Dead Angle

It's 1931 in New York, the Big Apple. You're George Phenix, criminal investigator. You've just put the mob's biggest crime lord behind bars for good. Robert King, King of the Underground, is no more. Before he went to the slammer, King vowed that he would have revenge on you. But the dirty rat didn't scare you.

As a reward for work well done, you took your favorite girl Jane on a romantic trip to Italy. Then tragedy struck in the town of Napoli! King's mobsters took Jane! You rushed after them, guns blazing. But they were too fast. King had escaped from jail. This was his revenge.

Now you're tracking them down, wherever they may go, no matter how many mobsters you have to ice! Somewhere, King is holding your girl and only you can rescue her. As the grenades fly and the roar of Tommy guns fills the air, you've got to wonder ... can you save Jane from the Big Sleep?

Taking Control

D-Button: Moves the gunsight LEFT, RIGHT, UP, DOWN.

NOTE: To move in a direction, move the gunsight in that direction with the D-Button and hold it there until you have moved the desired distance.

Button 1: Fires single shot gun. When a machine gun is acquired, fires multiple shots.

Button 2: To duck. The gunsight can be moved from this position.

NOTE: Continuously pressing Button 2 will allow the silhouette to duck for a longer period of time. But once that period of time has elapsed, pressing Button 2 will have no effect for a short period of time.

Getting Started

To start a game of Dead Angle, press Button 1 or Button 2 on Control Pad 1 during the title screen. Pressing Button 1 or Button 2 during the demo scene will bring you back to the title screen.

Game Over

You begin the game with three lives. A life is lost when the following occurs:

- George is shot three times in one round.
- The round timer reaches zero before you have completed the round.

You gain EXTRA LIVES at 30,000 points and at 100,000 points. As long as you have lives left, you can be healed in the course of a round and can continue to fight. You cannot be healed when in your last life. Lose it, and the game is over.

Playing Dead Angle

There are six rounds to Dead Angle. You must fight your way through all six to rescue Jane, defeat Robert King and win the game.

- You begin the game armed only with a pistol. But during the course of play you will be able to pick up Tommy guns to use for a limited amount of time.
- If George Phenix is wounded, he can recover from his injuries by obtaining First Aid Kits.
- During play, the gunsight can be moved to the center of the screen by first moving it to the edge of the screen, then releasing the D-Button.
- When the number of gangsters in a round reaches zero, the game will automatically move you to where the Round

Boss is waiting. You must beat him to advance to the next round.

Viewing the Game

When playing the game, George Phenix is shown as a yellow silhouette on the screen.

Life Meter:

The colored bar is George's life meter. When he is shot, the meter will be shortened by a third. If George is shot three times, the game is over.

Time Limit:

Each round must be completed in a certain amount of time. If the time limit reaches zero before George defeats the Round Boss, he fails and the number of lives remaining is reduced by one.

George's Silhouette:

This indicates where George is in relation to the gangsters. When George is being targeted, the silhouette will turn red. Whenever George is shot, a bullet wound will appear on the silhouette. Obtaining a First Aid Kit will remove one of the bullet wounds. The silhouette will also crouch when Button 2 is pressed.

Making Points

Your score will increase each time you beat an enemy. The score is shown each time you win a round and when the game is over.

If you win a round with time remaining, the time is added to your score as a bonus.

Helpful Hints

- Always shoot the First Aid Kits when they appear. You need them to sustain your life. You won't finish the game without them!
- Machine guns are more effective against the Round Bosses.
- The gangsters shoot when running and when rolling over. Stay calm and get a lead on them with the gunsight, when you can!
- There are enemies on all floors of the buildings and warehouses. When the number of enemies has not reached zero and you don't see any, go hunting on the upper floors.
- When you fight Robert King, be sure not to shoot Jane!
- If you own a Sega Rapid Fire Unit, try it with this game!
