# **INTRODUCTION: A WORLD OF SOCCER**

From the slums of Sao Paulo to the suburbs of Stuttgart you see them, groups of children playing soccer, a pile of discarded clothes for goal posts, a tin can or tennis ball in place of stitched leather. At this level at least, the game is universal. It doesn't require expensive equipment to fall in love with Association Football, just the desire to play. Make no mistake, its from this youthful melee of flying feet and flailing arms that the next Pele or Maradona, Charlton, or Cruyff will emerge.

Almost every nation on Earth now competes at international level, and soccer is far and away the planet's most played and watched sport. This wasn't the case back in 1904 when the Fédération Internationale de Football Association (FIFA) was formed. The seven founder members were all European: Belgium, Denmark, France, Holland, Spain, Sweden, and Switzerland. It took another two years for the British to get wise and join the Association, although the first President of FIFA, D.B. Woolfall, was British.

Reflecting the diversity of teams and the worldwide interest in Association Football, FIFA Soccer 96 contains accurate team line-ups and player attributes for over 60 FIFA world teams. Cameroon burst onto the world stage with exciting performances at Italia '90, and *FIFA Soccer 96* reflects the emergence of African teams as powerful footballing nations. Pitch the skills of Cameroon against any of the more renowned footballing nations, such as Holland, Germany and Brazil. They are all here, in the soccer sim that brings the game stunningly to life, as only an EA SPORTS™ game can.

## SETTING UP MULTI-PLAYER GAMES

Up to five friends can join in a game of EA SPORTS *FIFA Soccer 96*. You need the Multi-Player Adapter and a controller for each player.

- Plug a controller into Controller Socket 1 and plug the Multi-Player Adapter into Controller Socket 2 on the front of your Super NES.
- Push the small black switch on the front of the Multi-Player Adapter marked **Select 2P** ←→ **3-5P** left to the 3-5P position.
- Player 1 uses the controller plugged into Controller Socket 1. Players 2 through 5 use the controllers plugged into the Multi-Player Adapter.

**Caution:** The Multi-Player Adapter is not designed for use with the Super NES Super Scope or the Super NES mouse.

## TEAMS

The national teams in EA SPORTS FIFA Soccer 96 are: Algeria, Argentina, Australia, Austria, Belgium, Bolivia, Brazil, Bulgaria, Cameroon, Canada, Chile, China, Colombia, Costa Rica, Croatia, Czech Rep., Denmark, Egypt, England, Finland, France, Germany, Ghana, Greece, Hong Kong, Hungary, Iceland, Israel, Italy, Ivory Coast, Japan, Luxembourg, Mexico, Morocco, N. - To select your team, Control  $\downarrow$  to highlight the team.
- To scroll through the list of teams, Control Pad  $\leftrightarrow$ .
- To select the team for the other side, press **A**.
- When finished, press **B** to go to Controller Set-up.

## PLAYER SELECT

From the Player Select screen, decide who controls which team and whether a team will be controlled by one player or by multiple players.

## CONTROLLER SETUP

Controller #1 always defaults to Team 1 on the Control Setup screen, represented by the controller icon under Team 1. If there are two or more controllers plugged into the Super NES, a controller icon appears in the center of the screen for each controller. The icon for controller 2 is at the top of the stack, and the icon for controller 5 is at the bottom.

- Press each Control Pad  $\leftrightarrow$  to move its controller icon beneath a team. If a controller icon remains in the center of the screen, it is inactive at the start of the game. If no controller icons are assigned to the teams, the computer controls both teams during the game. However, a controller can be reassigned to a different team or to a neutral position during a game.

- Once all the controllers have been assigned to a team (or left in a neutral position), press **START** to go to the Pregame Options screen.

## BEGINNING A GAME

Press **START** to begin the game after you finished changing any options.

## PREGAME SCREEN

The Pregame screen appears before a game begins. From this screen, you can select your team's coverage, strategy, formation, starting line, and other options.

- To configure your team, Control Pad  to move the yellow highlight through the list of options; when the option you want is highlighted, press **B**.
- To go straight to the field and play with default settings, press **START**.

## CONTROLLERS

Using this option, you can change the Control Setup and Control Method you chose earlier. (See *Control Setup* on p. 10.) You can also change which team you control during a game.

## TEAM COVERAGE

Use this option to adjust the range of your players' field coverage.

- Control Pad  to highlight Defense, Midfield, or Attack.

- Control Pad  $\leftrightarrow$  to adjust the length of the arrow on the field. The Midfield arrow can be extended in either direction, toward defense and attack.

The further your defenders push up field, the more likely you are to find yourself under-manned on defense when the opposition counter-attacks.

If you leave the midfield players grouped in the center of the field, it's hard for them to link with defenders and attacking players. If you spread them too thin, they're likely to be overrun.

The area of field covered by your forward players depends to a large extent on the chosen strategy. (See *Team Strategy* on p. 12.) If you're playing LONG BALL it's all right to leave them camped well inside the opposition half, but choose DEFEND and they need to drop back.

- When you've adjusted Team Coverage, press **START** to return to the Pregame screen.

## TEAM STRATEGY

Use this option to select a strategy for your team.

- Control Pad  $\updownarrow$   $\leftrightarrow$  to scroll through the available strategies. Diagrams on the field change to illustrate each strategy.

**NONE:** The computer automatically selects a strategy for you; and changes it when appropriate.

**LONG BALL:** From defense the ball is punted upfield, with midfield and attacking players racing up to meet it. Often referred to as Route 1, this strategy is simple, direct, and works best when you have tall center-forwards who are good headers of the ball. Soccer purists, however, would say that it lacks the finesse of skillful passing play.

**ALL OUT DEFEND:** Players are kept behind the ball in an attempt to fend off the opposition by sheer weight of numbers. Choose this if you expect a real hammering from the opposition forwards, or in the dying moments of a match when you're defending a narrow lead.

**ATTACK:** An open strategy designed to maximize shots on goal, with defenders pushing up and midfield players supporting the front men.

**DEFEND:** A tight strategy that keeps midfielders in and around your own half of the field to form an extra defensive barrier.

**ALL OUT ATTACK:** Everyone pushes forward into the opposition half, giving little thought to preventing goals. Use when time is running out and defeat would otherwise be inevitable.

- To choose a strategy, highlight the strategy of your choice and press **START**. You return to the Pregame screen.

## **TEAM FORMATION**

Use this option to adjust the positioning of your players on the field. The yellow **X**'s on the field mark player positions. Note that different teams have different default formations.

- Control Pad  to scroll through the available formations. Diagrams on the field illustrate each formation.

**3-5-2:** The well-manned midfield controls the ball before the 3-man defense is threatened, feeding it to the forwards.

**4-4-2:** A well-balanced, although conventional formation, solid in both defense and midfield, but requiring a good understanding between the two center-forwards if goals are to result.

**Sweeper:** An extra man at the back plays in a freer defensive role. He's the last line of defense when the men in front have been beaten, but he can also push up into midfield and sweep the ball forward.

**4-2-4:** Although weakened in midfield, the four forwards are expected to overwhelm any unwary opposition defense. Especially effective in conjunction with Attack strategies.

**4-3-3:** Another well-balanced formation, this adds to the attacking options of 4-4-2, although there is a subsequent weakening of the midfield.

- To choose a formation, highlight the formation of your choice and press **START**. The Pregame screen or Pause screen reappears.

## STARTING LINE

Use this Option to adjust your lineup. Players' positions are designated on this screen by single letters: F=Forward, G=Goalie, D=Defenseman, M=Midfielder. Note that a goalie can be replaced only by another goalie.

1. Control Pad to move the highlight through the squad list. When the name of the player you want to pull from the game is highlighted, press **A** to select him.
2. Control Pad to highlight the player you want to send into the game as a substitute. Control Pad to check his Skill Ratings. (See Skill Ratings on p. 21 for more info.) When you have chosen a substitute, press **A**. A SWAPPED message confirms that the substitution is made.
  - To Cancel a Substitution and choose another player, press **B**.
  - To leave the Substitution screen, press **START**.

**EA TIP** If a player has been sent off the field for a flagrant foul, use the Substitutions option to reposition the remaining players to try to plug the gap left by his exit.

## OPTIONS

Use this option to change the Game option you selected earlier. (See the *Game Options* section on p. 8 for option descriptions.)

## ON THE FIELD

When you're satisfied with your team configuration, press **START**.

### *The Kick Off*

- To kick off and get the game underway, or to restart following a goal and after half time, press **A** or **B**. Control Pad any direction to direct the pass.

**TIP** Defending players are not allowed into the center circle until the ball has been kicked off.

## CONTROLLING THE PLAYERS

Players control the player on the field who is marked by a colored circle:

### Player Number

Player 1

Player 2

Player 3

Player 4

Player 5

### Player Color

Yellow

Red

Blue

Purple

Black

When the controlled player is not on-screen, an arrow appears and points in his direction. To bring him back on-screen, Control Pad in the direction opposite of the arrow.

- To switch between players, press **B**. The circle moves to a teammate nearest to the ball.
- To direct the movements of a highlighted player, Control Pad in the direction you want the player to go.

See *Control Summary* on p. 2 for more information about Controlling Players.

## POWER CIRCLE

Power circle

Being able to control how much power is used when moving the ball is important. For instance, the more force that's used on a shot on the net, the less accurate the shot will be. To see how much power is used for lobs, shots, kicks, throw ins, or corner kicks, check the Power Circle. The goalie can also refer to the Power Circle to decide how hard to kick in the ball.

The Power Circle appears when a controlled player kicks or throws the ball. The Power Circle does not appear for a computer-controlled player.

- To build up power when one of your players is in possession of the ball, press and hold **A**. The Power Circle will build up from the center of the circle surrounding your player. When the circle is completely full, the player is ready to deliver the most powerful kick.

## LEAGUE GAMES

- To start your own league, choose LEAGUES from the Game Setup screen.

A League is a group of up to eight teams selected from the member teams of a specific league. Teams in a League play each other twice to determine the League championship. The championship is decided on the basis of points awarded. Wins count as two points and ties count as one. No points are awarded for losses. The team with the most points at the end wins the championship.

## Select League Teams:

1. On the Team Selection Screen, Control Pad  $\leftrightarrow$  to scroll through the list of international leagues. Each league is represented by its own flag in the shape of the country.
  - When the league you want appears, press **B**.
2. To scroll through the teams, Control Pad  $\leftrightarrow$  .
  - The scouting report for each team is shown on the left side of the screen.
  - When the team you want appears, press **A** to add the team to your League.
  - To delete a team, press **B**.
  - To add more teams, keep on pressing **A**.
3. When you have chosen all the teams you want, press **START** to go to the League Standings screen. (See *League Standings* below.) Press **START** again to go to the Player Select screen.
4. From the Player Select screen, press **START** to go to the Pregame screen.

The teams you select for your league are numbered from 1 up to 8. If you pick fewer than eight teams, the remaining league slots are filled with teams chosen at random. These teams are not numbered. You play only numbered teams' games.

## LEAGUE STANDINGS

The League Standings screen appears before the first League game and between matches. It shows the teams' current won-lost-tied record and total points. The yellow highlight indicates the next two teams to face each other.

## TOURNAMENT MATCHES

### *World Tournament*

The World tournament begins with twenty-four teams equally divided into six regions. Each team plays every other team in their region once. The two top teams from each region advance on to the playoffs.

### *Domestic Tournament*

The teams you select for your domestic tournament are numbered from 1 up to 8. If you pick fewer than eight teams, the remaining league slots are filled with teams chosen at random. These teams are not numbered. You play only numbered teams' games.

## TOURNAMENT TEAM SELECTION

Tournament and team selections are made in the same manner as League and team selections. (See *Select League Teams* on p. 17)

**Note:** All the games for all the teams you select must be played to completion.

- When you have chosen all the teams you want, press **START** to go to the Tournament Standings screen. Press **START** again to go to the Player Select screen.
- From the Player Select screen, press **START** to go to the Pregame screen.

## PLAYOFFS

Playoffs are the elimination stage of a tournament. One loss eliminates a team. In Tournament mode, they come at the end of a Tournament; but in Playoff mode, you skip the Tournament stage and go straight to the Playoffs.

## ***Playoff Team Selection***

Playoff and team selections are made in the same manner as League and team selections. (See *Select League Teams* on p. 17)

## **PLAYOFF TREE**

After you have chosen your Playoff team(s), or after you have played through a Tournament to the Playoffs, the Playoff Tree appears. Playoffs are arranged in four rounds; teams that win in one round advance to the next. Your teams are placed randomly in the first playoff round. If you are playing Playoff mode only, your teams are numbered from 1 - 8; if you are playing Playoffs at the conclusion of a Tournament, they are numbered as they were in the Tournament.

- To see the entire Playoff Tree, Control Pad  $\leftrightarrow$ . The two teams involved in the first game are highlighted.
- To leave the Playoff Tree and go to the Player Select Screen, press **START**.

## PRACTICE

Practice different moves with a varying level of opposition. The scenarios available are: Corner Kick, Penalty Kick, Goal Kick, Throw-In, Passing, and Shoot-out.

### ***Level of Opposition***

- To highlight Level, Control Pad  $\updownarrow$ .
- To adjust Level, Control Pad  $\leftarrow \rightarrow$ . The choices are MINIMAL, AVERAGE, and FULL.

### ***Practice Scenario***

To choose a practice scenario, Control Pad  $\updownarrow$ . When you have selected your practice scenario, press **B** to go to the Team Select Screen.

## RESTORE

Once you have completed and saved at least one game, the option to continue will automatically appear in the Game Setup menu.

## SAVE

After completing a League, Playoff, or Tournament game, the Save Game option will appear on the Select screen.

- To save your game, highlight the Save Game option, and press **Y**.

# SKILL RATINGS

## TEAM SKILL RATINGS

Team skill ratings appear on the team selection screen, and each skill level is represented by a gold bar. The longer the gold bar for a given category, the higher the team's skill rating in that aspect of their play. The six skills rated are Shooting, Running, Passing, Tackling, Goaltending, and Attacking. There is also a final Overall rating.

## PLAYER SKILL RATINGS

- You can also return to the field by pressing **START**.

## INSTANT REPLAY

Instant Replay replays (instantly) the past 10 seconds of the game in a variety of speeds and modes-forward or backward. When you select INSTANT REPLAY, a controller icon appears on screen. As shown on this icon, the controller buttons control replay functions as follows:

## **SCORING SUMMARY**

The Scoring Summary screen lists the players who scored, the team they scored for, and the time the goal was made.

**Note:** If more than ten goals are scored in a game, only the last ten scores will be listed.

## **FOUL SUMMARY**

The Foul Summary screen lists all players whose misbehavior has earned either a red or yellow card, along with their team and the time their offense occurred.

## QUIT

Ends the current game.

## BALL OUT OF PLAY

The ball is out of play when it entirely passes over the touchline or goal line. The referee will whistle to signal it. There are three ways a ball out of play can be put back in play :

**GOAL KICKS:** If an attacking player shoots wide of the goal and none of the defenders touch the ball on its way over the goal line, the ball is automatically placed at the corner of the goalie's box (which side depends on where the ball went out), and the goalie must kick the ball upfield.

- To make the goalie kick the ball upfield without aiming it, press **A** or **B**.
- To aim a kick, press **Y** to call up the target box. Control Pad any direction to place the target box where you want the ball to go. Then press **A** or **B** to kick it.

**Note:** From a Goal Kick, the ball must at least reach the edge of the penalty area. No other players are allowed into the penalty area until the ball has been cleared.

**CORNER KICKS:** A corner kick takes place if the last player judged to have touched the ball on its way over the goal line was a defender or the goalie. A Corner Kick is taken from within the quarter circle marked around the corner flag (which side depends on where the ball went out). The player taking the kick is chosen automatically.

- Control Pad any direction to place the red target box where you want the ball to go, then press **A** or **B** to kick the ball into the penalty area.

**THROW-INS:** Taken from the touchline where the ball went out of play, a throw in is awarded when an opposition player kicks the ball into touch. The player taking the throw is chosen automatically.

- To move the Target Box to the area of the field where you want to throw the ball, Control Pad any direction, then press **A** or **B** to throw it.

**KEEPER'S BALL:** When an attack breaks down and the ball is safely in the goalie's hands, it's a Keeper's Ball. Even when goalies are computer-controlled, the player who controls the goalie's team automatically takes control of the goalie and has to get the ball back into play, either by kicking or throwing the ball upfield. Depending on the proximity of the other players, the goalie will either kick or throw the ball.

- To throw or kick, press **B**. Control Pad any direction to direct a throw or kick to a nearby defender.
- To throw or kick using the target box: Press **Y** to call up the target box. Control Pad any direction to move the target box where you want the ball to hit, and then press **B**.

## **INFRINGEMENTS**

### **OFFSIDES**

The Offsides rule is designed to prevent attacking players from "goal hanging" in the hope of getting the ball while the defenders are upfield. It states that there must be defending players between an attacker and the goal when the ball is played to the attacker in the opposition half. This only applies when the attacking player is in a position to interfere with play. A player can't be immediately Offside in his own half of the field, from a Throw-In or a Corner Kick.

When a player is caught Offside the referee signals a free kick, and the Offside icon appears along with the offending player's name. A free kick is then awarded, taken from where the player was caught Offside.

With this option OFF the game is more free-flowing, with fewer free kicks and more scoring opportunities.

**Note:** When the Offsides option is on, the ref awards a free kick for all Offsides, even if the Fouls option is off.

### **FREE KICKS**

Free kicks are awarded for fouls and technical infringements. These include violent or late tackles, shoving a player off the ball and Offsides. (See *Offsides* on p. 25.)

When you win a free kick, the ball is placed where the infringement took place, so there's no chance of gaining a few yards by creeping forward with the ball. A player is automatically designated to take the kick. The human-controlled player closest to the infraction when the whistle is blown takes the free kick.

- Control Pad in the direction you want the kick to travel. Press **B** for a short free kick to a nearby player or **Y** for a lob pass. If you're in range, press **A** for a shot on goal directly from the free kick.

**Note:** Opposition players must remain 10 yards from the ball until the kick is taken.

## **PENALTIES**

A Penalty is awarded when an offense worthy of a free kick occurs in the penalty area. So a foul by the defender within his own penalty area results in a penalty kick.

### ***Saving a Penalty***

The ball is placed on the penalty spot automatically. Only your keeper and the opposition penalty taker are allowed into the penalty area. Outfield players cannot enter until the ball has been kicked. Even with computer goalies, you have to attempt a save.

- To dive as the ball is struck, Control Pad  $\leftrightarrow$  and press **B**.

### ***Taking a Penalty***

- The computer automatically nominates a penalty taker, who stands in the penalty area ready for the kick. Press **B** to change players.
- To shoot, press **A**. Use the Control Pad to direct the ball in the air

When more than one player per team is human-controlled, the player who was fouled gets to take the penalty kick.

### ***Bookings***

If the referee considers a foul to be particularly vicious, he is likely to show the guilty player the yellow card. Play stops while the ref takes the player's name.

Repeat offenders generally receive the red card. Play then stops and the offending player is ejected from the game. An ejected player can't be replaced by a sub; so after a team's first ejection, when play resumes it will have only ten men on the field. (It is possible to play with as few as seven men on the field.)

## **SCORING**

To score in *FIFA Soccer 96*, put the ball in the net to break the invisible vertical plane linking the posts, the bar, and the goal line. While the ball does not have to hit the back of the net to score a goal, the whole of the ball must cross the goal line. After the celebration over a goal dies down, the ball is returned to the center circle for a kickoff

### ***Half Time***

When the referee signals the end of the first half, both teams leave the field and the Half Time Report appears. It provides pertinent information about the first half of the ongoing match: Score, Shots On Goal, and Saves.

- To return to the Game Options screen, press **START**.

## **END OF GAME/FINAL REPORT**

When the final whistle blows, the Final Report screen appears. It contains the same information as the Half Time Report-Score, Shots on Goal, and Saves.
