blocks).
- The timer at the bottom of the screen reaches zero.
- Your snake lands on a sharp object.
- A falling object squashes your snake.

If you lose all of your snakes, your game is over. If you have any continues left (you start the game with 2 continues), you may press any button to "PLAY ON". In the game it is possible to gain more continues—Look for the open mouthed flashing snake heads.

HOW TO PLAY A 2 PLAYER GAME
On the title screen, press the SELECT Button to choose the 2 PLAYER option. Then press the START Button. Game play is basically the same as in the 1 PLAYER mode, except both players are simultaneously on the screen. Remember, the first one to exit the level gets 5000 bonus points!

The Nibbley Pibbley Family
Here are the members of the Nibbley Pibbley family and the levels in which they begin to appear.

Level 1 — Pibballs
Level 2 — Pibbleboings
Level 3 — Pibblejoggers
Level 4 — Pibblesplats
Level 5 — Pibblebots
Level 6 — Pibblefish
Level 7 — Pibblecopters
**OBJECTS**

Many objects are yours for the taking. Here is a list of things you can pick up.

- **Diamond**
  Makes your snake invincible for a short period of time.

- **Tongue Extension**
  Adds length to your tongue. This makes those pesky Nibbley Pibbleys easier to catch!

- **Speed Up**
  Gives you the ability to move very fast for a while.

- **Extra Life**
  Adds 1 to your "snake reserve."

- **Reverse**
  Temporarily reverses your play control.

- **Clock**
  Adds 25 snake seconds to the timer at the bottom of the screen.

- **Fish Tail**
  In Level 6 you must get the fish tail in order to swim up the waterfall. Be careful not to let it fall on you — it's HEAVY!

**ENEMIES**

Here is a list of some of the enemies that you will encounter while slithering through this strange world.

- **Snakedozer**
  Blue Snakedozer will shove you off the edge of the cliffs if you don't jump over them.

- **Shark**
  On levels 1 and 2, take care not to stay in the water too long or the shark will come after you.

- **Bladez**
  Bladez are hidden in the floor and have a nasty habit of appearing right under you! Remember where the Bladez are because they will always appear in the same place.

- **Big Foot**
  Big Foot conceals an extra life. Be careful though, sometimes a bomb disguised as an extra life will appear and explode upon contact with the ground. Don't be confused, the real extra lives flash.

- **Anvilz**
  Anvilz try to squash your snake. There are three colors of anvil. Each color acts differently.

- **Ice Foot**
  Similar to Big Foot, but tougher. To defeat it, you must maintain a steady stream of hits. Its energy level instantly recharges if you miss one hit!

- **Pin Cushions**
  A poisonous plant that shoots deadly spines. It is wise to destroy them quickly!

Hints and Tips

- For more points, try to defeat enemies by jumping on them instead of using your tongue whenever possible.
- Open every lid using the B Button. You can find many things from extra time to bonus rooms.
- Try finding hidden lids. There could be a hidden warp or two!
- Sometimes you may have to sacrifice a segment of your snake to get up to a high ledge. See if you can find these areas!
- As with all video games, practice makes perfect. There are a few tricky jumps in Snake Rattle N Roll that will probably take a while to master. For example, some jumps may require you to jump down two spaces and to the left one space (in one jump!)
- GOOD LUCK!
