INSPECTOR GADGET, the first bionic policeman, is entirely devoted to his job. When INSPECTOR GADGET is on duty, you can be sure that he will see it through to the end. There is no peace for a villain that INSPECTOR GADGET is stalking. His zeal is unrelenting, his commitment is unswerving. He is an indefatigable civil servant with a single-minded steadfastness to see his job through.

Though motivated by the best of intentions, INSPECTOR GADGET cannot always predict how his gadgets will work. That is part of the fun.

As a testimony to his optimism, he plunges ahead, determined to make the best of whatever gizmo is at hand.

INSPECTOR GADGET’s main characteristic, besides his physical peculiarity is that he is always optimistic and confident about the result of his mission.

As a result, he is rarely aware of the real danger that surrounds him.

He can make a thousand gaffs and never be aware that they are a result of his own ineptitude. INSPECTOR GADGET’s destiny is marked by the letter “G”: Gadgets, Gags and Gaffs!! He is constantly the victim of his own miscalculations and the malfunctions of his gadgets.

The gadgets INSPECTOR GADGET can use are unique and quite numerous: from helicopter blades folded inside his hat, to extendible arms and legs, to his spring loaded head, to tiny little INSPECTOR GADGETs that chase down M.A.D. Agents ... INSPECTOR GADGET has more gadgets than a Swiss army knife!

All of INSPECTOR GADGET’s mechanical virtues are occasionally known to malfunction.
DOCTOR CLAW AND HIS VILLAINS

Doctor CLAW is the mastermind of the supreme agency of crime, M.A.D., an anagram for Mean And Dirty (CLAW’s motto, by the way). Doctor CLAW’s true identity is a mystery. He is seen only in shadow, and known only by his hauntingly treacherous voice and sinister black glove. Doctor CLAW is obsessed with the elimination of INSPECTOR GADGET. Because, despite INSPECTOR GADGET’s eternal booby, he is always foiling CLAW’s evil plots. Working for the infamous Doctor CLAW and M.A.D. is the most infamous team of wrongdoers ever assembled.

In general, the villains are humorously incredible, as opposed to being realistically malicious. They are not murderers. They are kidnappers. Their singular mission is to capture INSPECTOR GADGET and bring him to Dr. CLAW.

YOUR MISSION

Dr. CLAW has captured INSPECTOR GADGET’s niece, Penny. CLAW knows the best way to get INSPECTOR GADGET is to first capture the brains behind him. INSPECTOR GADGET’s mission is to rescue Penny without being captured himself. He must defeat the entire army of M.A.D. agents and then battle the evil Dr. CLAW in a final showdown. It’s winner take all. Do your best.
**How to Start the Game**

Insert the INSPECTOR GADGET game pak into your Super Nintendo Entertainment System. Turn the 'Power' switch 'On'. You will see a short demo and the title screen will appear.

Press Start to bypass Penny’s abduction.

Press Y button to forward text in the mission area.

---

**Gadget face:**
One extra life

**Question Mark:**
Special attack item

**Arrow:**
Offensive weapon

**Lamp:**
Used to see in the dark or throw as weapon

**Suction cup:**
Used to climb walls
HINTS AND TIPS

To defeat the enemies: Arrows and red propellers are best. Also, the little Gadgets are especially effective.

To climb walls with suction cups: Shoot the suction cups against the wall, jump on one and repeat to scale walls.

To use collected items: You must gather many hats in order to use items. Hats can be found hidden in the blocks or secret warp areas.

When you collect more than three of an item, that item will flash when selected. You will have a special power when you use the item.

There are hidden blocks throughout the game. Use them to jump on or break for bonus items. To find hidden blocks, hold the control pad DOWN. Gadget will look through his magnifying glass for clues. Any hidden blocks will faintly flicker.

GAME PLAN

You will start the game with 3 lives. Extra lives are obtained by finding the Gadget faces hidden in the blocks.

The screen shows lives remaining, hats collected, item selected, power of item selected, and time remaining.
