The HOME ALONE™ Story

Harry and Marv, the bumbling "Wet Bandits," have paid their debt to society and are now ready to get revenge on the youngster that caused them their humiliating defeat — Kevin McCallister. They have arranged for Kevin's family to be out of the house when they come calling again, leaving him home alone for their rematch. This time, the sneaky thieves have beefed up their gang with robbers and crooks that are more than eager to help themselves to the McCallister valuables. Only the resourceful Kevin stands between the new Wet Bandit gang and his family's fortune!

Controlling Kevin

Control Pad Functions:

Left and Right-- Makes Kevin run in those directions.

Up-- Opens the following items when Kevin is in contact with them: doors, chests of drawers, boxes, cabinets, etc. Use this to uncover hidden valuables. It may be necessary to jump while pressing **Up** to locate hidden objects.

Down-- Makes Kevin duck down or set down if bouncing on a couch or bed.

A Button-- Use to make Kevin jump. Also use to move quickly past the text screens.

B Button-- To fire weapon.

Y Button-- To choose weapons.

Start Button-- To start game/ To pause game. Also moves you quickly past the text screens.

The Play of the Game

Kevin's objective is to collect his family's valuables, thereby thwarting the Wet Bandit Gang. To do so, he runs throughout the various rooms and halls searching for the items. The gigantic house is divided into four wings, each with two floors and its own set of treasures and traps.

THE STATUS ITEMS — Four illustrations are shown at the top of the screen. From left to right they are:

Pizza: Displays the number of pizza slices that have been collected. Every completed pizza gives Kevin an extra life.

Weapon: Displays the weapon Kevin is armed with and the number of available shots.

Items Needed (Vault): This is the minimum number of valuables that Kevin must collect to complete the level. Once this number reaches "0", the player may proceed to the basement section to secure the valuables within the vault. This is indicated by a key appearing in front of the locked basement door. If you collect more than the minimum number of items, you will earn bonus points!

Items Collected (Backpack): Displays the number of valuables Kevin is currently carrying. This number flashes when it reaches the maximum level. Kevin cannot add to this number until he deposits the collected amount down a laundry chute to a pile in the basement. Position Kevin in front of the chute and press Up. Laundry chutes are located in the hallways throughout the house.

OTHER INFORMATION — Located to the left of the Status Items are the score, the number of lives, and how many hits Kevin has taken. After taking three hits worth of damage, one life is lost. When all lives are lost, the game is over.

The McCallister Home

Each wing within Kevin's house has a different set of valuables. Some items can be found in the open, but the majority have been stashed inside desks, cabinets and other objects. Experiment by opening all drawers and by jumping in front of and on top of furniture, appliances and objects attached to or hanging on the walls.

Each time Kevin completes a level, he must face his nightmares in the basement. As with the above levels, the monsters in the basement are different for each encounter.

Power-Ups

The following items are found throughout the household and offer special bonuses to the player:

Slice of Pizza: Collect eight pieces for an extra life.

Cookie: Regain one hit.

Pizza Box: Gain one extra life.

After-Shave: Temporary invulnerability to all enemies!

WEAPONS

The following items are listed from weakest to strongest attack potential:

Water Pistol: Has unlimited shots and fires quickly.

Slingshot: 10 shots for each slingshot collected.

Baseball: One throw per ball. Makes Harry double over with one shot.

BB Rifle: 15 shots per rifle. It takes more shots to stop Harry, but he'll be doubled over for a longer period of time.

Special Note: If a projectile bounces off a burglar, Kevin can recapture it for his inventory. That means he won't lose that shot!

Enemy Characters

There are three basic burglars encountered throughout the game. Each react differently to Kevin's presence:

The "**Light-Fingered**" **Mobsters** don't chase after Kevin, but will run off with any uncovered valuables (*if Kevin doesn't get it first*). They wear black suits.

Marv will chase after Kevin and make off with valuables.

Harry will only come after Kevin and ignore valuables.

And be on the lookout for some other particularly tricky goons that have hooked up with this crew!

Experiment with the weapons to see how many shots are required to vanquish each enemy.

Special Note: a useful strategy is to shoot until the crook doubles over, then for a short time it will be safe to jump over him if he's not too big to hurdle!

Tricks, Traps and Puzzles

A variety of booby traps have been set in every part of the McCallister house. Kevin has the option to lure the criminals into the devices, temporarily eliminating them from a particular location. Some of the traps include:

Banana Peel- Knock it off the shelf and entice a crook toward you so he slips and falls off the screen.

Falling Objects- These can be timed to fall on the unsuspecting goons. Items include paint cans and irons.

Floor Obstacles- Toy cars and scattered thumbtacks make imposing barriers for the bad guys.

Kevin cannot be hurt by the traps that he activates, but the Floor Obstacles will harm him. Some traps have a puzzle-like quality to them that require the player to solve.

Special Note: Use the enemy character's pattern of movement to determine the best way to ensnare him.

The Final Confrontation

Once the house has been cleared of the marauding bandits, Kevin must enter the basement for a final time. Waiting below will be the last nightmare Kevin has to face! If Kevin is successful in overcoming his worst fears, he will be reunited with his parents and family!
