Gallop and Gobble!

Pac-Man's on the run! He's galloping through a maze filled with food dots. He gobbles them down fast, because the ghosts are right behind! If they catch him, he's ghostflakes!

But he can munch a Power Pellet and catch them! Catching the ghosts and gobbling all the food earns high points and clears the maze! Then Pac-Man starts right in again on the next maze. And so do the ghosts, even faster and hungrier than before!

Starting Up

1. Set up your Sega Game Gear System as described in its instruction manual. For two player games, use the Gear-to-Gear Cable™ (sold separately) to connect the Game Gear units.
2. Make sure the power switch is **OFF**. Then insert the Pac-Man cartridge into the Game Gear unit.
3. Turn the power switch **ON**. In a few moments, the Pac-Man Title screen appears.

4. If the title screen doesn't appear, turn the power switch **OFF**. Make sure your system is set up correctly and the cartridge is properly inserted. Then turn the power switch **ON** again.

Important: Always make sure the power switch is turned **OFF** before inserting or removing the Pac-Man cartridge.

* **Note:** Pac-Man is for one or two players.

Gear-to-Gear Cable Input

Insert Sega Cartridge

The One-Player Game

1. After successfully reaching the Title screen, Press the **D-Button** left or right to choose your game screen size. The full-size screen will give you a close-up of Pac-Man's location in the maze. The half-size screen will show you the entire maze at once. When you chose half-size, a symbol appears to the right of "1 Player" on the Title screen.

2. For one player, leave the marker at "1 Player." (For two players, read **Starting a Two-Player Game.**)

3. Press the **Start** Button to begin Pac-Mans race around the maze!

4. Press **Start** at any time to pause the game. Press it again to resume play.

5. To end the game at any time, turn off your Game Gear.

Half-Size Screen Symbol

Full-Size Screen

Half-Size Screen

Starting a Two-Player Game

1. Connect two Game Gears with the Gear-to-Gear Cable™ (sold separately).
2. Plug a Pac-Man cartridge into each Game Gear.
3. Turn on your Game Gears. In a few moments, the Pac-Man Title screen appears on both units.
4. With the marker on "1 Player," press the **D-Button** left or right to choose your game screen size. Players can each choose the size they want.

5. Both players press the D-Button down to move the marker to "2 Players."

6. Press the **Start** Button. The Options screen appears, with your position (1 UP or 2 UP) at the top. The player who pressed Start first is the 1 UP player.

7. Press the **D-Button** to choose the rounds (mazes) you'll play. The first number is the maze you'll start at. The second number is the last maze of the game. You'll play four rounds in all. (As the round numbers get higher, the action gets faster. To even up the competition, the more experienced player should start at a higher round.)

8. Press the **D-Button** down to move the marker to "Pac-Man." Then press the **D-Button** left or right to choose the number of extra lives (from one to four) you'll start with. (More experienced players can choose fewer lives for a more evenly matched game.)

9. When both players are ready, press **Start** to begin the gobbling contest!

Race Around the Maze!

Ready, set, run! Press the **D**-Button to move Pac-Man around the maze. He zips along the path, chomping down food dots. But before he knows it, the ghosts slip out of their nest and dash after him. He really has to scoot! If the ghosts catch him, he's ghost lunch!

Quick! Get Pac-Man to a Power Pellet so he can gobble it up. Yum! Now he can gulp down a ghost or two and keep going! Ghosts that get eaten hurry back to the nest, where they revive and return to the chase. (In two-player games, when you gobble a ghost, it pops up on your opponent's screen! Then your opponent has double trouble!

Eat all the food dots and keep chomping ghosts to clear the maze and go on to the next one. See how many mazes you can win! See how big a score you can earn! Each time you play, try to go further and get an even higher score!

The Game Screen

One Player Games

The right side of the game screen has scoring information. Glance at it every so often to see how you're doing.

Your Score: If you have the highest score in this play session, to the left of the score will be displayed the word "TOP". Otherwise, in this location will be displayed the word "1 UP".

Current Maze: The number of the maze you're in now, shown by the number of fruits.

Lives Remaining: On the bottom right of the screen, above the fruit, is a Pac-Man symbol with the number next to it. This represents the number of extra lives remaining for this game. You start a game with three Pac-Man lives. When a ghost catches Pac-Man, he loses one life. He can revive, and keep chomping, as long as he has lives left. If Pac-Man loses all his lives, the game ends.

Two-Player Games

In two-player games, you can also see how the other player is doing. Don't let your opponent catch up!

Your Score: Your score will always be on top, whether you're the 1 UP or 2 UP player.

Opponent's Score:

Check this to see how many points your opponent has.

Opponent's Round: The maze number your opponent is playing.

Opponent's Lives Remaining: How many lives your opponent has left.

A two-player game ends when:

- One player clears four mazes. The player with highest score wins! In a tie game, the player who cleared the four rounds wins.
- One player loses all his or her Pac-Man lives. The other player wins! If both players lose all their lives at the same time, the player with the higher score wins.

Pac-Man's Tricks and Treats

Pac-Man can play plenty of tricks to fool the ghosts and get high scores. Here's how:

Power Pellets: Gobbling a Power Pellet gives Pac-Man the energy to munch ghosts. There are only four Power Pellets in a maze, but any little haunters who get munched can revive and come back!

Run from the ghosts until you're close to a Power Pellet. Move back and forth until more than one ghost is close by (don't wait too long.) Then quickly gulp down the Power Pellet, chase the ghosts, and chomp them all. The more ghosts you eat, the more big scores you earn!

Look and listen to know when you're a chaser and not a "chasee." When you eat a Power Pellet, the game sounds change and the ghosts turn blue. They start flashing when they're about to become dangerous again.

Fruit Treats: These appear twice in each maze, under the ghosts' nest. Gobble them up, if you can, for big bonus points. Fruit Treats appear on the Scoring side of the screen to show what maze you're playing. The number of treats is the same as the number of the maze.

Warp Tunnels: When the ghosts are close behind, escape through a Warp Tunnel. There's one on either side of the maze. You can run faster through the tunnels than the ghosts can, and you pop up on the other side. Just watch out for ghosts who might be waiting to gobble you!

Scoring

The more Pac-Man eats, the more points you'll score!

Food Dots

Worth 10 points each

Power Pellets

Worth 50 points each

Ghosts

Munch more than one ghost after eating a Power Pellet to score high:

First ghost	200 points
Second ghost	400 points
Third ghost	800 points
Fourth ghost	1600 points

Fruit Treats

Scarf up Fruit Treats for big bonus points! Scores increase as the mazes get higher:

Maze 1, Cherry.....100 points

Maze 2, Strawberry....300 points

Maze 3, Orange.....500 points

(and so on)

Extra Life

You gain an extra Pac-Man life at 10,000 points. More lives may be given at even higher scores. Keep playing and find out!

Gobbling Hints

- You can move faster through paths that you've cleared of food dots. And so can the ghosts!
- Everything speeds up as the levels get higher. The ghosts get faster, and Pac-Man's Power Pellet energy wears off sooner.
- Trick the ghosts by leading them away from the food dots. Then scoot back to gobble up the dots and clear the maze.
- The ghosts will try tricks on you, too. Watch them to learn their pranks, then outwit them for big scores.
- When ghosts leave their nest, they always move down first. Stay above them to gain time.

Handling this Cartridge

1. This cartridge is intended exclusively for the Sega Game Gear System.
2. Do not bend, crush, or submerge in liquids.
3. Do not leave in direct sunlight, or near a radiator, or other source of heat.
4. Be sure to take an occasional break during extended play.

Limited Warranty

Namco Hometek, Inc., warrants to the original purchaser that this Namco Hometek, Inc. cartridge shall be free from defects in material and workmanship for a period of ninety (90) days from the date of purchase. If a defect covered by this limited warranty occurs during this 90-day limited warranty period, Namco Hometek, Inc. will repair or replace the defective cartridge or component part, at its option, free of charge.

This limited warranty does not apply if the defects have been caused by negligence, accident, unreasonable use, modification, tampering, or any other causes not related to defective materials or workmanship.

Limitations on Warranty

Any applicable implied warranties, including warranties of merchantability and fitness for a particular purpose, are hereby limited to ninety (90) days from the date of purchase and are subject to the conditions set forth herein. In no event shall Namco Hometek, Inc., be liable for consequential or incidental damages resulting from possession or use of this product.

The provisions of this limited warranty are valid in the United States only. Some states do not allow limitations on how long an implied limited warranty lasts, or exclusion of consequential or incidental damages, so the above limitation or exclusion may not apply to you. This limited warranty provides you with specific legal rights. You may have other rights which vary from state to state.
