HOW TO PLAY

OBJECT

Move your marble to the Goal Line on six raceways (levels 1 through 6) without running out of time.

MOVING THROUGH THE MAZE

On each raceway, you must try to move your marble through a 3-D maze toward the Goal Line. At first, you'll have to search for the Goal Lines. Once you know where they are, you'll be able to get there faster!

LOSING YOUR MARBLE

Your marble will disappear whenever it falls off the raceway or gets captured by certain enemies. When you lose a marble, you must wait for it to reappear before you can continue. You have an unlimited number of marbles—but losing marbles slows you down!

TURBOCHARGING

Press BUTTON 1 at any time to give your marble an extra burst of speed. Turbocharging can shave seconds off your time. It can also help you escape enemies and traps!

ENEMIES AND TRAPS

Deadly enemies and traps await you on every raceway! Be careful, or you'll lose your marble!

SHORTCUTS

Be on the lookout for quicker ways to the Goal Line.

BONUS SECONDS

After Level 1, any seconds left over from the previous level are added to your time on the next level. You also get a Time Bonus for each leftover second!

BONUS POINTS

You'll get bonus points for finding shortcuts and battling certain enemies. Your bonus points will flash on the screen when you earn them. For example: on Level 1, press **BUTTON 1** to jump across to a tic-tac-toe grid for bonus points. Do a little exploring to find out where you can earn bonus points.

THE HIGH ROLLERS SCREEN

For the duration of play, your name and score will appear on the High Rollers screen if your score is high enough. You don't have to reach the Final (6th) Goal Line to be a High Roller — you just have to rack up a lot of points trying to get there!

HANDLING THE SEGA™ GAME GEAR™ CARTRIDGE

- The Sega Game Gear Cartridge is intended exclusively for the Sega Game Gear System.
- Do not bend, crush or submerge in liquids.
- Do not leave in direct sunlight or near a radiator or other source of heat.
- Do not leave game paused for a long period of time as the image may "burn" into the screen.
