WARNINGS Read Before Using Your Sega Dreamcast Video Game System

CAUTION

Anyone who uses the Sega Dreamcast should read the operating manual for the software and console before operating them. A responsible adult should read these manuals together with any minors who will use the Sega Dreamcast before the minor uses it.

HEALTH AND EPILEPSY WARNING

Some small number of people are susceptible to epileptic seizures or loss of consciousness when exposed to certain flashing lights or light patterns that they encounter in everyday life, such as those in certain television images or video games. These seizures or loss of consciousness may occur even if the person has never had an epileptic seizure. If you or anyone in your family has ever had symptoms related to epilepsy when exposed to flashing lights, consult your doctor prior to using Sega Dreamcast. In all cases, parents should monitor the use of video games by their children. If any player experiences dizziness, blurred vision, eye or muscle twitches, loss of consciousness, disorientation, any involuntary movement or convulsion, IMMEDIATELY DISCONTINUE USE AND CONSULT YOUR DOCTOR BEFORE RESUMING PLAY.

To reduce the possibility of such symptoms, the operator must follow these safety precautions at all times when using Sega Dreamcast:

- Sit a minimum of 6.5 feet away from the television screen. This should be as far as the length of the controller cable.
- Do not play if you are tired or have not had much sleep.
- Make sure that the room in which you are playing has all the lights on and is well lit.
- Stop playing video games for at least ten to twenty minutes per hour. This will rest your eyes, neck, arms and fingers so that you can continue comfortably playing the game in the future.

OPERATING PRECAUTIONS

To prevent personal injury, property damage or malfunction:

- Before removing disc, be sure it has stopped spinning.
- The Sega Dreamcast GD-ROM disc is intended for use exclusively on the Sega Dreamcast video game system. Do not use this disc in anything other than a Sega Dreamcast console, especially not in a CD player.
- Do not allow fingerprints or dirt on either side of the disc.
- Avoid bending the disc. Do not touch, smudge or scratch its surface.
- Do not modify or enlarge the center hole of the disc or use a disc that is cracked, modified or repaired with adhesive tape.
- Do not write on or apply anything to either side of the disc.
- Store the disc in its original case and do not expose it to high temperature and humidity.
- Do not leave the disc in direct sunlight or near a radiator or other source of heat.
- Use lens cleaner and a soft dry cloth to clean disc, wiping gently from the center to the edge. Never use chemicals such as benzene and paint thinner to clean disc.

PROJECTION TELEVISION WARNING

Still pictures or images may cause permanent picture tube damage or mark the phosphor of the CRT. Avoid repeated or extended use of video games on large-screen projection televisions.

SEGA DREAMCAST VIDEO GAME USE

This GD-ROM can only be used with the Sega Dreamcast video game system. Do not attempt to play this GD-ROM on any other CD player; doing so may damage the headphones and/or speakers. This game is licensed for home play on the Sega Dreamcast video game system only. Unauthorized copying, reproduction, rental, public performance of this game is a violation of applicable laws. The characters and events portrayed in this game are purely fictional. Any similarity to other persons, living or dead, is purely coincidental.

Weapons N' Stuff . . .20

It's the beginning of the 21st century, and the balance of world power has shifted to the northern Hemisphere. In the countries of the south, faced with an energy crisis and the possibility of starvation, a deep-seated antipathy towards the north developed. Anti-north terrorist incidents became commonplace. In response, the leaders of the northern countries created an international peace keeping force in the name of the "Northern Hemisphere Treaty Alliance" (NTA) as a deterrent against any aggressive military behavior from the south.

On its way back to port from a mission to destroy the home base of the Southern Cross terrorist group, the NTA flagship, the Heimdal, was instructed to pick up an ancient organism discovered on an isolated island in the South Pacific.

The day before the Heimdal arrived at the island, a member of the team that discovered the organism, showed symptoms of paranoia and was shot-resisting detainment. Concerned that the cause may be a new strain of virus, the discovered organism was placed under quarantine in the belly of the Heimdal.

Two days from port, the Heimdal reported that there had been an explosion in the Engine Room. Ever since, the ship remained silent.

Concerned about the Heimdal and its load of ballistic missiles, NTA dispatched an emergency investigative team to check the ship. The first team included anti-terrorism experts - Colonel Aaron Burke and Captain Nicholas Lang from the Special Forces – as well as Doctor William Noble from the International Research Institute. Upon arriving at the ship, this team also was silenced.

A second team made up of Sergeant Jack Ingles, who volunteered himself, and Jessifer Manning, from the Information Department, was dispatched. Had this team known of the horror that they were about to face, maybe they would not have made the journey at all...

Jack Ingles

**Special Forces,
3rd Division**

Rank

Sergeant

Age

26

Nationality

American

Birthplace

Montana

Alma Mater

US Naval Academy,
Annapolis

- ▷ Requested to be dispatched from the NTA International Special Forces for the mission regarding the Heimdal. Before becoming part of the NTA Special Forces, he was in the US Navy reporting to Colonel Burke. Jack's father died when he was young. He looks to Colonel Burke as a father. Jack is hot-blooded with strong sense of justice - typical Naval personality. He has a great deal of experience for his young age and is well respected. He has been through many rescue missions aided by a pilot by the name of Leonard. His brother is on the Heimdal. Concerned, Jack would like to know if he is safe.

The ship's medical doctor. Previously, employed as a General Practitioner. Wanted to pursue a personal quest to help a confused world, so he entered the military.

A man with blonde hair, wearing a headset and a dark uniform with blue accents, is shown from the chest up. He is looking down at a control panel with his hands. The background is a bright yellow light source, possibly a window or a screen, creating a strong glow. The overall style is that of a video game or a digital interface.

You are Jack Ingles, member of an elite investigation team sent to the Heimdal to determine why the ship fell silent to any and all radio communications.

As you begin your investigation of the ship, you will learn what it is that you must do.

- Accesses Menu screen during gameplay

A Button

- Confirm Selection
- Attack while pressing the R trigger

X Button

- Run, when using digital directional pad

During the game, pressing the A, B, X and Y buttons along with the Start button will reset the game and return you to the title screen.

Carrier is a one (1) player game. Never touch the Analog Thumb Pad or Triggers L/R while turning the Sega Dreamcast power ON. Doing so will disrupt the controller initialization procedure and result in malfunction. The controller positioning will not be properly adjusted, and there may be control difficulty.

VMU/VM Control

Jump Pack/Vibration Pack

To return to the title screen at any point during game play, simultaneously press and hold the A, B, X, Y, and Start Buttons. This will cause the Sega Dreamcast to soft-reset the software and display the title screen.

Projectile Weapons

When the R trigger is pressed the character aims the weapon which then can be fired by pressing the A button.

Use a directional button, while the R trigger is being pressed, to aim the weapon.

While pressing the R trigger, a different enemy can be locked on by pressing the L trigger.

Explosives

There are explosives to be found during the game. A bomb can be positioned using the R trigger. Set the bomb using the A button.

Note: To avoid getting caught up in the blast, only one bomb can be set at a time.

Action (Check, Move)

When you press the A button by itself during the game, the character will check whatever is in front of him/her. The A button is also used to open doors and climb up or down ladders.

Quick Turn

If you press the directional button down while pressing the A button, the character will rotate 180 degrees.

In order to save the progress of your investigation, you must use the data recorders scattered throughout the ship.

Step 1

Stand in front of the data recorder and press the A button.

Step 2

The panel will ask you if you would like to save your progress. Select YES to save and follow the instructions on the screen.

Note: When you record over old data - the previous data is erased. If you press the power button or remove the memory card during the save, the data may be damaged.

From the Title Screen.
