Dino Destruction!

War is hell unless you're a dinosaur with a major attitude. Then it's fun! Stomp into battle with three tough-talkin' dino dudes with a zest for action and high-caliber weapons!

Archie the Tyrannosaurus Rex is a seek-and-destroy kinda guy. He sports a leather jacket and fully automatic machine gun.

Lorenzo the Triceratops strikes a classy tone in his Hawaiian shirt and .50 caliber elephant gun. He'll polish off his gun barrel or the guy beside him with equal flair!

Stegosaurus Reese goes nowhere without his pulse cannon. A loose cannon himself, this big guy will fly into a bone-busting tantrum at the drop of a gun clip!

The boys get happy when they smell the aroma of gun powder. Oh sure, they'll tip the scales of justice toward the good. But hey, the fun's in the guns, right?

Speaking of guns, have you shot yours today? Well, load up, 'cuz it's time to unload some reptilian rage on the criminal crust who want to wreck cable TV and take over the world. As Reese would say, "Make my millenium, punks!"

Setting Up

1. Set up the Genesis System and plug in control pad 1. For two-player games, plug in control pad 2.
2. With the power switch OFF, insert the *Dinosaurs for Hire* cartridge into the cartridge slot and press it down **firmly**.

4. Press the **Start** button on control pad 1 to bring up the Title screen.

Important: If you don't see the Sega screen, turn the power switch OFF. Check your Genesis setup, make sure the cartridge is **firmly** inserted in the console, and then turn the power switch ON again. Always turn the power switch OFF when you're inserting or removing the cartridge.

DINOSAUR COMBAT CREDO

Combat Tips

- Use the Dino Stomp. The boys learned this one back in the swamp days and it works just as good in the urban jungle. It squashes **almost** everything.
- Lay down and fire to blast low targets and dodge enemy counterattacks.
- Slash out with a close-up attack for in-your-face enemies.

Smash 'Em Flat!

Health Bar: Decreases as you take damage. When the bar empties, you lose one life.

Lives: Shows the number of lives you have left. You start each game with four lives. You lose a life when you lose all your health, but you will return to the game as long as you have lives left.

Smart Bombs: Shows the number of Smart Bombs you have. You start the game with one Bomb, and you can pick up more during battle. To use a Smart Bomb, press **Buttons A + B + C** together to obliterate all enemies on screen.

Score: Your score so far for annihilating punks, thugs, ninjas, commandos, creeps, monsters and scumwads.

Boss Combat Hints

Before you tangle with mid-level and end-level bosses, Cyrano wings into view to give you some vital survival hints. Press **Start** to exit and take on your arch enemies!

Power-Ups

Blast the Crystals you find in the battlezones, and then jump or move into them to gain their power-ups. They contain smart bombs, extra lives and stuff that keeps a combat-weary dinosaur in top fighting condition.

Multishot triples your weapon's shots.

Power Field makes a dino invincible for a short time.

Dino Juice restores some health.

Dino adds another life.

Nuclear Holocaust gives you another Smart Bomb.

Universal Firepower fully powers up your weapon.

Game Over and Continues

When you lose your last life, the Continue screen appears. Press **Start** before the countdown reaches zero to resume the game from the beginning of the last level you played.
