IMPORTANT: ALWAYS MAKE SURE THE POWER SWITCH IS TURNED OFF BEFORE INSERTING OR REMOVING THE SEGA CARTRIDGE.

ROBOTNIK STRIKES AGAIN!

The twisted Dr. Robotnik is back! And this time he's hatched an evil plan to transform all the creatures of Mobius into robots. To do this, Robotnik's designed the Volcano Veg-O Fortress, a super-efficient robot factory hidden inside an island volcano.

Robotnik's harnessed the molten lava of the volcano to power the Veg-O Fortress. He's already captured thousands of animals in his fiery fortress. And he's created a diabolical pinball security system to secure their imprisonment. It's up to Sonic — the world's coolest hedgehog — to free his friends and stop Robotnik's sinister scheme, before it's too late!

- Sends Sonic into his Super Spin Dash. Hold the D-Pad in the "down" direction and press Button 1 or 2. (Button 1 also does this.)

GETTING STARTED

When you turn on *Sonic Spinball* you'll see the Title Screen. Press the D-Pad UP/DOWN to highlight Start or Options on the Title Screen. Then press Start to enter your selection.

When you select Start you'll see Sonic flying towards the Volcano Veg-O Fortress. Then you'll arrive at the beginning of the Toxic Pools Level.

OPTIONS SCREEN

Select Options on the *Sonic Spinball* Title Screen to adjust flipper controls, number of Continues, difficulty level, music settings and sound effects, and to exit the Options Screen.

Use the Options Screen to choose between two flipper control settings. In "Type 1" mode, Button 1 controls the left flipper and Button 2 controls the right flipper. In "Type 2" mode, pressing down on the D-Pad activates the left flipper. Button 2 controls the right flipper, and Button 1 activates both flippers at the same time.

There are two difficulty settings — "Easy" and "Normal." Select "Easy" to reduce the number of drop targets you need to hit to make the playfield safer.

The Options Screen also lets you choose between 3, 5 and 7 "Continues." If you select 3 Continues, you'll get two more complete 5-ball games to continue your Spinball adventure. Select 5 Continues and get 4 more games, select 7 and get six more games to try to crush Robotnik.

SPIN, FLIP AND FLY!

As Sonic, you'll rocket through Robotnik's pinball fortress. Along the way, you'll bounce off bumpers and knock down targets, grab rings, destroy enemies, find Emeralds and perform outrageous acrobatics.

The longer you stay alive, the more points you'll score, and the more levels you'll explore. Make it to the showdown with Dr. Robotnik, and things really heat up!

VENTURE INTO THE VOLCANO!

Dr. Robotnik's Veg-O Fortress contains four levels, each divided into three acts. If you find all the Emeralds in a level, you'll face off with one of Robotnik's brainwashed Bosses. Beat the Boss and advance to a Special Bonus Stage.

TOXIC POOLS

Blast your way through chambers oozing with nasty green slime. Take a ride on a geyser accelerator. Shoot through tubes to the upper tables. Smash into mechanical worm bumpers. Way cool!

LAVA POWERHOUSE

You've entered the energy generator for the Veg-O Fortress. Here you'll explode out of a lava cannon. Fly through tunnels on bursts of steam. Leap onto searing trampolines. But look out for the lava pits — or you could get burned!

THE MACHINE

Spin into Robotnik's prison and robot manufacturing facility. Crash into gigantic padlock bumpers. Catch a ride on a conveyor belt. Feel the power surge from electric chambers. Don't get crushed in the grinding gears!

THE FINAL SHOWDOWN

After Sonic destroys the Veg-O machine, the fortress blows apart and the volcano erupts. But slippery Robotnik's escaped in his rocket ship! Bounce up off of flying bumpers and flippers, disintegrating platforms, springs and other fortress remnants. Spin on the rotating valves for your shot at Robotnik. But blow your chance and you'll end up back in the scorching volcano!

SPECIAL STAGE "BONUS CAGES"

There are three Emeralds in Levels 1 and 2 and five Emeralds in Levels 3 and 4. Find all the Emeralds in each level, and you'll earn a shot at one of Robotnik's Bosses. Beat the Boss and advance to a Special Stage — the "Bonus Cages".

Each Special Stage consists of three cages. Press down on the D-Pad to zip back and forth along the cage bottoms, gain speed and grab rings. When you've collected half the rings, a door opens and you can enter the cage to the right.

Look for mystery boxes in each cage. The boxes hold extra time, points, rings, continues or extra lives. Bounce on the boxes to open them. But make sure to get out of the third cage before the allotted time runs out, or you won't get credit for anything you grabbed in the Special Stage.

FLIPPERS, BUMPERS AND DROP TARGETS

Flippers

Bumpers

Drop Targets

Throughout the pinball volcano are flippers, bumpers and drop targets. Aim with the flippers to shoot Sonic into enemies, chutes, bumpers and drop targets. Hit bumpers to get a burst of speed and score points. Hit drop targets to open gates and score additional points.

ENEMIES

The Veg-O Fortress is filled with robot enemies. When Sonic collides with an enemy, the robot is destroyed and the animal trapped inside is freed.

MATCH SCREEN

At the end of your Sonic Spinball game, you'll see a 4-digit number spinning next to your final score. Press Button 1 or 2 to stop the spinning number. If the 4 digits match the last 4 digits of your score, you win a free ball—and one last chance to ruin Robotnik!

TIPS FOR WINNING

- Hold the flipper button down and “steer” hard left or right with the D-Pad when Sonic is falling. This will increase your chances of “catching” Sonic and avoiding death.
- Hold the flipper buttons down to catch and cradle Sonic. Then fire at will to increase your chance of hitting targets, bumpers and enemies.
- If you see an arrow, follow it — it will lead you to the correct path.
- Take out drop targets as soon as you can. This will make the playfield a safer place and open up pathways to the upper tables.
- In the Special Stage “Bonus Cages”, try to get half of the cage’s rings first. Then you’ll be sure to have an exit before time runs out.
