When you return to play, the Pre-Game Options screen will display the word "Continue" in the Game Type option. Press **Start** and your League play will begin where you left off.

You can select an Exhibition game in place of Continue without affecting the League in progress. If you select any other play type, the stored League information will be erased.

GRIDIRON TIPS

- Watch where you're going. Your quarterback can sack himself by banging into his own backs.
- Pass quick. The longer you hold the ball in the pocket, the better the chance the Defense will cover your receivers.
- Trouble completing passes? Try letting your receiver run out to the pass on his own. When he catches it, take control.
- Spin! Slide by those tackles by spinning (**Button B**).
- Speed! Use Speed Burst on Offense and Defense.
- Follow your blockers. Your line is clearing the way.
- On an option play, hold the ball until the last second before you pitch to the running back.
- When you're behind, the two-point conversion can be a game saver. Use it wisely. College coaches follow a general rule: go for two at home. Kick when you're playing an away game.
