And see it all right on your television screen in *Zombies Ate My Neighbors*!

There are monsters, werewolves, slimy blobs and a bushel of other hideous creatures out to capture innocent people. They're attacking your neighbors, your neighbors' kids, their dog, and any other human they can find. It is up to you to use any means possible to save the victims before the bad guys get them.

You'll start with just a squirt gun and a first aid kit, but there are lots of weapons lying around that can help you win this battle. You'll find bazookas, "weed-eaters," Martian bubble guns, and the dreaded, powerful, blob-destroying ice pops!

But wait, there's more! There are secret potions that can transmogrify you! Become a super beast and give the zombies a taste of their own medicine. Find the mystical Pandora's Box that releases smart-bomb energy blasts. Take inflatable clowns to use as decoys and collect keys to open doors to discover more valuable items.

How to save the world

You will play the game as one of two brave kids: Zeke or Julie. If you're playing the two player game, one player can pick each kid, but you can't have two Zekes or two Julies! If you don't like the names Zeke and Julie, you can call them by other names: Nick and Beth, Spike and Sarah, Pat and Pat, whatever. We won't tell you what to do, but *we* know their names are really Zeke and Julie.

There are ten victims at the start of the game. You must rescue them before the monsters destroy them. Once all the victims are gone (either rescued by you or caught by the monsters), an "exit" door appears to let you leave that level—unless the monsters got them all, then the game is over. You can then leave the level right away or continue to search for treasures and weapons.
Getting started

Follow these directions to play **Zombies**:

1. With the Power switch off, place the game pak into your Super NES.
2. Make sure your television is turned on.
3. Press the Start button. Did anything happen?
4. Turn on the Power switch on the Super NES and repeat step 3. See, it's a challenge and we haven't even begun playing the game yet!
5. When you get to the **Zombies...** title screen press the Start button to highlight either START or PASSWORD.
6. You've done it!

---

When you exit a level, your points are displayed, and bonus points are added for the victims you have saved. Saving all ten victims earns an extra bonus. There are other ways to earn bonus points as well—for example, you get a weed-eating bonus on level 11 if you chop all of the killer weeds.

You will continue to progress through the game as long as you have victims remaining and “lives” for yourself.

**The victims**

You start with ten victims. The body count goes down every time the monsters claim one of the victims. The game will continue only as long as you have at least one victim remaining (and “lives” as described below). You can earn bonus victims by earning points, but you may never have more than ten victims at one time. If you have ten victims at bonus time, you will earn an extra life instead.

**Your lives**

Each player starts with three “lives.” When your “life bar” runs out you lose a life. There are hidden “1-up” bonuses in the game. You may also earn bonus lives if you earn points as mentioned above in **The victims**.
The Password screen

You can use the Password screen to start from a different level. As you play the game you will earn a Password after every fourth level. Highlight the correct letters and press any button to enter them. When you have all four letters entered, press Start or select [end] to continue to the appropriate level.

The game screen

The playing field displays your life bar, points, weapons and special items. If you play with the left controller this information appears in the upper left corner. If you play with the right controller the information appears scattered along the bottom 1/4ths of the screen. Just kidding—it appears in the upper right corner.

Control your destiny!

The control pad is used to walk and aim your weapons. Press it in the direction you want to throw, shoot or walk.

- Press the A button to change your special item.
- Press the X button to use the special item.
- Press the B button to change your weapon.
- Press the Y button to use your readied weapon.
- Press the Start button to pause the game during play. You cannot pause on the scoring screens between levels.
- Press the left or right top buttons to turn the radar screen on and off.
Know your neighbors

These are the nice folks you'll be trying to save throughout the game.

Cheerleaders—worth 1000 points. Try to save all the cheerleaders at the football game for big points!
Baby—worth 700 points, but can turn into big trouble at certain times!
Dog—worth 500 points.
Trampoline girl—worth 300 points.
Tourists—worth 200 points, but be careful around them after dark!
Barbecue guy—this obnoxious neighbor is only worth 5 points, but his BBQ feast is worth 100 points. (Hint: look for extra burgers lying around—they'll boost your energy!)
Inner-tuber—Look for this guy in the water and get 100 points.
Soldier—worth 100 points. Usually has weapons around.
Explorer—worth 500 points.
Evil school teacher—she gives you a bad grade and 10 points. Maybe you're not spending enough time on your homework!
The elusive Son of Dr. Tongue—find him and you'll learn what he's worth.

Weapons

Your readied weapon will be displayed next to the life bar. Press the B button to switch weapons. Below the weapon is a number which shows how many shots/uses of that weapon you have remaining. When you run out of shots or uses, the weapon will be dropped from your inventory.

- Squirt gun—Your starting weapon is good for beating the average ghoul. Refills are easy to find.
- Soda pop cans—These work like hand grenades; they explode on impact and eliminate most low-powered monsters in one shot. Great against Evil Dolls!
- Bazooka—Very powerful! Use it to blow holes through cracked walls and weak spots in hedges. Good against Chainsaw Maniacs.
- Fire extinguisher—Freeze monsters. A long blast for a long freeze or a short blast for a quick freeze. This is one of only two weapons that are effective against the Jelly Blobs (ice pops are the other).
- Weed-eater—Cuts through weeds... and monsters!
- Ancient artifact—This talisman will produce a spinning fire that protects you and destroys the monsters it touches.
• Silverware—An excellent weapon when you come across a werewolf or two!
• Plates—Effective if you have nothing else to use.
• Martian bubble gun—Captures the target in a temporary bubble. Try it on ants!
• Tomatoes—Not as good as plates, but Martians hate them.
• Ice pops—These can destroy the Jelly Blobs when you toss them from a short distance.
• Football—*The great aim of education is not knowledge but action.*—Herbert Spencer
  *The great aim of the thrown football will be caught by one of the guys in the funny looking helmets.*—Zombies manual. That's action!

### Special items

Scroll through these items by pressing the A button. Some items destroy monsters, some give you special powers, and some are unpredictable!

• Keys—You need them to open doors.
• Skeleton keys—Opens the skull doors.
• Monster Potion (red bottle)—Become a purple beast with an attitude and bash through walls, doors and monsters. You are invincible until the potion wears off.
• Ghost Kid Potion (blue bottle)—Turn into a spectre and roam freely. You can't be hurt, but you can't shoot any monsters, either!
• Random Potion (question mark bottle)—There is no way to know what effect the potion will have. It could restore your health, give you a speed boost, cause damage or turn you into the purple beast. There are other effects that you will have to discover on your own, but we'll warn you that if you turn green, you turn mean!
• Speed Shoes—The T.K. (Transylvania Knights) 3000 Cross-training shoes are great for sprinting around the 'hood. The effect is temporary, but cool!
• Decoys—These inflatable punching clowns attract monsters and draw the attention away from you.
• Pandora's box—The golden chest releases energy blasts when used. They seek and destroy those nocturnal terrors chasing you.
• First aid kit—Use it to restore your life bar to full force.
**Dr. Tongue, I presume?**

To win the game, you will have to beat the elusive Dr. Tongue in one final battle. He has created most of these creatures in his laboratory, and once you defeat him, the world will be safe again.

Or will it?

- **Vlad Belmont** the Vampire
- **Zombie**
- **Jelly blob**
- **Mummy**
- **Tommy the Evil Doll**
- **Werewolf**
- **Stanley Decker, the Chainsaw Maniac**
- **The Pod Plant**
- **Gillman of the Blue Lagoon (a.k.a. Brook Shards)**
- **The Mushroom Men**
Sample “Scream” Shots

Level 25—Look Who’s Shopping
Level 3—Terror in Aisle 5
Level 20—Invasion of the Snakeoids
Level 2—Evening of the Undead
Level 34—“I was a Chainsaw Maniac”
Bonus Level—Day of the Tentacle

Hints & Tips

- A weapon may work better on one type of monster than it does on another.
- Find the question marks (?) for bonus levels.
- Have you ever seen frozen jello?
- Why do you see holes in some ceilings? Would you really need air holes if the walls were solid?
- Write down your passwords, you never know when you’ll need to restart from a past level.
- Use those first aid kits wisely!

Notes

We thought long and hard about what to call this game. We threw out some other great titles, and thought we would print some of them here. (We’d love to hear your ideas, too. You never know when a sequel will pop up.)
