THE GAME

Thrill at the excitement of Grand Prix style endurance car racing in this fast and furious Formula One Game. You are a Grand Prix driver with a race to win and plenty of hazards to avoid. Watch the other competitors as you screech past them, they will try to cut you up if they can. Try your hand at driving with full throttle through darkness and on icy corners.

LOADING

1. Connect a suitable cassette player to your Spectrum according to the User Manual. THEN FOLLOW INSTRUCTIONS 3, 4 AND 5 BELOW.

SPECTRUM 48/128 and PLUS 2 OWNERS

2. Put the 48/128 and Plus 2 systems into 48K mode.
3. Place the rewind cassette into the cassette player.
4. Type LOAD " " on your Spectrum and press ENTER.
5. Press PLAY on the cassette player.

NOTE: Full loading instructions can be found in your Spectrum Manual.

PLAYING THE GAME

Keyboard Controls

Left=P Right=O Accelerate=2 Brake=W

ENDURO can also be played using the Spectrum 2 or Kempston joystick interface plugged into your Spectrum computer.

The indicator at the bottom of the screen shows you how you are progressing through the game. The top figure shows how many miles you have completed, the bottom left shows your level, whilst the bottom right is the indicator which allows you to see what position you are in the current race.
