OVERVIEW

Congratulations! You now own the classic arcade game, Frogger. The goal of the game is simple, to safely maneuver 5 frogs across five lanes of busy traffic, a fast moving river, three lanes of treacherous logs,

two lanes of swimming turtles, while avoiding snakes, alligators and crocodiles. Sounds easy? You'll need lots of skill, and a bit of luck, as you hop to victory, while trying not to become a highway statistic by leaving your "mark" on the roadway!

Good Luck!

A screenshot from the video game 'Road Runner'. The scene is a desert landscape with a multi-lane road. In the foreground, there are several vehicles: a yellow school bus, a red car, a green car, a yellow truck, and a red car. The background features a large blue sky with a grid of yellow and red patterns, and a rocky horizon. The text 'LEVEL 1' is visible at the bottom center.

THE GAME SCREEN

Score: The current score.

Frogs Remaining: This shows how many frogs the player has in reserve. When there are no more frogs displayed, the player is controlling their last frog.

Timer Bar: This indicates how much time the current player has to successfully maneuver their frog into an open bay. A warning sound will be heard when less than 8 seconds remains. If time runs out, the player will lose their current frog.

HOW TO PLAY

Each player starts with 5 frogs. To maneuver the frog from its starting position to the safety of an open bay, use the Control Pad as follows:

Pressing Up hops the frog up the screen one lane.

Pressing Down hops the frog down one lane.

Pressing Left hops the frog to the left.

Pressing Right hops the frog to the right.

Avoid collision with all automobile traffic by hopping quickly between the moving cars and trucks. Once across the road, hop onto the logs, turtles, and crocodiles to safely maneuver into an open bay at the top of the screen. Once you have successfully placed the current frog safely into an open bay, the remaining time on the Timer Bar will be added to your score. Then you will begin again with a new frog at the bottom of the screen and a full Timer Bar.

If at any time during play the current frog is hit by traffic, or falls into the water, the player will lose that frog and will need to begin at the bottom of the screen again with a new frog. If there are no more frogs remaining, the game is over.

Press the Start Button at any time during play to pause the game. Pressing the Start Button once again takes the game out of pause and resumes play.

Eat a fly:	200	points
